The Flavors of Modernity - Gian-Paolo Biasin 2017-03-14

From Rabelais's celebration of wine to Proust's madeleine and Virginia Woolf's boeuf en daube in *To the Lighthouse*, food has figured prominently in world literature. But perhaps

nowhere has it played such a vital role as in the Italian novel. In a book flowing with descriptions of recipes, ingredients, fragrances, country gardens, kitchens, dinner etiquette, and even hunger, Gian-Paolo Biasin examines food images in the modern Italian novel so as to unravel their function and meaning. As a sign for cultural values and social and economic relationships, food becomes a key to appreciating the textual richness of works such as Lampedusa's *The Leopard*, Manzoni's *The Betrothed*, Primo Levi's *Survival in Auschwitz*, and Calvino's *Under the Jaguar Sun*. The importance of the culinary sign in fiction, argues Biasin, is that it embodies the oral relationship between food and language while creating a sense of materiality. Food contributes powerfully to the reality of a text by making a fictional setting seem credible and coherent: a Lombard peasant eats polenta in *The Betrothed*, whereas a Sicilian prince offers a monumental macaroni timbale at a dinner in *The Leopard*. Similarly, Biasin shows how food is

used by writers to connote the psychological traits of a character, to construct a story by making the protagonists meet during a meal, and even to call attention to the fictionality of the story with a metanarrative description. Drawing from anthropology, psychoanalysis, sociology, science, and philosophy, the author gives special attention to the metaphoric and symbolic meanings of food. Throughout he blends material culture with observations on thematics and narrativity to enlighten the reader who enjoys the pleasures of the text as much as those of the palate. How We Are Hungry - Dave Eggers 2010-05-28
How We Are Hungry is a gripping, lyrical and soulful collection of stories from the acclaimed author of A Heartbreaking Work of Staggering Genius. Ranging from a doomed Irish setter's tales of running and jumping ("After I Was Thrown in the River and Before I Drowned") to a

bitterly comic meditation on suicide and friendship ("Climbing to the Window, Pretending to Dance"), and from the Egyptian desert to the asphalt of Interstate 5, these stories are Eggers at his finest. By turns devastating, clear-eyed and funn - incredibly funny - this collection is a marvel.

Henry Sidgwick - Eye of the Universe - Bart Schultz 2004-06-07

Henry Sidgwick was one of the great intellectual figures of nineteenth-century Britain. He was first and foremost a great moral philosopher, whose masterwork *The Methods of Ethics* is still widely studied today. He also wrote on economics, politics, education and literature. He was deeply involved in the founding of the first college for women at the University of Cambridge. He was also much concerned with the sexual politics of his close friend John Addington Symonds, a pioneer of gay studies. Through his famous student, G. E. Moore, a direct line can be traced from Sidgwick and his circle to the Bloomsbury group. Bart Schultz has written a magisterial overview of this great Victorian sage. This biography will be eagerly sought out by readers interested in philosophy, Victorian literary studies, the history of ideas,

hostile world. He vividly describes the texture of their daily life: the Gypsies as lovers, spouses, parents, healers, and mourners; their loyalties and enmities; their moral and ethical beliefs and practices; their language and culture; and the history and traditions behind their fierce pride. The exultant celebrations, the daring frontier crossings, the yearly horse fairs, the convoluted business deals in which Gypsy shrewdness combined with all the apparatus of modern technology are all brought to life in this memorable portrait of the most romanticized, yet most maligned and least-known people on earth. An insiders story, *The Gypsies* lifts the veil of secrecy that for so long has enshrouded this race of strangers in our midst.

Let's Hope for the Best - Carolina Setterwall
2019-07-09

"A moving and tender work of autofiction that depicts the obsessive interiority of grief."--Kirkus
In her debut novel, *Let's Hope for the Best*, Carolina Setterwall recounts the intensity of falling in love with her partner Aksel, and the shock of finding him dead in bed one morning. Carolina and Aksel meet at a party, and their passionate first encounter leads to months of courtship during which Carolina struggles to find her place. While Aksel prefers to take things slow, Carolina is eager to advance their

relationship -moving in together, getting a cat, and finally having a child. Perhaps to impose some order on the chaos, Carolina devotedly chronicles the months after Aksel's passing like a ship's log. She unpacks with forensic intensity the small details of life before tragedy, eager to find some explanation for the bad hand she's been dealt. When new romance rushes in, Carolina finds herself assuming the reticent role Aksel once played. She's been given the gift of love again. But can she make it work? A striking feat of auto-fiction, written in direct address to Setterwall's late partner, *LET'S HOPE FOR THE BEST* is a stylistic tour-de force.

Science in the Kitchen and the Art of Eating Well

- Pellegrino Artusi 2003-12-27

First published in 1891, Pellegrino Artusi's *La scienza in cucina e l'arte di mangiar bene* has come to be recognized as the most significant Italian cookbook of modern times. It was reprinted thirteen times and had sold more than

52,000 copies in the years before Artusi's death in 1910, with the number of recipes growing from 475 to 790. And while this figure has not changed, the book has consistently remained in print. Although Artusi was himself of the upper classes and it was doubtful he had ever touched a kitchen utensil or lit a fire under a pot, he wrote the book not for professional chefs, as was the nineteenth-century custom, but for middle-class family cooks: housewives and their domestic helpers. His tone is that of a friendly advisor - humorous and nonchalant. He indulges in witty anecdotes about many of the recipes, describing his experiences and the historical relevance of particular dishes. Artusi's masterpiece is not merely a popular cookbook; it is a landmark work in Italian culture. This English edition (first published by Marsilio Publishers in 1997) features a delightful introduction by Luigi Ballerini that traces the fascinating history of the book and explains its importance in the context of Italian history and

politics. The illustrations are by the noted Italian artist Giuliano Della Casa.

The Libation-Bearers - Aeschylus 2015-08-24
Aeschylus was the first of the three ancient Greek tragedians whose plays can still be read or performed, the others being Sophocles and Euripides. He is often described as the father of tragedy: our knowledge of the genre begins with his work and our understanding of earlier tragedies is largely based on inferences from his surviving plays. Only seven of his estimated seventy to ninety plays have survived into modern times. Fragments of some other plays have survived in quotes and more continue to be discovered on Egyptian papyrus, often giving us surprising insights into his work.
