Impossible - Nancy Werlin 2009-08-11

A beautifully wrought modern fairy tale from master storyteller and award-winning author Nancy Werlin Inspired by the classic folk ballad "Scarborough Fair," this is a wonderfully riveting novel of suspense, romance, and fantasy. Lucy is seventeen when she discovers that she is the latest recipient of a generations-old family curse that requires her to complete three seemingly impossible tasks or risk falling into madness and passing the curse on to the next generation. Unlike her ancestors, though, Lucy has family, friends, and other modern resources to help her out. But will it be enough to conquer this age-old evil?

Music and Patronage in the Sforza Court - Paul Merkley 1999

The core of this history involves the enormous number of documents on musicians and musical patronage recovered in Milanese archives and elsewhere during the course of our research. This evidence bears on the performing organizations of the court chapel and the biscantori of the Duomo, polyphonic sources of both sacred and secular music, the monophonic observance of the liturgy, the recruitment of singers, circumstances and working conditions, requirements of clients, demands and preferences of patrons, the tangled process of the procurement of benefices, jailing, and even espionage. It pertains to the biographies and activities of musicians, including the most influential composer of the late fifteenth century, Josquin Desprez, who we know lived and worked in Milan for more than twenty years, including the entire period of Duke Galeazzo Sforza's renowned chapel of Franco-Flemish singers, one that contained the most illustrious musicians in Europe. Within the chapel a new genre of music was cultivated and musical works that exemplified the high renaissance period were composed and performed. Later, under Ludovico Sforza, Franchino Gafori wrote several theory treatises and compiled polyphonic sources of great importance. Findings in the documents have necessitated a re-evaluation of all three, including the revision of dates for a substantial part of the repertory. All historians are familiar with the long and well established tradition in which the Medici and the city of Florence have been cast as the vanguard of modernism. Although no one would wish to detract from the brilliant history of Florence, recently it has been argued that Milan was the first city state to develop modern government (along with its bureaucracy), and diplomacy, both of which pertain directly to the musicians and music of this study.

From the bestselling author of Hemingway's Girl comes a novel that explores the unlikely marriage between celebrated novelist Nathaniel Hawthorne and accomplished artist Sophia Peabody—a forgotten woman in history who inspired one of the greatest writers of American literature. As a sensitive, artistic young woman, Sophia Peabody is discouraged from pursuing a woman's traditional roles of marriage and motherhood. But from their first meeting, she and Nathaniel Hawthorne begin an intense romantic partnership. Together, they cross continents, raise children, and experience all the beauty and tragedy of life fully lived. Sophia's vivid journals and masterful paintings inspire Nathaniel's writing. But their children's needs and personal losses fuel a perennial tug-of-war between Sophia's domestic duties and her own desires. Spanning the years from the 1830s to the Civil War, and moving from Massachusetts to England, Portugal, and Italy, *The House of Hawthorne* explores the story of a woman, forgotten by history, who inspired one of the greatest writers of American literature... Includes a Readers Guide *Venus and the Arts of Love in Renaissance Florence* - Rebekah Compton 2021-03-11

In this volume, Rebekah Compton offers the first survey of Venus in the art, culture, and governance of Florence from 1300 to 1600. Organized chronologically, each of the six chapters investigates one of the goddess's alluring attributes - her golden splendor, rosy-hued complexion, enchanting fashions, green gardens, erotic anatomy, and gifts from the sea. By examining these attributes in the context of the visual arts, Compton uncovers an array of materials and techniques employed by artists, patrons, rulers, and lovers to manifest Venusian virtues. Her book explores technical art history in the context of love's protean iconography, showing how different discourses and disciplines can interact in the creation and reception of art. *Venus and the Arts of Love* offers new insights on sight, seduction, and desire, as well as concepts of gender, sexuality, and viewership from both male and female perspectives in the early modern era.

*Commedia dell'Arte in Context* - Christopher B. Balme 2018-04-05

The commedia dell'arte, the improvised Italian theatre that dominated the European stage from 1550 to 1750, is arguably the most famous theatre tradition to emerge from Europe in the early modern period. Its celebrated masks have come to symbolize theatre itself and have become part of the European cultural imagination. Over the past twenty years a revolution in commedia dell'arte scholarship has taken place, generated mainly by a number of distinguished Italian scholars. Their work, in which they have radically separated out the myth from the history of the phenomenon remains, however, largely untranslated into English (or any other language). The present volume gathers together these Italian and English-speaking scholars to synthesize for the first time this research for both specialist and non-specialist readers. The book is structured around key topics that span both the early modern period and the twentieth-century reinvention of the commedia dell'arte.

**Technology and the Diva** - Karen Henson 2016-09-12

In *Technology and the Diva*, Karen Henson brings together an interdisciplinary group of scholars to explore the neglected subject of opera and technology. Their essays focus on the operatic soprano and her relationships with technology from the heyday of Romanticism in the 1820s and 1830s to the twenty-first-century digital age. The authors pay particular attention to the soprano in her larger than life form, as the 'diva', and they consider how her voice and allure have been created by technologies and media including stagecraft and theatrical lighting, journalism, the telephone, sound recording, and visual media from the painted portrait to the high definition simulcast. In doing so, the authors experiment with new approaches to the female singer, to opera in the modern - and post-modern - eras, and to the often controversial subject of opera's involvement with technology and technological innovation.

**Eleanor Marx** - Rachel Holmes 2015-02-24

Unrestrained by convention, lionhearted and free, Eleanor Marx (1855-98) was an exceptional woman. Hers was the first English translation of Flaubert's *Madame Bovary*. She pioneered the theater of Henrik Ibsen. She was the first woman to lead the British dock workers' and gas workers' trade unions. For years she worked tirelessly for her father, Karl Marx, as personal secretary and researcher. Later, she edited many of his key political works and laid the foundations for his biography. But foremost among her achievements was her pioneering feminism. For her, gender equality was a necessary precondition for a just society, and she crusaded for this in Britain and on a celebrated tour across America in 1886. Drawing strength from her family and their wide circle, including Friedrich Engels and Wilhelm Liebknecht, Eleanor Marx set out into the world to make a difference. Her favorite motto: "Go ahead!†? With her closest friends--among them Olive Schreiner, Havelock Ellis, George Bernard Shaw, Will Thorne, and William Morris--she was at the epicenter of British socialism. She was also the only Marx to claim her Jewishness. But her life contained a deep sadness: She loved a faithless and dishonest man, the academic, actor, and would-be playwright Edward Aveling. Yet despite the unhappiness he brought her, Eleanor Marx never wavered in her political life, ceaselessly campaigning and organizing until her untimely end. Rachel Holmes has written a dazzling and original portrait of one of the most remarkable women of the nineteenth century.

*Hoosiers and the American Story* - Madison, James H. 2014-10-01

A supplemental textbook for middle and high school students, *Hoosiers and the American Story* provides intimate views of individuals and places in Indiana set within themes from American history. During the frontier days when Americans battled with and exiled native peoples from the East, Indiana was on the leading edge of America's westward expansion. As waves of immigrants swept across the Appalachians and eastern waterways, Indiana became established as both a crossroads and as a vital part of Middle America. Indiana's stories illuminate the history of American agriculture, wars, industrialization, ethnic conflicts, technological improvements, political battles, transportation networks, economic shifts, social welfare initiatives, and more. In so doing, they elucidate large national issues so that students can relate personally to the ideas and events that comprise American history. At the same time, the stories shed light on what it means to be a Hoosier, today and in the past.

**Carmen Abroad** - Richard Langham Smith 2020-07-31

From the 'old world' to the 'new' and back again, this transnational history of the performance and reception of Bizet's *Carmen* - whose subject has become a modern myth and its heroine a symbol - provides new understanding of the opera's enduring yet ever-evolving and resituated presence and popularity. This book examines three stages of cultural transfer: the opera's establishment in the repertoire; its performance, translation, adaptation and appropriation in Europe, the Americas and Australia; its cultural 'work' in Soviet Russia, in Japan in the era of Westernisation, in southern, regionalist France and in *Carmen's* 'homeland', Spain. As the volume reveals the ways in which Bizet's opera swiftly travelled the globe from its Parisian premiere, readers will understand how the story, the music, the staging and the singers appealed to audiences in diverse geographical, artistic and political contexts.

**Eleonora's Falcon** - Harmut Walter 1979-05

Named after a Sardinian princess of the fourteenth century who established laws protecting falcons, Eleonora's falcon is the only European bird to breed in autumn and feed its brood on the mass of birds that migrate from Europe to Africa between July and October. It breeds on small Mediterranean islands in colonies of up to 200 pairs and hunts often in groups, preying on more than 90 species of migrant birds. During the winter this falcon visits the rain-soaked woodlands of Madagascar. In this study—illustrated beautifully and extensively with 59 line drawings and 38 photographs—Harmut Walter shows how the unique geographical and biological situation of *Falco eleonora* makes the species' health an important indicator of environmental decay. For though it lives in relatively isolated areas, Eleonora's falcon nevertheless may ingest the many pollutants contained in its diet of birds migrating from industrial Europe. Walter, who has studied raptors on several continents and has been an ornithologist since his early youth, examines several discrete colonies of Eleonora's falcon. He concentrates on the species' intraspecific behavior and ecology—such as the falcons' aggressive actions, hunting strategies, and response to fluctuating

environmental conditions—and investigates their evolutionary past.

*The World of Ruth Draper* - Dorothy Warren 1999

*The World of Ruth Draper: A Portrait of an Actress* captures the life of the internationally acclaimed monologist and the familial, social, and theatrical worlds in which she lived from the late nineteenth century to the mid-1950s. Dorothy Warren draws on correspondence with family and friends, theatrical reviews, personal interviews, and her own long relationship with Ruth Draper in crafting this biography. Born in New York City in 1884, Ruth Draper began giving monologues at private parties and schools at the age of twenty-six and made her professional debut in 1920 at London's AEolian Hall. In charting the course of Draper's impressive career, Warren follows her performances on stages around the world, including private recitals for Sarah Bernhardt, Eleonora Duse, and the royal families of Britain, Spain, and Belgium. Warren also devotes a significant discussion to Draper's relationship with Lauro de Bosis, the Italian poet and political activist whose 1931 disappearance while dropping anti-Fascist pamphlets over Rome remains unexplained. Draper's long stage reign ended when she died in her sleep following a performance in New York City in December 1956. Ruth Draper's specialty was the monologue, a dramatic composition for a single performer evoking other characters upon the stage. She had in her repertoire sixty dramatic sketches featuring fifty-two characters whom she performed, as well as 316 others whom she evoked during the course of the sketches. Some of her better-known sketches were *Opening the Bazaar*, *Vive la France* -- 1940, *The Scottish Immigrant*, *The Actress*, and *In County Kerry*. Draper's unique quality was her ability to project an illusion, to evoke upon the stage the characters with whom she conversed and interacted. Lynn Fontanne said of this faculty of Draper's: "There is the flavor of parlor magic in it -- something of conjuring". Bernard Levin, writing in the *Times* of London on April 4, 1988, recalls Draper's talent for evocation as "truly hallucinating" and adds, "Before the curtain came down, real hallucination had set in and we could see on the stage a crowd of people who were not there!" Eleonora Duse declared, "Ruth Draper is theater". *The World of Ruth Draper* features twenty-three illustrations.
