to express yourself than through creative art projects. This is especially true for children because it gives them an outlet to explore their developing interests and strengths. Art Lab for Kids: Express Yourself contains 52 brand new original art projects that will draw out each young artist as they discover their style, document their thoughts, and build confidence in their unique perspective. Each lesson asks questions and offers personal choices while encouraging diverse approaches and creative thinking. The Colorful Beasts project, which incorporates discussion of endangered animals with the Blue Rider art movement, asks children to use torn colored tissue paper and glue to create an expressive representation of a favorite vulnerable animal. In I Built This City, children imagine and build their own cityscape using columns of newspaper text to make buildings on top of a watercolor painted background, and detailed with marker. Many projects include varying examples and executions of the activity

to illustrate and reinforce the open-ended nature of the labs, inspiring children to embrace and share their own voice. Give children the great gift of creative self-exploration with Art Lab for Kids, Express Yourself. The popular Lab for Kids series features a growing list of books that share hands-on activities and projects on a wide host of topics, including art, astronomy, clay, geology, math, and even how to create your own circus—all authored by established experts in their fields. Each lab contains a complete materials list, clear step-by-step photographs of the process, as well as finished samples. The labs can be used as singular projects or as part of a yearlong curriculum of experiential learning. The activities are open-ended, designed to be explored over and over, often with different results. Geared toward being taught or guided by adults, they are enriching for a range of ages and skill levels. Gain firsthand knowledge on your favorite topic with Lab for Kids.

Art Themes - Marjorie Cohee Manifold
2017-11-20

Flexible in approach and full of colorful examples, this textbook provides a basic introduction to what art is and can be in the lives of people who do not necessarily think of themselves as "artists." You will be taught about a variety of art themes, genres, materials, and processes that appeal to novice art makers. The lessons are organized by themes of general subject matter or media. Options are available for work in mixed media, crafts, photography and digital media, as well as in traditional drawing or painting media. After picking a theme of particular interest to you, look next at the four strands of lessons presented in that thematic unit. Moving from left to right, select one lesson from each consecutive strand and complete that lesson. Because each lesson builds upon previously presented knowledge and developed skill, as you progress through four

lessons, one from each strand, you should grow in your understanding of art concepts, meanings, and processes, while also improving your art making skills. Completing this course will help you develop a new appreciation for the power and possibilities of art learning, by understanding better the art others create, as well as making it yourself.

My Soul Has Grown Deep - Cheryl Finley

2018-05-21

My Soul Has Grown Deep considers the art-historical significance of contemporary Black artists and quilters working throughout the southeastern United States and Alabama in particular. Their paintings, drawings, mixed-

media compositions, sculptures, and textiles include pieces ranging from the profoundly moving assemblages of Thornton Dial to the renowned quilts of Gee’s Bend. Nearly sixty remarkable examples—originally collected by the Souls Grown Deep Foundation and donated to The Metropolitan Museum of Art—are illustrated alongside insightful texts that situate them in the history of modernism and the context of the African American experience in the twentieth-century South. This remarkable study simultaneously considers these works on their own merits while making connections to mainstream contemporary art. Art historians Cheryl Finley, Randall R. Griffey, and Amelia Peck illuminate shared artistic practices, including the novel use of found or salvaged materials and the artists’ interest in improvisational approaches across media. Novelist and essayist Darryl Pinckney provides a thoughtful consideration of the cultural and political history of the American South, during

and after the Civil Rights era. These diverse works, described and beautifully illustrated, tell the compelling stories of artists who overcame enormous obstacles to create distinctive and culturally resonant art. p.p1 {margin: 0.0px 0.0px 0.0px 0.0px; font: 14.0px Verdana}

Garmenting - Alexandra Schwartz 2022

"Garmenting: Costume as Contemporary Art centers on contemporary artists' explorations of how dress both expresses and shapes who we are—our personal, cultural, and political identities—and it is my hope that their work will help stimulate discussion and foster understanding during these troubled times. As the quintessential "outside the box" thinkers, artists have always been on the front lines of driving and processing social change; there is a reason cutting-edge art has long been referred

to by a military term, "avant-garde." As society rebuilds, artists' insights about our world and how we inhabit it are more necessary than ever"—
