The Girl's Like Spaghetti - Lynne Truss 2007-07-10

A companion to the New York Times #1 best-seller *Eats, Shoots & Leaves*, this is punctuation play at its finest! Just as the use of commas was hilariously demystified in *Eats, Shoots & Leaves: Why, Commas Really Do Make a Difference!*, now Lynne Truss and Bonnie Timmons put their talents together to do the same for apostrophes. Everyone needs to know where to put an apostrophe to make a word plural or possessive (Are those sticky things your brother's or your brothers?) and leaving one out of a contraction can give someone the completely wrong impression (Were here to help you). Full of silly scenes that show how apostrophes make a difference, too, this is another picture book that will elicit bales of laughter and better punctuation from all who read it. The Gospel of the Flying Spaghetti Monster - Bobby Henderson 2006-03-28

Can I get a "ramen" from the congregation?! Behold the Church of the Flying Spaghetti Monster (FSM), today's fastest growing carbohydrate-based religion. According to church founder Bobby Henderson, the universe and all life within it were created by a mystical and divine being: the Flying Spaghetti Monster. What drives the FSM's devout followers, a.k.a. Pastafarians? Some say it's the assuring touch from the FSM's "noodly appendage." Then there are those who love the worship service, which is conducted in pirate talk and attended by congregants in dashing buccaneer garb. Still others are drawn to the Church's flimsy moral standards, religious holidays every Friday, or the fact that Pastafarian heaven is way cooler: Does your heaven have a Stripper Factory and a Beer Volcano? Intelligent Design has finally met its match—and it has nothing to do with apes or the Olive Garden of Eden. Within these pages, Bobby Henderson outlines the true facts—dispelling such malicious myths as evolution ("only a theory"), science ("only a lot of theories"), and whether we're really descended from apes (fact: Humans share 95 percent of their DNA with chimpanzees, but they share 99.9 percent with pirates!) See what impressively credentialed top scientists have to say: "If Intelligent Design is taught in schools, equal time should be given to the FSM theory and the non-FSM theory." —Professor Douglas Shaw, Ph.D. "Do not be hypocritical. Allow equal time for other alternative 'theories' like FSMism, which is by far the tastier choice." —J. Simon, Ph.D. "In my scientific opinion, when comparing the two theories, FSM theory seems to be more valid than classic ID theory." —Afshin Beheshti, Ph.D. Read the book and decide for yourself!

The Spaghetti Tree - Alasdair Scott Sutherland 2009-04-01

Part cultural history, part biography, part sixties memoir, *The Spaghetti Tree* is a picture of the era when modern restaurant culture first emerged in Britain. This book tells the story of the transformation of Britain's food and restaurant scene, from the days when eating out was a luxury for the middle classes only, and most of us believed spaghetti did grow on trees, to today when there are three Italian dishes in Britain's ten favourite meals. In the last fifty years, the Italian influence has changed not just the food we eat in Britain, but our ideas about the values of simple cooking, quality ingredients, and freshness. But the principal reason why Italian food first became popular in Britain has been forgotten - except perhaps by a few who were there at the time. When Mario Cassandro and Franco Lagattolla opened La Trattoria Terrazza in Soho in 1959, they were the first in Britain to serve the kind of simple food to be found in a neighbourhood trattoria in Italy. La Terrazza became the most popular and fashionable restaurant in London - the new place where the artists, writers, actors, journalists, politicians, and musicians who were to transform Britain in the 1960s, merged together. At the same time, the Terrazza changed the way restaurants looked, as Mario and Franco's designer Enzo Apicella threw out the traditional carpets, wallpaper and candelabra of 1950 restaurants and brought in the intimate downlights, tiled floors and white plaster walls which came to be known as Trattoria style. When Terrazza manager Alvaro Maccioni left to open his own place, the scandal made the headlines and the trattoria revolution started to spread across London. Other young Italians jumped on the bandwagon, opening their own restaurants with Mario and Franco's design, formula and menus - and sometimes with their staff and their customers. Modern British European restaurant menus and much of our restaurant design has evolved from the Mario and Franco model, and fifty years later, it is clear that Mario and Franco were the most influential restaurateurs, and Enzo Apicella the most influential restaurant designer, of the British 20th Century. The author was a London restaurateur in the 1960s and 70s, and his colourful and fascinating story is given depth both from his personal experiences and from interviews with many of the leading characters of the Trattoria Revolution. For fifty years, Britain has enjoyed a deepening love affair with Italian cooking, an affair which was born in the first trattorias when Italian food was new, fashionable and delicious, which grew and strengthened because it was different, full of colour and variety, and finally blossomed later at home, as we learned it was also healthy, inexpensive and easy to prepare. And this love affair started at Mario & Franco's Trattoria Terrazza.

Spaghetti! - Gérard de Cortanze 2005

"- Macaroni, tête de radis! - Spaghetti! - Mangeur de pizzas! - Sale rital !

- Votre devoir de mathématiques, cher monsieur : archinul ! De la camelote italienne! Combien de fois dans mon enfance ai-je entendu ces insultes, proférées par des élèves ou par des professeurs, dans la cour de l'école ou en classe... Mon grand-père, Roberto Aventino, avait fui Nice et Marseille à cause de cela, des insultes et des coups. De mon temps, me disait-il, on me traitait de "maca", de "piaf", de "christo" [...] C'était étrange, cette enfance traversée avec en bandoulière la honte de porter le nom qui était le mien et la honte d'assumer mes origines. Il m'a fallu une cinquantaine d'années pour accepter ces racines qui me constituent, ce passé qui m'a fabriqué. Pierre Milza écrit qu'il est un "migrant, inconfortablement posté entre deux cultures cousines et pourtant dissemblables". Modifiant son propos, je peux aujourd'hui affirmer que je suis un migrant, confortablement posté entre deux cultures cousines et pourtant dissemblables. Sans doute parce que j'ai créé une troisième culture qui n'appartient qu'à moi. "

She suffers each disappointment with resolute cheer (after a few tears) and a bowl of pastina (recipe included) and has lived to tell the tale so that other women may go out, hopefully with greater success, and if that's not possible, at least have something good to eat. Peppered throughout Giulia's delightful and often poignant remembrances are fond recollections of her mother's cooking, the recipes she learned from her, and many she invented on her own inspired by the men in her life. Readers will howl at Giulia's boyfriend-

littered past and swoon over her irresistible culinary creations.
