The Meaning of Criticality in Education Research - Ashley Simpson 2020-11-26

This book explores, and problematizes, what it means to be 'critical' in education research. Drawing together chapters from diverse global perspectives, this volume aims to stimulate dialogue about possible meanings of criticality in education research. In doing so, they question why criticality has become such an essential part of education, and what researchers expect of it. The book opens up and contests some of the deficiencies of criticality in education research: ultimately it is not a global term, but often creates a false binary between East and West. Offering an alternative trajectory to educational narratives surrounding criticality, this book will be of interest and value to scholars of critical pedagogy and comparative education.

Action Research - Bridget Somekh 2005-12-16

This book presents a fresh view of action research as a methodology uniquely suited to researching the processes of innovation and change. Drawing on twenty-five years' experience of leading or facilitating action research projects, Bridget Somekh argues that action research can be a powerful systematic intervention, which goes beyond describing, analyzing and theorizing practices to reconstruct and transform those practices. The book examines action research into change in a range of educational settings, such as schools and classrooms, university departments, and a national evaluation of technology in schools. The opening chapter presents eight methodological principles and discusses key methodological issues. The focus then turns to action research in broader contexts such as 'southern' countries, health, business and management, and community development. Each chapter thereafter takes a specific research project as its starting point and critically reviews its design, relationships, knowledge outcomes, political engagement and impact. Action Research is important reading for postgraduate students and practitioner researchers in education, health and management, as well as those in government agencies and charities who wish to research and evaluate change and development initiatives. It is also valuable for pre-service and in-service training of professionals such as teachers, nurses and managers.

The Online Tutor's Toolkit - Molly Bolding 2022-10-12

This book contains everything you need to know to get started as an online tutor. It covers the essentials of tutoring, choosing your tech and software, managing homework, and getting set up alongside detailed guidance focusing on each level of tuition. With techniques developed through research and first-hand experience, the author explains exactly how to turn existing subject knowledge into effective tutoring for students of all ages in a variety of subjects. Divided into two parts, the first answers the logistical questions facing every new tutor such as: what equipment do I need? Where can I apply? How much should I charge? The second half focuses on how to tutor different age groups effectively and subject-specific areas including English, Maths, and Science, as well as the author's tried-and-tested '5 step' process for choosing a subject, assessing a student, and planning their first lessons. There is also information on how to support students writing personal statements and applying to university, as well as teaching English as a Second Language. Alongside tailored, up-to-date information on available software, hardware, exam specifications, and the online tutoring marketplace, the book contains a 10-week timetable of adaptable lesson plans so new tutors can get started immediately. Finally, there are two additional downloadable chapters which expand on less common subjects and another which includes a digital download of every resource from

the book. With suggestions for resources, homework, and timings to support you at every stage, this is an essential read for anyone wanting to succeed as an online tutor.

International Perspectives on Creative Writing in Second Language Education - Bee Chamcharatsri 2022-02-11

This volume explores the instructional use of creative writing in secondary and post-secondary contexts to enhance students' language proficiency and expression in English as a second or foreign language (ESL/EFL). Offering a diverse range of perspectives from scholars and practitioners involved in English language teaching (ELT) globally, *International Perspectives on Creative Writing in Second Language Education* tackles foundational questions around why fiction and creative writing have been traditionally omitted from ESL and EFL curricula. By drawing on empirical research and first-hand experience, contributors showcase a range of creative genres including autobiography, scriptwriting, poetry, and e-Portfolios, and provide new insight into the benefits of second language creative writing for learners' language proficiency, emotional expression, and identity development. The volume makes a unique contribution to the field of second language writing by highlighting the breadth of second language users throughout the world, and foregrounding links between identity, learning, and ESL/EFL writing. This insightful volume will be of particular interest to postgraduate students, researchers, and academics in the fields of ESL/EFL learning, composition studies, and second language acquisition (SLA). Those with a focus on the use of creative writing in classrooms more broadly, will also find the book of interest.

Learning Teaching - Pete Boyd 2015-11-02

This essential and aspirational text is aimed at all beginning teachers whatever your training route, age phase and setting. It explicitly adopts and builds on a new metaphor for teachers' professional learning as interplay between the body of public knowledge and the practical wisdom of teachers within a particular school setting. It also accepts that 'telling' you how to teach is ineffective; you need to 'become a teacher' because it involves identity and practice. Inquiry-based critically reflective learning with a clear focus on the learning of pupils is proposed as the core strategy by which you can build your knowledge and skills to become an outstanding teacher. Core topics, including planning, inclusion, teaching, assessment and professional development, are tackled in an accessible and refreshing way, using key research informed evidence. The focus is relentlessly on 'learning' rather than performance, in order to support you becoming an excellent professional teacher, rather than a competent technician, who makes a difference to learners, colleagues, schools and policy. Think of this book as a temporary or additional mentor, challenging you with different ways of thinking about learning and providing strategies to guide your professional learning. "It takes 10 years or more to begin to be a brain surgeon, but sometimes we get 1-3 years at most before we are allowed to work with children's brains as teachers. So we need inspirational teachers and this is the focus of this compact, powerful and insightful book. It is wonderfully designed around five of the most critical dilemmas in our classrooms: belief vs. ability; autonomy vs. compliance; abstract vs. concrete; feedback vs. praise; and collaboration vs. competition. The power of the book is that it illustrates the new move to focus on learning power - and such a focus permits every student to become smarter through effort and deep practice as they struggle with the high-challenge learning activities - in the presence of inspirational, impactful and passionate teachers. The perfect book for those who want to make most of their opportunity to enhance students' brain power." John Hattie, Director, Melbourne Education Research Institute

The Tongue of the Unseen - Rahmat Mazaheri Seif 2020-11-11

Since the middle ages, Persia has produced more great poets than any other country in the world. Sir William Jones about two hundred fifty years ago, in his introduction on Hafez, wrote, "...At Oxford there is a

manuscript containing the lives of a hundred and twenty-eight of the finest Persian poets," of these, according to Iranians, the fourteenth century poet, Hafez, is their last, greatest, and the most beloved of all; even though, Persia has had poets like Sa'di, Khayyam, Ferdosi, Nezami, and Rumi to boast about! (Iranians take Rumi as a Persian.) They also consider Hafez as their most difficult poet to understand. One may ask, how could such a difficult poet be so popular among people of all walks of life? No Hafez scholar, heretofore, has directly addressed, or adequately answered this question! In this book, the author, for the first time, raises and answers this question by bringing convincing examples from different parts of the divan. Another unique aspect of this book is in the fact that the author has interpreted some couplets entirely different than what other commentators have done, and sometimes, the opposite of theirs! Still another difference that we find in this book is the sequence of the couplets in some ghazals. The author, in order to find the natural unity of the poems, he has arranged a new sequence for the couplets. Something that is lacking in all available divans. The translations are accurately and charmingly done in the form of uni-rhymed ghazal, and each one is preceded by the original, and followed by a commentary, something that has never been done before. This book is

written for English-speaking people who wish to know Hafez, especially, the siblings of the Iranians in diaspora, whose children have heard the praise of Hafez from their parents, but are unable to read him in Farsi. It is for them to read him in English and put to test the judgment of their parents.

Anthem For Doomed Youth - Wilfred Owen 2015-02-26

'Tonight he noticed how the women's eyes Passed from him to the strong men that were whole.' The true horror of the trenches is brought to life in this selection of poetry from the front line.
