Introduction by the Author. Mary Daly's New Intergalactic Introduction explores her process as a Crafty Pirate on the Journey of Writing Gyn/Ecology and reveals the autobiographical context of this "Thunderbolt of Rage" that she first hurled against the patriarchs in 1979 and no hurls again in the Re-Surging Movement of Radical Feminism in the Be-Dazzling Nineties. Native Tours - Erve Chambers 2019-06-20 Previous editions of Native Tours provided a much-needed overview and analysis of anthropology's contributions to tourism as an emerging field of study. Such a cultural perspective illuminated key ideas surrounding worldwide host-guest relations and informed discussions of political and economic influences and the impacts, both negative and positive, of tourism as one of the world's largest industries. Applying a characteristically uncluttered, authoritative writing style alongside an exceptional command of the relevant literature, Chambers updates, refines, and extends his

earlier work. He retains a focus on the social, cultural, economic, and environmental consequences of tourism, and provides a framework for understanding tourism initiatives in their particular circumstances. Three detailed case studies originating in the American Southwest, the Tirolean Alps, and Belize illustrate the varied costs and benefits of tourism.

[Freedom Dreams](#) - Robin D.G. Kelley 2003-06-15  
Kelley unearths freedom dreams in this exciting history of renegade intellectuals and artists of the African diaspora in the twentieth century. Focusing on the visions of activists from C. L. R. James to Aime Cesaire and Malcolm X, Kelley writes of the hope that Communism offered, the mindscapes of Surrealism, the transformative potential of radical feminism, and of the four-hundred-year-old dream of reparations for

slavery and Jim Crow. From 'the preeminent historian of black popular culture' (Cornel West), an inspiring work on the power of imagination to transform society.

*Each Wild Idea* - Geoffrey Batchen 2002-02-22  
Essays on photography and the medium's history and evolving identity. In *Each Wild Idea*, Geoffrey Batchen explores a wide range of photographic subjects, from the timing of the medium's invention to the various implications of cyberculture. Along the way, he reflects on contemporary art photography, the role of the vernacular in photography's history, and the Australianness of Australian photography. The essays all focus on a consideration of specific photographs—from a humble combination of baby photos and bronzed booties to a masterwork by Alfred Stieglitz. Although Batchen views each photograph within the context of broader social and political forces, he also engages its own distinctive formal attributes. In short, he sees photography as

something that is simultaneously material and cultural. In an effort to evoke the lived experience of history, he frequently relies on sheer description as the mode of analysis, insisting that we look right at—rather than beyond—the photograph being discussed. A constant theme throughout the book is the question of photography's past, present, and future identity.

**Folklore/Cinema** - Sharon R. Sherman  
2007-09-30

Interest in the conjunctions of film and folklore is stronger and more diverse than ever. Ethnographic documentaries on folk life and expression remain a vital genre, but scholars such as Mikel Koven and Sharon Sherman also are exploring how folklore elements appear in, and merge with, popular cinema. They look at how movies, a popular culture medium, can as well be both a medium and type of folklore,

playing cultural roles and conveying meanings customarily found in other folkloric forms. They thus use the methodology of folklore studies to “read” films made for commercial distribution. The contributors to this book look at film and folklore convergences, showing how cinema conveys vernacular—traditional and popular—culture. *Folklore/ Cinema* will be of interest to scholars from many fields—folklore, film studies, popular culture, American studies, history, anthropology, and literature among them—and will help introduce students in various courses to intersections of film and culture.

**Convergence Culture** - Henry Jenkins 2008-09  
“What the future fortunes of [Gramsci’s] writings will be, we cannot know. However, his permanence is already sufficiently sure, and justifies the historical study of his international reception. The present collection of studies is an indispensable foundation for this.” —Eric Hobsbawm, from the preface Antonio Gramsci is a giant of Marxian thought and one of the world's greatest cultural critics. Antonio A. Santucci is perhaps the world's preeminent Gramsci scholar. Monthly Review Press is proud to publish, for the first time in English, Santucci’s masterful intellectual biography of the great Sardinian scholar and revolutionary.

Gramscian terms such as “civil society” and “hegemony” are much used in everyday political discourse. Santucci warns us, however, that these words have been appropriated by both radicals and conservatives for contemporary and often self-serving ends that often have nothing to do with Gramsci’s purposes in developing them. Rather what we must do, and what Santucci illustrates time and again in his dissection of Gramsci’s writings, is absorb Gramsci’s methods. These can be summed up as the suspicion of “grand explanatory schemes,” the unity of theory and practice, and a focus on the details of everyday life. With respect to the last of these, Joseph Buttigieg says in his Nota: “Gramsci did not set out to explain historical reality armed with some full-fledged concept, such as hegemony; rather, he examined the minutiae of concrete social, economic, cultural, and political relations as they are lived in by individuals in their specific historical circumstances and, gradually, he acquired an

increasingly complex understanding of how hegemony operates in many diverse ways and under many aspects within the capillaries of society.” The rigor of Santucci’s examination of Gramsci’s life and work matches that of the seminal thought of the master himself. Readers will be enlightened and inspired by every page.

Accounting for Culture - Caroline Andrew

2005-03-30

Many scholars, practitioners, and policy-makers in the cultural sector argue that Canadian cultural policy is at a crossroads: that the environment for cultural policy-making has evolved substantially and that traditional rationales for state intervention no longer apply. The concept of cultural citizenship is a relative

newcomer to the cultural policy landscape, and offers a potentially compelling alternative rationale for government intervention in the cultural sector. Likewise, the articulation and use of cultural indicators and of governance concepts are also new arrivals, emerging as potentially powerful tools for policy and program development. Accounting for Culture is a unique collection of essays from leading Canadian and international scholars that critically examines cultural citizenship, cultural indicators, and governance in the context of evolving cultural practices and cultural policy-making. It will be of great interest to scholars of cultural policy, communications, cultural studies, and public administration alike.

Delius and the Sound of Place - Daniel M. Grimley 2018-11-30

Few composers have responded as powerfully to place as Frederick Delius (1862–1934). Born in Yorkshire, Delius resided in the United States, Germany, and Scandinavia before settling in France, where he spent the majority of his professional career. This book examines the role of place in selected works, including 'On Hearing the First Cuckoo in Spring', Appalachia, and The Song of the High Hills, reading place as a creative and historically mediated category in his music. Drawing on archival sources, contemporary art, and literature, and more recent writing in cultural geography and the philosophy of place, this is a new interpretation of Delius' work, and he emerges as one of the most original and compelling voices in early twentieth-century music. As the popularity of his music grows, this book challenges the idea of

Delius as a large-scale rhapsodic composer, and reveals a richer and more productive relationship between place and music.

**Empire of the Summer Moon** - S. C. Gwynne 2010-05-25

\*Finalist for the Pulitzer Prize and the National Book Critics Circle Award\* \*A New York Times Notable Book\* \*Winner of the Texas Book Award and the Oklahoma Book Award\* This New York Times bestseller and stunning historical account of the forty-year battle between Comanche Indians and white settlers for control of the American West “is nothing short of a revelation...will leave dust and blood on your jeans” (The New York Times Book Review). Empire of the Summer Moon spans two astonishing stories. The first traces the rise and fall of the Comanches, the most powerful Indian tribe in American history. The second entails one of the most remarkable narratives ever to come out of the Old West: the epic saga of the pioneer woman Cynthia Ann Parker and her mixed-blood

son Quanah, who became the last and greatest chief of the Comanches. Although readers may be more familiar with the tribal names Apache and Sioux, it was in fact the legendary fighting ability of the Comanches that determined when the American West opened up. Comanche boys became adept bareback riders by age six; full Comanche braves were considered the best horsemen who ever rode. They were so masterful at war and so skillful with their arrows and lances that they stopped the northern drive of colonial Spain from Mexico and halted the French expansion westward from Louisiana. White settlers arriving in Texas from the eastern United States were surprised to find the frontier being rolled backward by Comanches incensed by the invasion of their tribal lands. The war with the Comanches lasted four decades, in effect holding up the development of the new American nation. Gwynne's exhilarating account delivers a sweeping narrative that encompasses Spanish colonialism, the Civil War, the

destruction of the buffalo herds, and the arrival of the railroads, and the amazing story of Cynthia Ann Parker and her son Quanah—a historical feast for anyone interested in how the United States came into being. Hailed by critics, S. C. Gwynne's account of these events is meticulously researched, intellectually provocative, and, above all, thrillingly told. Empire of the Summer Moon announces him as a major new writer of American history.

a series of devastating deaths, then emerge in bohemian Bloomsbury, bent on creating new lives and groundbreaking works of art. Through everything—marriage, lovers, loss, madness, children, success and failure—the sisters remain the closest of co-conspirators. But they also betray each other. In this lyrical, impressionistic account, written as a love letter and an elegy from Vanessa to Virginia, Susan Sellers imagines her way into the heart of the lifelong relationship between writer Virginia Woolf and painter Vanessa Bell. With sensitivity and fidelity to what is known of both lives, Sellers has created a powerful portrait of sibling rivalry, and “beautifully imagines what it must have meant to be a gifted artist yoked to a sister of dangerous, provocative genius” (Cleveland Plain Dealer). “A delectable little book for anyone who ever admired the Bloomsbury group. . . . A genuine treat.” —Publishers Weekly

**Writing on Skin in the Age of Chaucer** -

Owing to its relatedness to parchment as the primary writing matter of the Middle Ages, human skin was not only a topic to write about in medieval texts, it was also conceived of as an inscribable surface, both in the material and in the figurative sense. Geoffrey Chaucer and other writers (medical, religious, philosophical, and literary) of the fourteenth and fifteenth century. It presents four main aspects of the complex relations between text, parchment, and human skin as they have been discussed in recent scholarship. These four aspects are, first, the (mostly figurative) resonances between parchment-making and transformations of human skin, second, parchment as a space of contact between animal and human spheres, third, human skin and parchment as sites where (gender) identities are negotiated, and fourth, the place of medieval skin studies within cultural studies and its relationship to the major concerns of cultural studies: the difficult demarcation of skin from body, the instability of any inscription, and the skin's precarious state as an entity of its own.

It is also a passionate story of love and search, of separation and rebirth, centred on Mary as the wellspring of womanhood. *Extended Play* - John Corbett 1994

In *Extended Play*, one of the country's most innovative music writers conducts a wide-ranging tour through the outer limits of contemporary music. Over the course of more than twenty-five portraits, interviews, and essays, John Corbett engages artists from lands as distant as Sweden, Siberia, and Saturn. With a special emphasis on African American and European improvisers, the book explores the famous and the little known, from John Cage and George Clinton to Anthony Braxton and Sun Ra. Employing approaches as diverse as the music

he celebrates, Corbett illuminates the sound and theory of funk and rap, blues and jazz, contemporary classical, free improvisation, rock, and reggae. Using cultural critique and textual theory, Corbett addresses a broad spectrum of issues, such as the status of recorded music in postmodern culture, the politics of self-censorship, experimentation, and alternativism in the music industry, and the use of metaphors of space and madness in the work of African American musicians. He follows these more theoretically oriented essays with a series of extensive profiles and in-depth interviews that offer contrasting and complementary perspectives on some of the world's most creative musicians and their work. Included here are more than twenty original photographs as well as a meticulously annotated discography. The result is one of the most thoughtful, and most entertaining, investigations of contemporary music available today.

2016-11-01

Why did France spawn the radical poststructuralist rejection of the humanist concept of 'man' as a rational, knowing subject? In this innovative cultural history, Carolyn J. Dean sheds light on the origins of poststructuralist thought, paying particular attention to the reinterpretation of the self by Jacques Lacan, Georges Bataille, and other French thinkers. Arguing that the widely shared

belief that the boundaries between self and other had disappeared during the Great War helps explain the genesis of the new concept of the self, Dean examines an array of evidence from medical texts and literary works alike. *The Self and Its Pleasures* offers a pathbreaking understanding of the boundaries between theory and history.
