Examining Listening - Ardeshir Geranpayeh 2013-03-27

This volume examines the nature of second language listening proficiency and how it can be assessed. The book highlights the need for test developers to provide a clear explication of the ability constructs which underpin the tests they offer in the public domain. This is increasingly necessary if claims about the validity of test score interpretation and use are to be supported both logically and with empirical evidence. It operationalises a comprehensive test validation framework which adopts a socio-cognitive perspective. The framework embraces six core components, examining and then analysing Cambridge ESOL listening tasks from the following perspectives: Test Taker; Cognitive Validity; Context Validity; Scoring Validity; Criterion-related Validity; and Consequential Validity.

[In Praise of Forgiveness](#) - Massimo Recalcati
2020-05-19

Relationships fall apart, marriages fail, couples break up - it happens to us all. Time corrodes passion and the routines of daily life kill the excitement that surrounds the emotion of the first encounter. The difficulty of uniting sexual pleasure with love, which Freud considered to be the most common neurosis in any love life, has become emblematic of a truth that seems undeniable: desire is destined to die if its object is not constantly renewed, if we do not change partner, if it is closed for too long in the restrictive chamber of the same bond. And yet what happens to these bonds when one of the two partners betrays the other, when the

promise fails, when there is another emotional experience cloaked in secrecy and deceit? What happens if the traitor then begs forgiveness? Are they asking to be loved again and, having declared that it is not like it used to be, now want everything to go back to how it was? Should we make fun of lovers in their attempts to make love last? Or should we try to face up to the experience of betrayal, with the offence caused by the person we love most? Should we not perhaps attempt to praise forgiveness in love?

An Investigation Into the Comparability of Two Tests of English as a Foreign Language - Lyle F. Bachman 1995-03-16

This book documents a major study comparing the Cambridge First Certificate in English (FCE) with the Test of English as a Foreign Language (TOEFL) to investigate similarities in test content, candidature and use. While both tests

were designed to measure many of the same abilities, they represent radically different approaches to language test development, reflecting deeper differences between educational measurement traditions in the US and UK. The thorough investigation of the fundamental characteristics and operational utility of two of the most widely used English tests for foreign students makes this study a valuable contribution to language testing research. As such, it will be of considerable interest to language testing specialists and examination boards, as well as to academic researchers and graduate students in the field of language assessment more generally.

The Architecture of Happiness - Alain De Botton
2010-12-03

Bestselling author Alain de Botton considers how our private homes and public edifices influence how we feel, and how we could build dwellings in which we would stand a better chance of happiness. In this witty, erudite look at how we shape, and are shaped by, our surroundings, Alain de Botton applies Stendhal's motto that "Beauty is the promise of happiness" to the spaces we inhabit daily. Why should we pay attention to what architecture has to say to us? de Botton asks provocatively. With his trademark lucidity and humour, de Botton traces how human needs and desires have been served by styles of architecture, from stately Classical

to minimalist Modern, arguing that the stylistic choices of a society can represent both its cherished ideals and the qualities it desperately lacks. On an individual level, de Botton has deep sympathy for our need to see our selves reflected in our surroundings; he demonstrates with great wisdom how buildings — just like friends — can serve as guardians of our identity. Worrying about the shape of our sofa or the colour of our walls might seem self-indulgent, but de Botton considers the hopes and fears we have for our homes at a new level of depth and insight. When shopping for furniture or remodelling the kitchen, we don't just consider functionality but also the major questions of aesthetics and the philosophy of art: What is beauty? Can beautiful surroundings make us good? Can beauty bring happiness? The buildings we find beautiful, de Botton concludes, are those that represent our ideas of a meaningful life. *The Architecture of Happiness* marks a return to what Alain does best — taking

on a subject whose allure is at once tantalizing and a little forbidding and offering to readers a completely beguiling and original exploration of the subject. As he did with Proust, philosophy, and travel, now he does with architecture. [Cambridge English Advanced 1 for Revised Exam from 2015 Student's Book with Answers](#) - Cambridge University Press 2014-09-18 These examination papers for the 2015 revised Cambridge English: Advanced (CAE) exam provide the most authentic exam preparation available, allowing candidates to familiarise themselves with the content and format of the exam and to practise useful exam techniques. The Student's Book with answers is perfect for classroom-based test practice. An Audio CD containing the recordings for the Listening test is available separately, or as part of the Student's Book Pack (containing the Student's Book with answers and Audio CD), also available separately.

The Wisdom of Birds - Tim Birkhead 2011

For thousands of years people have been fascinated by birds, and today that fascination is still growing. In 2007 bird-watching is one of the most popular pastimes, not just in Britain, but throughout the world, and the range of interest runs from the specialist to the beginner. In *The Wisdom of Birds*, Birkhead takes the reader on a journey that not only tells us about the extraordinary lives of birds - from conception and egg, through territory and song, to migration and fully fledged breeder - but also shows how, over centuries, we have overcome superstition and untested 'truths' to know what we know, and how recent some of that knowledge is. It was only in the nineteenth century that the ancient belief that swallows hibernated under water (!) finally gave way to general exxpetance of the facts of migration. In the same century of dazzling experimental science, even Darwin chose not to dwell on the sexual promiscuity of female birds to spare the blushes of his daughter, who was helping to

correct the proofs of *The Descent of Man*. Conceived for a general audience, and illustrated throughout with more than 100 exquisitely beautiful illustrations, many of them rarely, if ever, seen before, *The Wisdom of Birds* is a book full of stories, knowledge and unexpected revelations. 'One of the most entertaining, informative and enthusiastic accounts of the history of ornithology; and of the many different ways in which we have observed, studied and wondered about birds.' -Daily Telegraph.

Classroom-Oriented Research - Mirosław Pawlak
2016-04-30

This collection gathers contributions from scholars from Poland and abroad addressing different facets of research into the processes of foreign-language and second-language learning and teaching as they transpire in a typical language classroom. The book is divided into three parts, which address in turn: research directions and methodology, the findings of

empirical research, and links between theoretical considerations and classroom practice. Accordingly, the first part includes papers that examine the role of different research paradigms, put forward concrete research proposals, present innovative data gathering tools or assess the role of such instruments in language teaching. The second part includes reports on original research studies focusing e.g. on teachers' beliefs, the role of lexis and pragmatics, the application of modern technologies, the teaching and assessment of primary school children, and the development of social skills from a cross-cultural perspective. Finally, the third part of the book demonstrates how theory-driven approaches can enhance the effectiveness of instructed second

language acquisition.
