The past and future of airline safety—a memoir of successes, crashes, and near-misses—by a former pilot and FAA inspector.

**Texas Courtroom Evidence** - Phillip D. Hardberger 2002

*Hero Town* - Christopher Poole 2012-05-31

Amidst the glittering optimism defining America's post-War period, the great metropolis of New York City is watched over by a legion of costumed superheroes. Half a century later, the heroes are all gone, and New York has collapsed into seemingly irreparable ruin. Throughout the 1950s, superhuman beings with fantastic abilities face off against bizarre enemies and absurd situations in their ongoing fight to uphold justice, defend the innocent, and safeguard the public welfare. In the early 21st century, a group of young superhumans is mentored by the few former heroes that remain, while monstrous

gangsters and crazed supervillains battle for control of New York's decrepit husk. This epic saga, spanning two distinct eras, details the exploits of such magnificent champions as the patriotic Star-Spangled Angel, the sorcerer Dr. Obscura, the nigh omnipotent Super-Atomic Man, and the antisocial Urban Ranger, and the incredible adventures they undertake at the height of the Superheroic Age, while simultaneously examining the mystery of their disappearance, and the events that mold the shape of the dystopian New York of today.

**Proceedings of the American Railway Association** - American Railway Association 1907

*Sitting on a Keg of Dynamite* - John Neal Phillips 2022-09-08

On April 16, 1947, the French vessel SS Grandcamp, carrying ammonium nitrate fertilizer, exploded in the port of Texas City, just north of Galveston, Texas. Nearly 600 people died instantly and property damage reached catastrophic proportions. The Texas City disaster remains, to date, the worst industrial accident in U.S. history. Among those killed was William Roach, a Roman Catholic priest known affectionately as Father Bill. *Sitting on a Keg of Dynamite*, by historian John Neal Phillips, tells the remarkable story of Father Bill's life and premature death against the backdrop of the rapid growth—and near destruction—of an American industrial city. Through extensive archival research and oral interviews, Phillips pieces together previously unknown details of

Father Bill's story to present a well-rounded portrait of the man who is today revered as a hero. Born in Philadelphia, Roach attended seminary in Arkansas before he went on to serve as parish priest for St. Mary of the Miraculous Medal in Texas City. Restless, energetic, and beloved for his humor, tolerance, and empathy, Father Bill was an outspoken advocate for poor and working-class citizens, fair wages, and workplace safety. One evening, as Phillips vividly recounts, Roach sat on the church steps, looking out at the strange orange-yellow light created by hydrocarbon gas flares emerging from nearby oil refineries. "I feel like I'm sitting on a keg of dynamite," he told parishioners who were passing by. His premonition proved prophetic. When a fire erupted onboard the Grandcamp, Father Bill hurried to the docks to lend assistance. It was then that the ship detonated. There is still much to be learned from the Texas City disaster—and from the legacy of Father Bill, an early crusader for social justice in America. Descendants of the disaster victims received financial reparations, and yet, as Phillips cautions, safety and environmental regulations barely exist in Texas today, particularly when it comes to the petrochemical industry. Sitting on a Keg of Dynamite serves as a cautionary tale for Texans—and all Americans—as environmental accidents continue to threaten our safety.

**The South Western Reporter - 1915**

Includes the decisions of the Supreme Courts of Missouri, Arkansas, Tennessee, and Texas, and Court of Appeals of Kentucky; Aug./Dec. 1886-May/Aug. 1892, Court of Appeals of Texas; Aug. 1892/Feb. 1893-Jan./Feb. 1928, Courts of Civil and Criminal Appeals of Texas; Apr./June 1896-Aug./Nov. 1907, Court of Appeals of Indian Territory; May/June 1927-Jan./Feb. 1928, Courts of Appeals of Missouri and Commission of Appeals of Texas.

**Safer Skies** - Ozzie Cheek 2015-02-17

The past and future of airline safety—a memoir of successes, crashes, and near misses—by a former FAA accident inspector. Boarding an airplane strikes at least a small sense of fear into most people. Even though we all have heard the odds of being struck by lightning are greater than the odds of perishing in a plane crash, it still doesn't feel that way. Airplane crashes might be rare, but they do happen, and they're usually fatal. David Soucie insists that most of these deaths could be prevented. Soucie has worked in the cockpit, on the hangar floor, within the aviation boardroom, and inside the Washington, DC beltway. He's seen death up close and personal—deaths of colleagues and friends that might have been prevented if he had approved certain safety measures in the aircraft they were handling. Years of experience have led Soucie to become an impassioned consultant on the topic of airline safety. This includes not only advising the Obama administration, but also the Department of Transportation, the Department of Defense, Homeland Security, NASA, and the Office of National Intelligence. Soucie was also a lead consultant and analyst for coverage of Malaysia Airlines Flight 370, which went missing in March 2014. Find out the truth about airplane safety and discover what the future holds for air travel in Safer Skies. "A must-read." —Joseph M. Del Bazo, president and CEO, JDA Aviation Technology Solutions
