How I Trade for a Living - Gary Smith
1999-11-09

Master the Markets by Trading from Home! how I trade for a living "Gary Smith deals in reality. If you want to really learn to trade for real profits, not hypothetical, mumbo-back-tested programs, this book is a must. I seldom read market books anymore, but I read every word of this important book. Get it." -Larry Williams, author of Long-Term Secrets to Short-Term Trading "How I Trade for a Living is a remarkable book; truly a treasure trove of market information.. Highly recommended." -Humphrey E. D. Lloyd, MD, author of Trading S&P Futures & Options: A Survival Manual and Study Guide "Straight talk from an accomplished veteran on how to succeed as a full-time trader. Gary Smith recounts the obstacles he overcame on the road to trading mastery and describes the strategies, indicators, and insights he used to reach his goals." -Nelson Freeburg, Editor, Formula Research "It is always valuable to get inside the mind of a successful trader. Gary Smith does a good job taking you there in a book loaded with

useful tips and helpful hints. A worthy addition to any trader's library!" -Gary B. Smith, Contributing Editor, The Street.com "In How I Trade for a Living Gary Smith dispenses a healthy dose of that rarest of all commodities, vicarious experience from a consistently winning trader. New traders will find great benefit from looking over Smith's shoulder as he generously shares with the reader the valuable knowledge he has gained over three decades of trading." -Edward D. Dobson, President, Traders Press, Inc.

How to Day Trade - Ross Cameron 2015-10-29
Success as a day trader will only come to 10 percent of those who try. It's important to understand why most traders fail so that you can avoid those mistakes. The day traders who lose money in the market are losing because of a failure to either choose the right stocks, manage risk, and find proper entries or follow the rules of a proven strategy. In this book, I will teach you trading techniques that I personally use to profit from the market. Before diving into the trading strategies, we will first build your

foundation for success as a trader by discussing the two most important skills you can possess. I like to say that a day trader is two things: a hunter of volatility and a manager of risk. I'll explain how to find predictable volatility and how to manage your risk so you can make money and be right only 50 percent of the time. We turn the tables by putting the odds for success in your favor. By picking up this book, you show dedication to improve your trading. This by itself sets you apart from the majority of beginner traders.

How to Swing Trade for a Living - J.R. Lira
How to Swing Trade for a Living for all beginning aspiring investors and traders who are just getting their head around doing the swing trading business and want to work from home. Everyone has their own ideas of what they think swing trading is and what it can do for them. How to Swing Trade for a Living is for beginners and will detail many of the things that a brand new swing trader must learn to do before they can become consistently profitable in the live markets. How to Swing Trade for a Living will be an incredible read for someone who has zero knowledge and wants to start their own swing trading business from home or someone who has some basic experience who is struggling with their trading and investing. This is a very good book for the beginner as it is easy to absorb information; if you're new all you need to do at this point is try to absorb what is said here. One of the reasons swing trading is so profitable is because the expenses associated with this type of market action are low and do not add up as quickly as they do with other types of trading. Remember, it takes money to make money and also costs money to make money in the live markets. You can begin swing trading with very low capital as long as you have your rule based plan in place and have systematically tested it out.

Stock Market Investing for Beginners & Dummies - Giovanni Rigters

You know that you need to start investing, because you won't be able to work your whole life. You don't want to be the old employee working as a door greeter at your big chain department store. It will also be frustrating and very depressing if you are not financially aware of your future. Time seems to go faster the older

you get and it's never too late to get started. But getting started might be one of your problems. There is too much information available and too many scammers are trying to get you to invest in shady companies. You also don't have the time to figure everything out by yourself, because it might seem too hard and complicated. However, getting the investing part of your life handled will improve your life tremendously. You will have peace of mind when you think about your future and you will also have the confidence to make sound investing decisions. You'll also have the knowledge to talk intelligently with your peers and financial advisors, making it easy to spot when someone is giving you wrong information. I begin with the basics, like what are stocks and how the stock market works. I then transition into how you can make money in the stock market, give you some stocks you should have on your watch list and some of the lies and mistakes you will have to deal with as an investor. So, don't wait and get this book now. It's on sale at this moment, but the price will go up!

How to Actually Day Trade for a Living - Tim Morris

————— Here's a Secret Other Authors Won't Tell You... —————
Day Trading is Hard and Most Day Trading "Educators" Don't Actually Day Trade! You heard that right! They don't make their money from stocks, but from the chatroom memberships, video courses, and monthly subscriptions they sell to you! Before we get started, let me first go over what I don't include in this book... • I have no "day trading" chatroom which charges your credit card each month for a service you'll never use. • I have no monthly website subscription service for "more advanced strategies" that are needed to get started, but not included in the book. • I have no Lamborghini I rented to put behind me in a video, or fake money on a table in front of me. What I do have is a book that will teach you how the day trading industry actually works, my own wisdom from being in the stock market for almost a decade, and strategies you can use to actually start day trading. Here's What You'll Learn In This Book: —————▼—————
• Chapter 1: The Industry - In the first part of the book, I peel back the curtain and go over the actual day trading industry with you. I show you

how so called "pro" traders are able to fake charts, statistics, and trades to make it appear like they actually make money day trading, when they really don't. I then go over the tactics they use to scam traders, and even a website which exposes all the fake educators. • Chapter 2: Terminology - Here we go over all the terms you'll need to know as we progress through the book. Volume, chart types, indicators, order types... it's all covered! • Chapters 3 + 4: Pre-Trading Basics - In these chapters, I go over the basics of day trading. This includes what software and broker to use, finding mentors who you can refer to for help, and what the typical day in the life of a day trader looks like. I then show you how to set up your trading screen, what time frame to use, and the most beneficial types of stocks to trade. • Chapter 5: Day Trading Strategies - This is the heart of the book, and where I spend the most time. In this section, I give you 8 different strategies you can immediately start using to day trade. I include detailed explanations, charts, and examples so you know exactly how to implement the strategies I go over. • Chapter 6: Additional Advice - In the last part of the book, I give you my final bits of advice. This includes how to increase the probability of your trades, using a practice account, and more bits of wisdom I have learned over the years. —▲— I must admit to you, day trading is not easy and there is no guarantee of actually making it. However I feel this book gives you the best chance of actually getting started, as well providing a big picture of the day trading industry. If you've been on the fence about day trading, now is your chance to finally learn what it's all about! As a complimentary bonus, only for book buyers, you'll receive my special report titled Crush the Market! This report goes over 14 beneficial tips I have learned throughout my trading career that will help keep your account profitable in the stock market. If you want to learn the truth about day trading and are ready to get started, pick up your copy of How to Actually Day Trade for a Living right now!

The Void Captain's Tale - Norman Spinrad
2011-09-29

Welcome aboard the sex-drive void ship . . .
Captain Genro commands the giant spaceship
Dragon Zephyr - on board are ten thousand

passengers in electrocoma, a smaller number of conscious passengers eagerly utilising the ship's dream chambers - and a Pilot. In the context of space travel, the Pilot is merely a biological component in the machine. Always a woman, her function is to launch the ship into the Jump by means of a cosmic orgasm. She is a pariah, shunned by all. Void Captain Genro should never even have spoken to his Pilot, let alone tried to embark on a relationship with her. When he did so, the result was every space traveller's nightmare. A Blind Jump into the Void . . .

Day Trading: Beat The System and Make Money in Any Market Environment - Justin Kuepper
2015-04-10

Day Trade For A Living - Ray Tudor Benjamin
2021-12-14

Do you want to learn how to day trade for a living? If so, then read Day trading is a form of trading that starts and closes on the same day so that traders can profit from the marginal profits brought about by the market's daily volatility. If you are a day trader, your goal is to find stocks that are likely to move in your favor for the day to execute your trade accordingly. In general, day traders buy stocks in the morning and hold them until late in the day when the marginal profit is sufficient to make a significant profit. Then they close the deal by selling the stock before the end of the day, so they do not hold

the stock after the market closes. Using the day trading strategy means that you always aim to be out of stock in the evening to avoid the risk of price fluctuations overnight. As with all forms of trading, we want to minimize risk without staying in the market longer than intended. Failure to do so may expose you to unexpected changes that can lead to significant losses. This book covers: Risk and Account Management How to Find Stocks for Trades Tools and Platforms Transactions Borrowings and Fiscal Costs Advanced Options Trading Strategies And so much more!

The New Trading for a Living - Alexander Elder
2014-09-29

The best-selling trading book of all time—updated for the new era The New Trading for a Living updates a modern classic, popular worldwide among both private and institutional traders. This revised and expanded edition brings time-tested concepts in gear with today's fast-moving markets, adding new studies and techniques for the modern trader. This classic guide teaches a calm and disciplined approach to the markets. It emphasizes risk management along with self-management and provides clear rules for both. The New Trading for a Living includes templates for rating stock picks, creating trade plans, and rating your own readiness to trade. It provides the knowledge, perspective, and tools for developing your own effective trading system. All charts in this book are new and in full color, with clear comments on rules and techniques. The clarity of this book's language, its practical illustrations and generous sharing of the essential skills have made it a model for the industry—often imitated but never duplicated. Both new and experienced traders will appreciate its insights and the calm, systematic approach to modern markets. The New Trading for a Living will become an even more valuable resource than the author's previous books: Overcome barriers to success and develop stronger discipline Identify asymmetrical market zones, where rewards are higher and risks lower Master money management as you set entries, targets and stops Use a record-keeping system that will make you into your own teacher Successful trading is based on knowledge, focus, and discipline. The New Trading for a Living will lift

your trading to a higher level by sharing classic wisdom along with modern market tools.

How to Day Trade for a Living - Dr Andrew Aziz 2016-07-28

Very few careers can offer you the freedom, flexibility and income that day trading does. As a day trader, you can live and work anywhere in the world. You can decide when to work and when not to work. You only answer to yourself. That is the life of the successful day trader. Many people aspire to it, but very few succeed. Day trading is not gambling or an online poker game. To be successful at day trading you need the right tools and you need to be motivated, to work hard, and to persevere. At the beginning of my trading career, a pharmaceutical company announced some positive results for one of its drugs and its stock jumped from \$1 to over \$55 in just two days. Two days! I was a beginner at the time. I was the amateur. I purchased 1,000 shares at \$4 and sold them at over \$10. On my very first beginner trade, I made \$6,000 in a matter of minutes. It was pure luck. I honestly had no idea what I was doing. Within a few weeks I had lost that entire \$6,000 by making mistakes in other trades. I was lucky. My first stupid trade was my lucky one. Other people are not so lucky. For many, their first mistake is their last trade because in just a few minutes, in one simple trade, they lose all of the money they

had worked so hard for. With their account at zero, they walk away from day trading. As a new day trader you should never lose sight of the fact that you are competing with professional traders on Wall Street and other experienced traders around the world who are very serious, highly equipped with advanced education and tools, and most importantly, committed to making money. Day trading is not gambling. It is not a hobby. You must approach day trading very, very seriously. As such, I wake up early, go for a run, take a shower, get dressed, eat breakfast, and fire up my trading station before the markets open in New York. I am awake. I am alert. I am motivated when I sit down and start working on the list of stocks I will watch that day. This morning routine has tremendously helped my mental preparation for coming into the market. Whatever your routine is, starting the morning in a similar fashion will pay invaluable dividends. Rolling out of bed and throwing water on your face 15 minutes before the opening bell just does not give you sufficient time to be prepared for the market's opening. Sitting at your computer in your pajamas or underwear does not put you in the right mindset to attack the market. I know. I've experienced all of these scenarios. In *How to Day Trade for a Living*, I will show you how you too can take control over your life and have success in day trading on the stock market. I love teaching. It's my passion. In this book, I use simple and easy to understand words to explain the strategies and concepts you need to know to launch yourself into day trading on the stock market. This book is definitely NOT a difficult, technical, hard to understand, complicated and complex guide to the stock market. It's concise. It's practical. It's written for everyone. You can learn how to beat Wall Street at its own game. And, as a purchaser of my book, you will also receive a membership in my community of day traders at www.vancouver-traders.com. You can monitor my screen in real time, watch me trade the strategies explained in his book, and ask questions of me and other traders in our private chat room. I invite you to join me in the world of day trading. I'm a real person who you can connect with. I'm not just a photograph here on the Amazon site. I love what I do. You can follow my blog post under Author Updates on my

Author page on Amazon. It's honest. You'll see I lose some days. You can read the reviews of my book. I know you will learn much about day trading and the stock market from studying my book. You can join at no cost and with no obligation my community of day traders at www.vancouver-traders.com. You can ask us questions. Practical, hands-on knowledge. That's *How to Day Trade for a Living*.

Trading Tools and Tactics - Greg Capra
2011-06-24

From the founder of the leading online trading education company Pristine.com, a simple technical method to trade or invest Many trading books present esoteric trading concepts and complicated indicators that may look good on paper when viewing the past, but prove ineffective in the real world. *Trading Tools and Tactics: Reading the Mind of the Market* doesn't just make investing look easy; it makes trading easy by teaching you not only how to identify price moves, but by helping you understand why prices move the way they do. Covers managing trades and setting entries and stops, and helps you view how failed trades or chart patterns of the past can become new opportunities. Describes how to identify and understand supply and demand as it relates to resistance and support, as well as how to combine and read multiple time frames that offer the best opportunity to take profits. Details both concepts and practical tools to use for life, not just the current market. Investing is all about finding the right price patterns to profit from by understanding support, resistance, trends, and volume? as well as identifying the best time frames to trade. *Trading Tools* shows you how to do just this.

Advanced Techniques in Day Trading -

Andrew Aziz 2018-06-12

This well-thought-out training regimen begins with an in-depth look at the necessary tools of the trade including your scanner, software and platform; and then moves to practical advice on subjects such as how to find the right stocks to trade, how to define support and resistance levels, and how to best manage your trades in the stress of the moment. An extensive review of proven trading strategies follows, all amply illustrated with real examples from recent trades. Risk management is addressed including tips on how to determine proper entry, profit targets and stop losses. Lastly, to bring it all together, there's a "behind the scenes" look at the author's thought process as he walks you through a number of trades. While aimed at the reader with some exposure to day trading, the novice trader will also find much useful information, easily explained, on the pages within. In this book, you'll learn...* How to start day trading as a business* How to day trade stocks, not gamble on them* How to choose a direct access broker, and required tools and platforms* How to plan important day trading strategies* How to execute each trading strategies in detail: entry, exit, stop loss* How to manage the trading plan

Trading in the Zone - Mark Douglas 2001-01-01

Douglas uncovers the underlying reasons for lack of consistency and helps traders overcome the ingrained mental habits that cost them money. He takes on the myths of the market and exposes them one by one teaching traders to look beyond random outcomes, to understand the true realities of risk, and to be comfortable

with the "probabilities" of market movement that governs all market speculation.

Day Trading for Beginners - William Rogers
2020-10-27

If you want to learn how to start Day Trading to create your passive income from home, then keep reading. Do you want to learn the methods and multiple ways to create your business? Are you interested to know how and where to start to grow your profits? Whether you've already tried to enter the world of Day Trading, without success, and whether it's the first time you hear about all this, this book will teach you the techniques, the opportunities and all the strategies to achieve your goals and how to make money quickly and easily by Trading. Thanks to the foreign exchange market, Day Trading is now easier than ever, because a beginner just needs a computer, access to the internet, and a few hundred dollars to start making money. Many people consider Day Trading to be easy money, but it is important for beginners to know that they need to learn a lot before they can actually start making money. In this book you will learn: - What is meant by Day Trading and how it operates; - The meanings and importance of Volume, Price, and Technical Indicators; - Risk Management and Account Management in Day Trading; - Platform, tools and strategies available for Day Traders; - Social trading, investments in Stocks, Options, and Forex trading; - The various rules and regulations governing Day Trading; - The right mindset and motivation to have absolutely; - Successful techniques, secrets and strategies; - How to set your goals and how to reach them; - The various solutions that a new trader should consider to have a better chance of success; - Examples of day trades, advice and methods that beginners should heed to; The objective of this book is to help people understand Day Trading from the basics, knowledge that will prove invaluable if a trader heed to it. By reading this book, a beginner should have more than the average understanding of Day Trading since he or she will learn everything he or she needs to start and become successful, although it is up to him or her to practice and interpret the indicators correctly. It will also help you to overcome all the obstacles and insecurities, showing you how the world of Day Trading really

works to deal with it with the right mentality.

Trading Mastery- 4 Books in 1 - Bryan Lee

Have you ever Heard about day trading? Have you ever considered giving it a go yourself? Do you know where to start?

The New Trading for a Living - Alexander Elder
2014-10-27

The best-selling trading book of all time—updated for the new era *The New Trading for a Living* updates a modern classic, popular worldwide among both private and institutional traders. This revised and expanded edition brings time-tested concepts in gear with today's fast-moving markets, adding new studies and techniques for the modern trader. This classic guide teaches a calm and disciplined approach to the markets. It emphasizes risk management along with self-management and provides clear rules for both. *The New Trading for a Living* includes templates for rating stock picks, creating trade plans, and rating your own readiness to trade. It provides the knowledge, perspective, and tools for developing your own effective trading system. All charts in this book are new and in full color, with clear comments on rules and techniques. The clarity of this book's language, its practical illustrations and generous sharing of the essential skills have made it a model for the industry—often imitated but never duplicated. Both new and experienced traders will appreciate its insights and the calm, systematic approach to modern markets. *The New Trading for a Living* will become an even more valuable resource than the author's previous books: Overcome barriers to success and develop stronger discipline Identify asymmetrical market zones, where rewards are higher and risks lower Master money management as you set entries, targets and stops Use a record-keeping system that will make you into your own teacher Successful trading is based on knowledge, focus, and discipline. *The New Trading for a Living* will lift your trading to a higher level by sharing classic wisdom along with modern market tools.

The Big Secret for the Small Investor - Joel Greenblatt 2011-04-12

Let a top hedge fund manager, Columbia business school professor, former Fortune 500 chairman and New York Times bestselling

author take you on a journey that will reveal the Big Secret for both individual and professional investors. Based on path-breaking new research, find out how anyone can beat the market, the index funds and the experts by following a new approach that relies on the principles of value investing, common sense and quantitative discipline. Along the way, learn where "value" comes from, how markets work, and what really happens on Wall Street. By journey's end, small investors (and even not-so-small investors) will have found their way to some excellent new investment choices.

How to Day Trade for a Living - Bryan Lee
2020-02

Have you ever Heard about day trading? Have you ever considered giving it a go yourself? Do you know where to start?

Day Trading 101 - David Borman 2018-01-09
A comprehensive guide to day trading, with prescriptive information and actionable advice to help you achieve financial success. It may seem that day trading is only for savvy investors who know the ins and outs of the marketplace—but it doesn't have to be. All it takes is the right information and staying on top of the market. Day Trading 101 simplifies all the terms, strategies, and processes involved in day trading, helping even the most novice investor find financial success. With information on recognizing trading patterns, mastering trading options, keeping tabs on the market, establishing strategies to make the most profit, and understanding trading lingo, this guide can get you on track to becoming a smart investor. Full of expert advice on the best paths to trading success, Day Trading 101 leaves no stone unturned, and no trading option undiscovered.

Day Trading Unlocked - Mary Deguzman
2022-08-30

We are all in a financial road somewhere. In DAY TRADING UNLOCKED, Mary hands you a comprehensive roadmap with powerful keys to potentially achieve time and financial freedom through day trading. Day trading offers endless doors of possibilities. Unfortunately, only one in ten traders can unlock those doors. In DAY TRADING UNLOCKED, Mary provides the key to becoming profitable in day trading with the right methodologies, mindsets, and money management strategies. The book offers an in-depth look at the necessary tools in trading, including trading platforms, brokers, order types, scanners, hotkeys, and software. This book includes an extensive discussion on the process of finding the right stocks to trade in pre-market routine and live trading. In addition, it presents a thorough explanation of technical analysis, trades, position size, and extensive reviews of proven high-probability trading strategies and methods that are illustrated with real examples from recent trades. Go behind the scenes as the author walks you through her trades and thought processes. Trading is not for the faint of heart because it involves a steep learning curve, but given the right tools, foundations, and training, you can beat the market through the application of the teachings discussed in this book. Mary is the founder and CEO of E-course Unlocked, an online trading education that details the necessary steps to becoming a consistently profitable trader. In her passion to teach day trading to everyone, she developed the Day Trading Unlocked online course that has revolutionized how people are able to learn to day trade for a living. An entrepreneur since childhood, she holds two baccalaureate degrees in Management Information Systems from the University of Santo Tomas, a Nursing degree from Fairfield University, a post-baccalaureate degree from City College of New York, and a master's degree in Family Nurse Practitioner from Lehman College. When she's not trading, Mary serves as a cardiology nurse practitioner in the state of Connecticut. She loves spending time with her family, running, swimming, biking, snowboarding, and travelling.

The Red Room - August Strindberg 2020-10-26
Arvid Falk is a young and idealistic government worker who always wanted to be a poet. When a

journalist writes a newspaper exposé based on Arvid's stories about his useless government department, Arvid is fired immediately. Starting afresh he sets out to explore every corner of the Swedish society, and the hypocrisy and corruption he finds shocks him. Walking the streets of Stockholm will never be the same again once this novel gets under your skin. Named the first modern Swedish novel, 'The Red Room' (1879) is wonderfully insightful and ironic. The Charles Dickens influence is undeniable and Strindberg's writing has been rightfully compared to that of Henrik Ibsen as well. August Strindberg (1849-1912) was a world-famous Swedish playwright, who, in Sweden, was known for his novels, poems, essays and paintings as well. Along with Henrik Ibsen, Hans Christian Andersen, Søren Kierkegaard and Selma Lagerlöf he is one of the all-time most influential authors of Scandinavia. *The White Coat Investor* - James M. Dahle 2014-01

Written by a practicing emergency physician, *The White Coat Investor* is a high-yield manual that specifically deals with the financial issues facing medical students, residents, physicians, dentists, and similar high-income professionals. Doctors are highly-educated and extensively trained at making difficult diagnoses and performing life saving procedures. However, they receive little to no training in business, personal finance, investing, insurance, taxes, estate planning, and asset protection. This book fills in the gaps and will teach you to use your high income to escape from your student loans, provide for your family, build wealth, and stop getting ripped off by unscrupulous financial professionals. Straight talk and clear explanations allow the book to be easily digested by a novice to the subject matter yet the book also contains advanced concepts specific to physicians you won't find in other financial books. This book will teach you how to: Graduate from medical school with as little debt as possible Escape from student loans within two to five years of residency graduation Purchase the right types and amounts of insurance Decide when to buy a house and how much to spend on it Learn to invest in a sensible, low-cost and effective manner with or without the assistance of an advisor Avoid investments which are

designed to be sold, not bought Select advisors who give great service and advice at a fair price Become a millionaire within five to ten years of residency graduation Use a "Backdoor Roth IRA" and "Stealth IRA" to boost your retirement funds and decrease your taxes Protect your hard-won assets from professional and personal lawsuits Avoid estate taxes, avoid probate, and ensure your children and your money go where you want when you die Minimize your tax burden, keeping more of your hard-earned money Decide between an employee job and an independent contractor job Choose between sole proprietorship, Limited Liability Company, S Corporation, and C Corporation Take a look at the first pages of the book by clicking on the Look Inside feature Praise For *The White Coat Investor* "Much of my financial planning practice is helping doctors to correct mistakes that reading this book would have avoided in the first place." - Allan S. Roth, MBA, CPA, CFP(R), Author of *How a Second Grader Beats Wall Street* "Jim Dahle has done a lot of thinking about the peculiar financial problems facing physicians, and you, lucky reader, are about to reap the bounty of both his experience and his research." - William J. Bernstein, MD, Author of *The Investor's Manifesto* and seven other investing books "This book should be in every career counselor's office and delivered with every medical degree." - Rick Van Ness, Author of *Common Sense Investing* "The White Coat Investor provides an expert consult for your finances. I now feel confident I can be a millionaire at 40 without feeling like a jerk." - Joe Jones, DO "Jim Dahle has done for physician financial illiteracy what penicillin did for neurosyphilis." - Dennis Bethel, MD "An excellent practical personal finance guide for physicians in training and in practice from a non biased source we can actually trust." - Greg E Wilde, M.D Scroll up, click the buy button, and get started today!

[Charting and Technical Analysis](#) - Fred McAllen 2012-04-06

To invest successfully or trade in Stocks, Options, Forex, or even Mutual Funds, it is imperative to know AND understand price and market movements that can only be learned from Technical Analysis. You should NEVER attempt Trading or Investing without it! My 25

years experience has taught me that 'Every book on the market' regarding Charting and Technical Analysis are seemingly worthless! All seem to find yet another creative way to tell you to "Buy Low and Sell High!" And they offer NO in-depth understanding or analysis about WHO is buying and WHO is selling, and when. Point is, anyone, experienced or not, can show you a picture of a Chart and tell you to buy at the bottom and sell at the top. That is simple 'hindsight', and is always 20/20! This book is different! It is IN-DEPTH - EXPLAINED and you WILL learn price movements and technical analysis from this information! You will understand and recognize tops and bottoms in the market and in particular stocks, AS they are forming. This is highly valuable information, and you should NEVER attempt to trade or invest without this knowledge! Mutual Funds? Most people think they do not need this information because they have a Mutual Fund. That could not be farther from the truth. Investing your hard-earned money should be done with your own knowledge of market direction, when to buy, and when to move your money to safety. Without this knowledge you are at the mercy of a salesperson hungry to earn a commission. Thus, invariably entering the market at the wrong time and in the wrong investment. No one else has your best interest in mind, either learn to protect your money or keep it in the bank. It's that simple. The next move is yours.

Day Trading For Dummies - Ann C. Logue
2019-04-02

Understand how day trading works—and get an action plan Due to the fluctuating economy, trade wars, and new tax laws, the risks and opportunities for day traders are changing. Now, more than ever, trading can be intimidating due to the different methods and strategies of traders on Wall Street. Day Trading For Dummies provides anyone interested in this quick-action trading with the information they need to get started and maintain their assets. From classic and renegade strategies to the nitty-gritty of daily trading practices, this book

gives you the knowledge and confidence you'll need to keep a cool head, manage risk, and make decisions instantly as you buy and sell your positions. New trading products such as cryptocurrencies Updated information on SEC rules and regulations and tax laws Using options to manage risk and make money Expanded information on programming If you're someone who needs to know a lot about day trading in a short amount of time, this is your place to start. **How to Swing Trade** - Brian Pezim 2018-10-02 Swing trading is a type of trading in which you hold positions in stocks or other investments over a period of time that can range from one day to a few weeks or more. If you are a beginner trader, this book will equip you with an understanding of where to start, how to start, what to expect from swing trading, and how you can develop your own strategy based on your personal goals. If you are a trader with some existing experience, this book will give you some insights on the author's approach to swing trading, rules that I follow and some strategies that I have used over the years to make profitable trades. In this book you will learn...
□ What is swing trading and how does it differ from other trading strategies
□ Why swing trading might be a better trading approach for you
□ What tools you will need to swing trade as well as choosing a broker
□ How to manage your money and the risks of trading
□ How to perform some basic fundamental analysis on companies
□ Charting basics followed by a presentation on some of the more popular technical analysis tools used to identify and make profitable trades
□ Chart patterns that provide trading opportunities
□ A number of swing trading strategies that can be used by both novices to more experienced traders
□ Getting good entries and exits on trades to maximize gains
□ How to run your trading activities like a business including some rules and routines to follow as a successful trader
I sincerely hope that you find value in the contents of this book and that it helps you toward achieving your goals and objectives in the trading world.
