Man's Estate - Henry French 2012-02-23

The first study on masculinity to focus on the English landed gentry. It covers the period from 1700 to 1900 and is based on several thousand letters written by 19 families. It concentrates on the common experiences of sons' upbringing, particularly schooling, university or business, foreign travel, and the move to family life and fatherhood.

An Apprenticeship in Arms - Roger B. Manning 2006-05-25
Based upon a wide range of historical and literary sources,

An Apprenticeship in Arms is a scholarly study of the military experiences of peers and gentlemen from the British Isles who volunteered to fight in the religious and dynastic wars of mainland Europe, as well as the ordinary men who were impressed to serve in the ranks from the time of the English intervention in the Dutch war of independence in 1585 to the death of the soldier-king William III in 1702. This apprenticeship in arms exposed these men to the technological innovations of the military revolution, laid the foundations for a fledgling professional officer class based upon merit and established a fund of military expertise. This remilitarization of aristocratic culture and society was completed by 1640, and provided numerous experienced military officers for the various armies of the civil wars and, subsequently, for the embryonic British army after William III invaded and conquered the British Isles and committed the Three Kingdoms to the armed struggle against

Louis XIV during the Nine Years War. Conflicts between amateur aristocrats and so-called 'soldiers of fortune' led to continuing debates about the relative merits of standing armies and a select militia; the individual pursuit of honour and glory by such amateurs also obscured the more rational military and political objectives of the modern state, subverted military discipline, and delayed the process of the professionalization of the officer corps of the British army.

Elizabeth I in Writing -

Donatella Montini 2018-03-27

This collection investigates Queen Elizabeth I as an accomplished writer in her own right as well as the subject of authors who celebrated her. With innovative essays from Brenda M. Hosington, Carole Levin, and other established and emerging experts, it reappraises Elizabeth's translations, letters, poems and prayers through a diverse range of approaches to textuality, from linguistic and philological to literary and

cultural-historical. The book also considers Elizabeth as "authored," studying how she is reflected in the writing of her contemporaries and reconstructing a wider web of relations between the public and private use of language in early modern culture.

Contributions from Carlo M. Bajetta, Guillaume Coatelen and Giovanni Iamartino bring the Queen's presence in early modern Italian literary culture to the fore. Together, these essays illuminate the Queen in writing, from the multifaceted linguistic and rhetorical strategies that she employed, to the texts inspired by her power and charisma.

Art, Artisans and Apprentices -

James Ayres 2014-06-30

Before the foundation of academies of art in London in 1758 and Philadelphia in 1805, most individuals who were to emerge as artists trained in workshops of varying degrees of relevance. Easel painters began their careers apprenticed to carriage, house, sign or ship painters, whilst a few were placed with those

Downloaded from
wedgefitting.clevelandgolf.com
on by guest

who made pictures. Sculptors emerged from a training as ornamental plasterers or carvers. Of the many other trades in a position to offer an appropriate background were limning, staining, engraving, surveying, chasing and die-sinking. In addition, plumbers gained the right to use oil painting and, for plasterers, the application of distemper was an extension of their trade. Central to the theme of this book is the notion that, for those who were to become either painters or sculptor, a training in a trade met their practical needs. This training was of an altogether different nature to an education in an art school. In the past, prospective artists were offered, by means of apprenticeships, an empirical rather than a theoretical understanding of their ultimate vocation. James Ayres provides a lively account of the inter-relationship between art and trade in the late seventeenth to early nineteenth centuries, in both Britain and North America. He

demonstrates with numerous, illustrated examples, the many cross-overs in the art and mystery of artistic training, and, to modern eyes, the sometimes incongruous relationships between the various trades that contributed to the blossoming of many artistic careers, including some of the most illustrious names of the long eighteenth century.

Elizabeth I (Penguin Monarchs)

- Helen Castor 2018-03-01

Part of the Penguin Monarchs series: short, fresh, expert accounts of England's rulers in a collectible format In the popular imagination, as in her portraits, Elizabeth I is the image of monarchical power. The Virgin Queen ruled over a Golden Age: the Spanish Armada was defeated and England's enemies scattered; English explorers reached almost to the ends of the earth; a new Church of England rose

from the ashes of past conflict, and the English Renaissance bloomed in the genius of Shakespeare, Spenser and Sidney. But the image is also armour. In this illuminating new account of Elizabeth's reign, Helen Castor shows how England's iconic queen was shaped by profound and enduring insecurity—an insecurity which was both a matter of practical political reality and personal psychology. From her precarious upbringing at the whim of a brutal, capricious father and her perilous accession after his death, to the religious division that marred her state and the failure to marry that threatened her line, Elizabeth lived under constant threat. But, facing down her enemies with a compellingly inscrutable public persona, the last and greatest of the Tudor monarchs would become a timeless, fearless queen.

[This Dark Endeavor](#) - Kenneth
Oppel 2011-08-23

Included in this edition of *This Dark Endeavor*, enjoy a free edition of Mary Shelley's classic *Frankenstein*. The purest intentions can stir up the darkest obsessions. In this prequel to Mary Shelley's gothic classic, *Frankenstein*, 16-year-old Victor Frankenstein begins a dark journey that will change his life forever. Victor's twin, Konrad, has fallen ill, and no doctor is able to cure him. Unwilling to give up on his brother, Victor, his beautiful cousin Elizabeth, and best friend Henry begin a treacherous search for the ingredients to create the forbidden Elixir of Life.

Impossible odds, dangerous alchemy, and a bitter love triangle threaten their quest at every turn. Victor knows he must not fail. But his success depends on how far he is willing to push the boundaries of nature, science and, love -- and how much he is willing to sacrifice.

The Myth of Elizabeth - Susan Doran 2017-03-14
Elizabeth I is one of England's most admired and celebrated rulers. She is also one of its most iconic: her image is familiar from paintings, film and television. This wide-ranging interdisciplinary collection of essays examines the origins and development of the image and myths that came to surround the Virgin Queen. The essays question the prevailing assumptions about the mythic Elizabeth and challenge the view that she was unambiguously celebrated in the literature and portraiture of the early modern era. They explain how the most familiar myths surrounding the queen developed from the concerns of her

contemporaries and yet continue to reverberate today. Published to mark the 400th anniversary of the queen's death, this volume will appeal to all those with an interest in the historiography of Elizabeth's reign and Elizabethan, and Jacobean, poets, dramatists and artists.

Elizabeth I and Her Circle -
Susan Doran 2015

The inside story of Elizabeth I's inner circle and the crucial human relationships which lay at the heart of her personal and political life. It is a vivid and often dramatic account, offering a deeper insight into Elizabeth's emotional and political conduct, and challenging many popular myths about her.

Elizabeth - David Starkey
2000

An abused child, yet confident of her destiny to reign, a woman in a man's world, passionately sexual yet, she said, a virgin, famed as England's most successful ruler

Downloaded from
wedgefitting.clevelandgolf.com
on by guest

yet actually doing very little, Elizabeth I is a bundle of contradictions. In this new, lavishly illustrated biography, published to accompany a Channel 4 series presented by the author, David Starkey turns the paradox into a person. Starting with Elizabeth's own speeches and writings, Starkey lays novel emphasis on two things- her faith made her see religion as a purely personal relationship between the individual conscience and God, yet her sophisticated education led her to a smoke-and-mirrors view of politics, in which clever image-making and speech-writing could solve or postpone real problems. The result was a surprisingly contemporary approach to some very modern questions, like civil strife in Scotland and Ireland and the risk of England's absorption into a European super-state. This new approach to the enigma of the Queen's character is presented within a lively and readable retelling of her reign; her love for Robert Dudley, the tragi-comedy of her favourites and suitors, and her

epic struggles with Mary queen of Scots and Philip II of Spain.

Elizabeth's Bedfellows - Anna Whitelock 2013-05-23

Elizabeth I acceded to the throne in 1558, restoring the Protestant faith to England. At the heart of the new queen's court lay Elizabeth's bedchamber, closely guarded by the favoured women who helped her dress, looked after her jewels and shared her bed. Elizabeth's private life was of public, political concern. Her bedfellows were witnesses to the face and body beneath the make-up and elaborate clothes, as well as to rumoured illicit dalliances with such figures as Robert Dudley. Their presence was for security as well as propriety, as the kingdom was haunted by fears of assassination plots and other Catholic subterfuge. For such was the significance of the queen's body: it represented the very state itself. This riveting, revealing history of the politics of intimacy uncovers the feminized world of the Elizabethan court. Between the scandal and

intrigue the women who attended the queen were the guardians of the truth about her health, chastity and fertility. Their stories offer extraordinary insight into the daily life of the Elizabethans, the fragility of royal favour and the price of disloyalty.

Elizabeth's Women - Tracy Borman 2010-09-28

A source of endless fascination and speculation, the subject of countless biographies, novels, and films, Elizabeth I is now considered from a thrilling new angle by the brilliant young historian Tracy Borman. So often viewed in her relationships with men, the Virgin Queen is portrayed here as the product of women—the mother she lost so tragically, the female subjects who worshipped her, and the peers and intimates who loved, raised, challenged, and sometimes opposed her. In vivid detail, Borman presents Elizabeth's bewitching mother, Anne Boleyn, eager to nurture her new child, only to see her taken away and her own life destroyed by damning

allegations—which taught Elizabeth never to mix politics and love. Kat Astley, the governess who attended and taught Elizabeth for almost thirty years, invited disaster by encouraging her charge into a dangerous liaison after Henry VIII's death. Mary Tudor—"Bloody Mary"—envied her younger sister's popularity and threatened to destroy her altogether. And animosity drove Elizabeth and her cousin Mary Queen of Scots into an intense thirty-year rivalry that could end only in death. Elizabeth's Women contains more than an indelible cast of characters. It is an unprecedented account of how the public posture of femininity figured into the English court, the meaning of costume and display, the power of fecundity and flirtation, and how Elizabeth herself—long viewed as the embodiment of feminism—shared popular views of female inferiority and scorned and schemed against her underlings' marriages and pregnancies. Brilliantly researched and elegantly

written, Elizabeth's Women is a unique take on history's most captivating queen and the dazzling court that surrounded her.

Women, Work & Sexual Politics in Eighteenth-century England - Bridget Hill 1994

In this fundamental reassessment of women's experience of work in eighteenth-century England, Bridget Hill examines how and to what extent industrialization improved the overall position of women and the opportunities open to them. Focusing on the most important unit of production, the household, Dr Hill examines women's work, not only in "housework" but also in agriculture and manufacturing, and reveals what women lost as the household's independence as a unit of economic production was undermined. Considering the whole range of activities in which women were involved, the increasing sexual division of labour is charted and its implications highlighted. The final part of the book considers

how the changing nature of women's work influenced courtship, marriage and relations between the sexes.

Such Wicked Intent -

Kenneth Oppel 2013-08-20

When his grieving father orders the destruction of the Dark Library, Victor retrieves a book in which he finds the promise of not just communicating with the dead, but entering their realm, and soon he, Elizabeth, and Henry are in the spirit world of Chateau Frankenstein, creating and growing a body.

A Way of Life - Lois Davidson Gottlieb 2001

A Way of Life is an extraordinary record of the eighteen months that Lois Gottlieb spent with Frank Lloyd Wright's Taliesin Fellowship in the late 1940s. Wright started the Fellowship in 1932 during the depression era when he had little or no work and thought it a worthwhile idea to train young architects. The apprentices came from all sorts of backgrounds and many different countries. Some of them joined the Fellowship

because they had seen Wright's work, others because they had read his autobiography. All of them wanted to be involved with his new architecture and to emulate his approach, which was to make all aspects of living more beautiful and compatible with the environment. Taliesin was Wright's home and farm and Taliesin West in Arizona was his escape from the severe Wisconsin winters. Taliesin was operated as a self-contained working community where the apprentices became self-sufficient while continuing their architectural education. The Fellowship emphasised not only design and Reports of All the Cases Decided by All the Superior Courts Relating to Magistrates, Municipal, and Parochial Law - Great Britain. virgin—Elizabeth I is famed as England's most successful ruler. David Starkey's brilliant new biography concentrates on Elizabeth's formative years—from her birth in 1533 to her accession in 1558—and shows how the experiences of danger and adventure formed her remarkable character and shaped her opinions and beliefs. From princess and heir-apparent to bastardized and disinherited royal, accused traitor to head of the princely household, Elizabeth experienced every vicissitude of fortune and extreme of condition—and rose above it all to reign during a watershed moment in history. A uniquely absorbing tale of one young woman's turbulent, courageous, and seemingly impossible journey toward the throne, Elizabeth is the exhilarating story of the making of a queen.

Challenging Orthodoxies: The Social and Cultural Worlds of Early Modern Women - Dr

Sigrun Haude 2014-07-28
Offering a broad and eclectic approach to the experience and activities of early modern women, *Challenging Orthodoxies* presents new research from a group of leading voices in their respective fields. Each essay confronts some received wisdom, 'truth' or orthodoxy in social and cultural, scientific and intellectual, and political and legal traditions, to demonstrate how women from a range of social classes could challenge the conventional thinking of their time as well as the ways in which they have been traditionally portrayed by scholars. Subjects include women's relationship to guns and gunpowder, the law and legal discourse, religion, public finances, and the new science in early modern Europe, as well as women and indentured servitude in the New World. A testament to the pioneering work of Hilda L. Smith, this collection makes a valuable contribution to scholarship in women's studies, political science, history, religion and
