Trullo - Tim Siadatan 2017-07-06

London restaurant Trullo, and its baby sister, Padella, are taking the food world by storm with modern Italian recipes with a British twist. Whether it's a simple bowl of pasta or a full roast, chef Tim Siadatan takes the best of Italian cooking and marries it with British produce to create inventive and original dishes. Since he burst onto the scene as the youngest head chef at Jamie Oliver's Fifteen, Tim has become synonymous with bold Italian cooking. He doesn't slavishly recreate traditional dishes so much as cook food 'that makes you jump up and down in excitement as you smell it coming out of the oven.' His influences range from his training at St John and Moro restaurants, where he learnt the value of simple, delicious fare, to his childhood as one of six children, when eating is what brought the whole family together. Whether you want to make something special like rolled pork with nduja and prunes, or you simply want to nail the perfect delicious, silky and unctuous pasta sauce, it is all in Trullo.

**Byzantine Religious Law in Medieval Italy** - James Morton  
2021-03-04

Southern Italy was conquered by the Norman Hauteville dynasty in the late eleventh century after over five hundred years of continuous Byzantine rule. At a stroke, the region's Greek Christian inhabitants were cut off from their Orthodox compatriots in Byzantium and became subject to the spiritual and legal jurisdiction of the Roman Catholic popes. Nonetheless, they continued to follow the religious laws of the Byzantine church; out of thirty-six surviving manuscripts of Byzantine canon law produced between the tenth and fourteenth centuries, the majority date to the centuries after the Norman conquest. Byzantine Religious Law in Medieval Italy is a historical study of these manuscripts, exploring how and why the Greek Christians of medieval southern Italy persisted in using them so long after the end of Byzantine rule. The first part of the book provides an overview of the source material and the history of Italo-Greek Christianity. The second part examines the development of Italo-Greek canon law manuscripts from the last century of Byzantine rule to the late twelfth century, arguing that the Normans' opposition to papal authority created a laissez faire atmosphere in which Greek Christians could continue to follow Byzantine religious law unchallenged. Finally, the third part analyses the papacy's successful efforts to assert its jurisdiction over southern Italy in the later Middle Ages. While this brought about the end of Byzantine canon law as an effective legal system in the region, the Italo-Greeks still drew on their legal heritage to explain and justify their distinctive religious rites to

their Latin neighbours.

**The Eiclesis Debate at the Council of Florence** - Christiaan Kappes  
2019-10-31

The Eiclesis Debate at the Council of Florence is the first in-depth investigation into both the Greek and the Latin sides of the debate about the moment of Eucharistic transubstantiation at the Council of Florence. Christiaan Kappes examines the life and times of the central figures of the debate, Mark Eugenicus and John Torquemada, and assesses their doctrinal authority. Kappes presents a patristic and Scholastic analysis of Torquemada's Florentine writings, revealing heretofore-unknown features of the debate and the full background to its treatises. The most important feature of the investigation involves Eugenicus. Kappes investigates his theological method and sources for the first time to give an accurate appraisal of the strength of Mark's theological positions in the context of his own time and contemporary methods. The investigation into both traditions allows for an informed evaluation of more recent developments in the official teaching of the Roman Catholic Church in light of these historical sources. Kappes provides a historically contextual and contemporary proposal for solutions to the former impasse in light of the principles rediscovered within Eugenicus's works. This monograph speaks to contemporary theological debates surrounding transubstantiation and related theological matters, and provides a historical framework to understand these debates. The Eiclesis Debate at the Council of Florence will interest specialists in theology, especially those with a background in and familiarity with the council and related historical themes, and is essential for any ecumenical library.

Law and Legality in the Greek East - David Wagschal 2015

Byzantine church law remains terra incognita to most scholars in the western academy. In this work, David Wagschal provides a fresh examination of this neglected but fascinating world. Confronting the traditional narratives of decline and primitivism that have long discouraged study of the subject, Wagschal argues that a close reading of the central monuments of Byzantine canon law c. 381-883 reveals a much more sophisticated and coherent legal culture than is generally assumed. Engaging in innovative examinations of the physical shape and growth of the canonical corpus, the content of the canonical prologues, the discursive strategies of the canons, and the nature of the earliest forays into systematization, Wagschal invites his readers to reassess their own legal-cultural assumptions as he advances an innovative methodology for understanding this ancient law. *Law and Legality in the Greek East* explores topics such as compilation, jurisprudence, professionalization, definitions of law, the language of the canons, and the relationship between the civil and ecclesiastical laws. It challenges conventional assumptions about Byzantine law while suggesting many new avenues of research in both late antique and early medieval law, secular and ecclesiastical.

**Chalcedon in Context** - Richard Price 2011

The Council of Chalcedon in 451 was a defining moment in the Christological controversies that tore apart the churches of the Eastern Roman Empire in the fifth and sixth centuries, as theological division, political rivalry, and sectarian violence produced a schism that persists to this day between Chalcedonian and non-Chalcedonian churches. The Acts of the Councils are one of the largest collections of source materials relating to the Church of Late Antiquity and its state relations, and this volume places the acclaimed translation in context with the Council of Chalcedon of 451, ultimately informing historians on how to approach manifold aspects of these documents.

**Margins and Metropolis** - Judith Herrin 2013-03-18

This volume explores the political, cultural, and ecclesiastical forces that linked the metropolis of Byzantium to the margins of its far-flung empire. Focusing on the provincial region of Hellas and Peloponnesos in central

and southern Greece, Judith Herrin shows how the prestige of Constantinople was reflected in the military, civilian, and ecclesiastical officials sent out to govern the provinces. She evokes the ideology and culture of the center by examining different aspects of the imperial court, including diplomacy, ceremony, intellectual life, and relations with the church. Particular topics treat the transmission of mathematical manuscripts, the burning of offensive material, and the church's role in distributing philanthropy. Herrin contrasts life in the capital with provincial life, tracing the adaptation of a largely rural population to rule by Constantinople from the early medieval period onward. The letters of Michael Choniates, archbishop of Athens from 1182 to 1205, offer a detailed account of how this highly educated cleric coped with life in an imperial backwater, and demonstrate a synthesis of ancient Greek culture and medieval Christianity that was characteristic of the Byzantine elite. This collection of essays spans the entirety of Herrin's influential career and draws together a significant body of scholarship on problems of empire. It features a general introduction, two previously unpublished essays, and a concise introduction to each essay that describes how it came to be written and how it fits into her broader analysis of the unusual brilliance and longevity of Byzantium.

Urban Narratives and the Spaces of Rome - Gregory Smith 2021-07-19

This book foregrounds the works of Pier Paolo Pasolini to study the Roman periphery and examine the relevance of Pasolini's vision in the

construction of subaltern identity and experience. It analyses the contemporary Italian society to understand the problem of social exclusion of marginal communities. Narrative studies are at the core of the contemporary social science research. This book uses narrative analysis to unpack the deeper meaning of Rome's stigmatized periphery through an interplay of Italian cinema, literature, and social and political climates. It encourages a positive interpretation of the Roman periphery through its characterization as a homogeneous area of marginality as emphasized in Pasolini's writings and films on Rome. This re-evaluation left a lasting impact on the modern periphery and the narratives of ordinary citizens as evident in contemporary street art and popular musical production. Pasolini's revolutionary vision allows us to appreciate the human and aesthetic character of urban life in regions beyond the main urban areas. The respect for subaltern urban communities encouraged by this book can be extended from Rome to other parts of the world. This book presents an interconnection of social theory, geography, poetry, literature, film and the visual arts to study the experience of life in underprivileged urban areas. Written in an accessible style, the book offers a reimagining of the Roman periphery which will appeal to readers in France, Spain, Italy, Australia, areas which have significant interest in Italian studies and the works of Pasolini.

[Clerical Continence in Twelfth-Century England and Byzantium](#) -

Maroula Perisanidi 2018-07-06

Why did the medieval West condemn clerical marriage as an abomination while the Byzantine Church affirmed its sanctifying nature? This book brings together ecclesiastical, legal, social, and cultural history in order to examine how Byzantine and Western medieval ecclesiastics made sense of their different rules of clerical continence. Western ecclesiastics condemned clerical marriage for three key reasons: married clerics could

alienate ecclesiastical property for the sake of their families; they could secure careers in the Church for their sons, restricting ecclesiastical positions and lands to specific families; and they could pollute the sacred by officiating after having had sex with their wives. A comparative study shows that these offending risk factors were absent in twelfth-century Byzantium: clerics below the episcopate did not have enough access to ecclesiastical resources to put the Church at financial risk; clerical dynasties were understood within a wider frame of valued friendship networks; and sex within clerical marriage was never called impure in canon law, as there was little drive to use pollution discourses to separate clergy and laity. These facts are symptomatic of a much wider difference between West and East, impinging on ideas about social order, moral authority, and reform.

Goldstar - David C Lawton 2012-05-24

Once there was nothing and out of this evolved the universe. In the miasma of creation were five comets each with a golden core. As the Earth evolved and cooled down human beings began to walk the Earth. Then some four thousand years ago there was a poor tribe in Peru named the Macapas. This was when the Creator decreed the first of these five comets should be despatched to bring golden riches to the tribe. There were two provisos. Six golden haired maidens must be laid out on slabs as sacrifices to the gold star atop the Cumaria Plateau to drop its wealth upon them bringing prosperity to the tribe. They were also required to build a temple in which must be placed six golden columns as a tribute to the maidens who had sacrificed themselves for the benefit of all their fellow tribesmen and women. A geography professor at the University of Birmingham in England hears about this unique celestial event while giving a seminar in Lima Peru. It intrigues him greatly so he decides to form a small expedition to find evidence of the sacrifices made and of course locate the mystery temple. A remarkable story unfolds of this

search which has far reaching consequences.
