Musei Pubblico Territorio - Elisa Bucci 2016-01-03T00:00:00+01:00

Il museo moderno si configura sempre più come un centro culturale vivo, rappresentativo della storia e della tradizione di un territorio o di una nazione, terreno di studio e di ricerca, di iniziazione all'arte e di educazione civile. Il volume, attraverso l'analisi dei risultati di un'indagine realizzata in 158 musei statali, presenta le modalità con cui i musei si pongono in relazione con la città, con la comunità scientifica e con gli utenti diretti e "virtuali" e passa in rassegna gli strumenti attraverso i quali essi comunicano con il pubblico, a livelli diversi, con una gamma differenziata di apparati e di servizi. Il quadro complessivo - che scaturisce da un processo di autovalutazione degli stessi direttori dei musei con un puntuale riferimento all'Atto di indirizzo ministeriale del 10 maggio 2001 sui criteri tecnico-scientifici e gli standard di funzionamento e sviluppo dei musei - pone in evidenza elementi di forza e di debolezza del sistema nel suo complesso, ma segnala comunque lo sforzo di sperimentare e perseguire forme più efficaci di comunicazione e di promozione, pur in contesti diversi per tipologia di collezioni, estensione, collocazione territoriale, affluenza di visitatori e attrattiva turistica, al fine di ampliare da una parte la conoscenza e la fruizione consapevole, dall'altra la valorizzazione sociale ed economica del patrimonio culturale. The Educational Role of the Museum - Eilean Hooper-Greenhill 1999

Grounded in the strengths of its first edition, this book has been restructured to include new papers and recent articles, and presents front-running theory and practice as it addresses the relationships of museums and galleries to their audiences.

La Public History tra scuola, università e territorio - Gianfranco Bandini 2022-10-12

Il volume si articola in dieci saggi (ai quali seguono trenta schede di Best Practices) che nel loro insieme offrono uno sguardo sugli intrecci fra la Public History e la scuola. I contributi riflettono sul valore educativo implicito della Public History articolando esempi e ipotesi di percorsi didattici e educativi. Nell'incontro fra Public History, scuola e Università diversi passaggi del libro aprono alla sistematica integrazione con il territorio, i suoi pubblici e le sue tradizioni identitarie, in relazione con le altre istituzioni educative dei vari contesti locali, primi fra tutti i musei della scuola. Una particolare attenzione è dedicata alle esperienze digitali e al loro grande contributo alla condivisione dei saperi storici.

Letters to Miranda and Canova on the Abduction of Antiquities from Rome and Athens - Quatremère de Quincy (M., Antoine-Chrysostome) 2012

Quatremère de Quincy, the most famous art critic at the end of the Enlightenment, published two sets of letters about the role of museums. He first implored them to return works of art to their original settings but later argued in favor of the museum as a place where artworks can be safely stored and made available for artists to study. Immensely controversial and influential since they were written two centuries ago, Quatremère's texts sum up the most bewildering moment of the debate on museums: did the new institution inaugurate the death of art, or bring it to its perfection? This volume offers the first English translation of the letters, as well as an extensive introduction that reveals their content, the reason for their intellectual success, and how they enlarge contemporary disputes about cultural property, national claims and universal beauty.

The Senses - Ellen Lupton 2018-07-24

A powerful reminder to anyone who thinks design is primarily a visual pursuit, *The Senses* accompanies a major exhibition at the Cooper-Hewitt Smithsonian Design Museum that explores how space, materials, sound, and light affect the mind and body. Learn how contemporary designers, including Petra Blaisse, Bruce Mau, Malin+Goetz and many others, engage sensory experience. Multisensory design can solve problems and enhance life for everyone, including those with sensory disabilities. Featuring thematic essays on topics ranging from design for the table to tactile graphics, tactile sound, and visualizing the senses, this book is a call to action for multisensory design practice. *The Senses: Design Beyond Vision* is mandatory reading for students and professionals working in diverse fields, including products, interiors, graphics, interaction, sound, animation, and data visualization, or anyone seeking the widest possible understanding of design. The book, designed by David Genco with Ellen Lupton, is edited by Lupton and curator Andrea Lipps. Includes essays by Lupton, Lipps, Christopher Brosius, Hansel Bauman, Karen Kraskow, Binglei Yan, and Simon Kinnear.

L'educazione e i margini. Temi, esperienze e prospettive per una pedagogia dell'inclusione sociale - Alessandro Ferrante 2020-04-09

In che modo l'inclusione e la marginalità riguardano il mondo dell'educazione? Come si impara a includere o a escludere, a integrare o a marginalizzare, a fare i conti con le differenze, proprie e altrui? Come si possono generare nuovi apprendimenti e nuove forme di convivenza e di giustizia sociale? Sono queste alcune delle principali traiettorie che vengono tracciate nel volume, a partire dalla consapevolezza che nella contemporaneità sia indispensabile sostenere una posizione pedagogica ed etico-politica capace di confrontarsi con esse criticamente e di assumere in situazione un atteggiamento contrassegnato allo stesso tempo da rigore e creatività, tramite cui moltiplicare, rendere porosi, permeabili e attraversabili i confini che separano vita e formazione, istituzioni e territori, identità e alterità, individui, gruppi e comunità di appartenenza. Il testo è rivolto a chi, a titolo personale o professionale, ha a che fare con temi legati all'inclusione e all'esclusione.

Il museo sensoriale - Viola Tiberti 2020-07-29

La presente ricerca ha come obiettivo l'esplorazione dei servizi accessibili per i non vedenti e ipovedenti nei musei, attraverso l'utilizzo di strumenti costruiti ad hoc. La tesi si suddivide in due parti: la prima ha un assetto teorico; la seconda presenta la metodologia applicata e i risultati ottenuti nella ricerca attraverso lo studio di "casi multiplo". Per ogni museo è stata elaborata una scheda descrittiva e sono stati utilizzati i seguenti strumenti di indagine: intervista per i responsabili, scheda di osservazione con diario in diretta per le visite e questionario di gradimento per gli utenti. Grazie al Manifesto della cultura accessibile a tutti sono stati definiti cinque "indicatori" per rilevare l'accessibilità culturale nei musei. Lo studio desidera contribuire alla definizione di linee guida comuni per la progettazione dei servizi educativi e può rappresentare un punto di partenza per educatori, formatori, volontari o altri operatori, interessati ad approfondire la tematica dell'educazione estetica ed artistica per non vedenti e ipovedenti. Why the Garden Club Couldn't Save Youngstown - Sean Safford 2009-01-31

In this book, Sean Safford compares the recent history of Allentown, Pennsylvania, with that of Youngstown, Ohio. Allentown has seen a noticeable rebound over the course of the past twenty years. Facing a collapse of its steel-making firms, its economy has reinvented itself by transforming existing companies, building an entrepreneurial sector, and attracting inward investment. Youngstown was similar to Allentown in its industrial history, the composition of its labor force, and other important variables, and yet instead of adapting in the face of acute economic crisis, it fell into a mean race to the bottom. Challenging various theoretical perspectives on regional socioeconomic change, *Why the Garden Club Couldn't Save Youngstown* argues that the structure of social networks among the cities' economic, political, and civic leaders account for the divergent trajectories of post-industrial regions. It offers a probing historical explanation for the decline, fall, and unlikely rejuvenation of the Rust Belt. Emphasizing

the power of social networks to shape action, determine access to and control over information and resources, define the contexts in which problems are viewed, and enable collective action in the face of externally generated crises, this book points toward present-day policy prescriptions for the ongoing plight of mature industrial regions in the U.S. and abroad.

The Friars and their Influence in Medieval Spain - Francisco Garcia-Serrano 2018-10-17

This book explores how the Spanish kingdoms were highly influenced by the arrival of the Dominican and Franciscan friars in the thirteenth century. The Dominicans and the Franciscans, who were already very active in the Peninsula in the life of their founder, Francis of Assisi, were particularly prominent. The Dominican and Franciscan friars were to have an enormous impact, pervading almost every aspect of the society of late medieval Spain. In a revolutionary break from the Church's past these religious were heavily involved in the world, in preaching the message of the Gospel to the laity, while in education, they produced many of the greatest scholars of the age. Likewise, they transformed urban life, becoming an essential part of the fabric of the late medieval city. Equally the friars transformed the hierarchy of the Church, often taking up major positions in the episcopate. The friars were to the fore in the establishment of the Inquisition in the Crown of Aragon and, for very similar reasons, played the major part in attempting to teach the Gospel message to the Muslims as the Christian kingdoms expanded to the south. They greatly influenced the policies of monarchs such as that of James I of Aragon and Ferdinand III of Castile. Their missions in the towns and their educational role, as well as their strong associations with the papacy and the crown, often lead them into conflict with other religious and with secular society. They also suffered internal tensions and major splits. They were to be both widely admired and the subject of biting literary satire. Francisco García-Serrano ultimately argues how the story of medieval Spain cannot possibly be told without these important groups of friars.

Congestion management practices are explained at different levels, linking actions between demand, destination and site management. Sections cover: types of tourism congestion and consequences; key stakeholders involved; and sustainable tourism development issues.

The Return of Curiosity - Nicholas Thomas 2016-08-15

The Spy Museum, the Vacuum Cleaner Museum, the National Mustard Museum—not to mention the Art Institute, the Museum of Modern Art, and the Getty Center: museums have never been more robust, curating just about everything there is and assuming a new prominence in public life. *The Return of Curiosity* explores museums in the modern age, offering a fresh perspective on some of our most important cultural institutions and the vital function they serve as stewards of human and natural history. Reflecting on art galleries, science and history institutions, and collections all around the world, Nicholas Thomas argues that, in times marked by incredible insecurity and turbulence, museums help us sustain and enrich society. Moreover, they stimulate us to think in new ways about our world, compelling our curiosity and showing us the importance of understanding one another. Thomas looks at museums not simply as storehouses of old things but as the products of meaningful relationships between curators, the public, history, and culture. These relationships, he shows, don't always go smoothly, but they do always offer new

insights into the many ways we value—and try to preserve—the world we live in. The result is a refreshing and hopeful look at museums as a cultural force, one that, by gathering together paintings, tropical birds, antiques, or even our own bodies, offers an illuminating reflection of who we are.

Stati Generali del Patrimonio Industriale. 2022 - AA.VV. 2022-06-09T00:00:00+02:00

L'Associazione Italiana per il Patrimonio Archeologico Industriale (AIPAI), in occasione dei suoi 25 anni, ha promosso i Secondi Stati Generali del Patrimonio Industriale. Per tracciare un bilancio ed elaborare strategie e visioni ha posto le condizioni per l'incontro tra gli addetti ai lavori e il confronto tra i molteplici ambiti operativi, di ricerca e istituzionali coinvolti. Ci si è riuniti a Roma e a Tivoli con la consapevolezza che il primo lascito dell'età industriale siamo noi, la nostra società con i suoi pregi e le sue contraddizioni, le incredibili conquiste degli ultimi secoli. La risposta è stata ampia e tra i numerosi contributi presentati in questo volume, si possono scorgere studi e appelli, buone pratiche di conservazione e progetti di riuso, percorsi culturali e azioni di valorizzazione del patrimonio intangibile. Il tutto fa ben constatare che pur con impianti metodologici fortemente caratterizzati, sono sempre di più le discipline che convergono sull'oggetto e sui contesti della produzione e gradualmente assimilano i principi consolidati dell'archeologia industriale. Le voci di una comunità segnata dai due anni di pandemia mostrano più incisivamente il divario tra il permanere di emergenze culturali e ambientali, da un lato, e un'augmentata tensione al riconoscimento e al ripensamento dell'eredità industriale, dall'altro. Quest'ultima si conferma sia nella centralità che le memorie e la cultura industriale hanno assunto nelle strategie di ripresa dei programmi nazionali ed europei, sia nelle potenzialità di riscatto sociale economico e ambientale che emergono da una declinazione aggiornata dei progetti di recupero e rigenerazione. The Italian Association for Industrial Archaeological Heritage - AIPAI, on its 25th anniversary, promoted the Second States General of Industrial Heritage. In order to draw a balance sheet and elaborate strategies and visions for the near future, it set the conditions for the meeting of insiders and the confrontation between the many operational, research and institutional spheres involved. We gathered in Rome and Tivoli with the awareness that the first legacy of the industrial age is us, our society with its merits and contradictions, the incredible achievements of the last centuries. The response was wide-ranging, and among the contributions presented in large numbers one can discern in-depth studies and denunciations, good conservation practices and reuse projects, cultural paths, and actions to enhance intangible heritage. All of which makes a good case for the fact that more and more disciplines, even with strongly characterized methodological frameworks, are converging on the object and contexts of production and are gradually assimilating the established principles of industrial archaeology. The voices of a community marked by the two-year pandemic show more incisively the gap between the persistence of cultural and environmental emergencies, on the one hand, and an increased tension to recognize and rethink industrial heritage, on the other. The latter is confirmed both in the centrality that industrial memories and culture have assumed in the recovery strategies of national and European programs, and in the potential for social economic and environmental redemption that emerges from an updated declination of recovery and regeneration projects.

Operatori museali e disabilità. Come favorire una cultura dell'accoglienza - F. Serra 2017

Cultura e salute - Enzo Grossi 2013-10-11

Questo volume tratta i temi legati al rapporto privilegiato tra partecipazione culturale e stato di salute. Questa materia ha visto una notevole crescita di interesse solo negli ultimi anni, dopo la pubblicazione di alcuni studi epidemiologici che hanno dimostrato in maniera inequivocabile come la fruizione intelligente del tempo libero si associ a un prolungamento dell'aspettativa di vita e a una riduzione di alcune patologie degenerative, come la malattia di Alzheimer o il cancro. La cultura nel nostro Paese è generalmente considerata "intrattenimento", quindi ricondotta al superfluo. Secondo quanto esposto in questo volume, invece, l'attività culturale assume una precisa valenza, dimostrandosi un importante strumento in grado di prevenire il declino cognitivo, attenuare condizioni di stress e contribuire al benessere generale. Il libro intende quindi fornire le chiavi interpretative del ruolo esercitato dalla cultura nelle sfere del benessere individuale e della società, un tema ad oggi mai approfondito con strumenti scientifici e con un approccio multidisciplinare.

Museums and Education - Eilean Hooper-Greenhill 2007-12-12

At the beginning of the 21st century museums are challenged on a number of fronts. The prioritisation of learning in museums in the context of demands for social justice and cultural democracy combined with cultural policy based on economic rationalism forces museums to review their educational purposes, redesign their pedagogies and account for their performance. The need to theorise learning and culture for a cultural theory of learning is very pressing. If culture acts as a process of signification, a means of producing meaning that shapes worldviews, learning in museums and other cultural organisations is potentially dynamic and profound, producing self-identities. How is this complexity to be 'measured'? What can this 'measurement' reveal about the character of museum-based learning? The calibration of culture is an international phenomenon, and the measurement of the outcomes and impact of learning in museums in England has provided a detailed case study. Three national evaluation studies were carried out between 2003 and 2006 based on the conceptual framework of Generic Learning Outcomes. Using this revealing data Museums and Education reveals the power of museum pedagogy and as it does, questions are raised about traditional museum culture and the potential and challenge for museum futures is suggested.

Museums and the Shaping of Knowledge - Eileen Hooper Greenhill 1992-01-23

Museums have been active in shaping knowledge over the last six hundred years. Yet what is their function within today's society? At the present time, when funding is becoming increasingly scarce, difficult questions are being asked about the justification of museums. Museums and the Shaping of Knowledge presents a critical survey of major changes in current assumptions about the nature of museums. Through the examination of case studies, Eileen Hooper-Greenhill reveals a variety of different roles for museums in the production and shaping of knowledge. Today, museums are once again organising their spaces and collections to present themselves as environments for experimental and self-directed learning.

National Standards & Best Practices for U.S. Museums - American Association of Museums 2008

"[This publication] synthesises the experience and best thinking of leading professionals, looking both inward at how museums function and outward toward their role in society at large. Our goal: to offer specific ways to think more deeply about making your institution the best it can be and provide tools to bring your ideas to fruition." -- Preface.

British Cultural Studies - Graeme Turner 2005-08-18

is a comprehensive introduction to the British tradition of cultural studies. Turner offers an accessible overview of the central themes that have informed British cultural studies: language, semiotics, Marxism and ideology, individualism, subjectivity and discourse. Beginning with a history of cultural studies, Turner discusses the work of such pioneers as Raymond Williams, Richard Hoggart, E. P. Thompson, Stuart Hall and the Birmingham Centre for Contemporary Cultural Studies. He then explores the central theorists and categories of British cultural studies: texts and contexts; audience; everyday life; ideology; politics, gender and race. The third edition of this successful text has been fully revised and updated to include: * How to apply the principles of cultural studies and how to read a text * An overview of recent ethnographic studies * Discussion of anthropological theories of consumption * Questions of identity and new ethnicities * How to do cultural studies, and an evaluation of recent research methodologies * A fully updated and comprehensive bibliography

Enhancing Participation in the Arts in the EU - Victoria M. Ateca-Amestoy 2017-06-30

In this book, participation in the arts is analyzed as a substantial contributory factor to European citizenship, and also as a tool for improving individual and societal wellbeing through educational and inclusive policies. It offers an up-to-date overview of ongoing research on the measurement and analysis of, and prospects for, traditional and new forms of cultural engagement in Europe. It describes and assesses available methods and participation in the arts and seeks to determine how and to what extent the various drivers, policies and barriers matter. This publication is the final output of the work done by the members of the EU Project "Assessing effective tools to enhance cultural participation," which brought together

social scientists and cultural practitioners in joint projects, conferences and seminars, to reflect on the current situation and the challenges faced by managers of cultural and arts institutions and cultural policy makers.
