Untold Stories in Organizations

- Michal Izak 2014-11-13

The field of organizational storytelling research is productive, vibrant and diverse. Over three decades we have come to understand how organizations are not only full of stories but also how stories are actively making, sustaining and changing organizations. This edited collection

contributes to this body of work by paying specific attention to stories that are neglected, edited out, unintentionally omitted or deliberately left silent. Despite the fact that such stories are not voiced they have a role to play in organizational analysis. The chapters in this volume variously explore how certain realities become excluded or

silenced. The stories that remain below the audible range in organizations offer researchers an access to study political practices which marginalise certain organisational realities whilst promoting others. This volume offers a further contribution by paying heed to silence and the processes of silencing. These silences influence the choice of issues on organisational agendas, the choice of audience(s) to which these discourses are addressed and the ways of addressing them. In exploring these relatively understudied terrains, *Untold Stories in Organizations* comprises an important contribution to the organizational storytelling space, opening paths for new trajectories in storytelling research.

Reclaiming the Sky - Tom Murphy 2007

On the morning of September 11, 2001, thousands of airline and airport professionals headed off for what they assumed would be just another day on the job. It was anything but. Approaching the fifth anniversary of that tragic day,

the stories of the heroes and casualties among these dedicated air travel workers remain largely untold--until now. A compassionate and ultimately uplifting reflection on the nature of loss and the seeds of recovery, *Reclaiming the Sky* honors not only those workers who died doing their jobs, but also the ones that soldiered through on that day and in the aftermath, tirelessly piecing back together the fragments of a shattered industry--and indeed a critical social and economic force--while putting aside their own fears and grief. In conjunction with a website, reclaimingthesky.com--where readers can share their stories and thoughts--the book not only honors the heroes and casualties of 9/11, it also offers common ground to those seeking meaning, purpose and the strength to move forward. *Jewels of Allah* - Nina Ansary 2015

"Inspired by Nina Ansary's scholarly journey, *Jewels of Allah* is a provocative roller coaster ride that shatters the

stereotypical assumptions and the often misunderstood story of women in Iran today"--Back cover.

The Untold Story of Women of Color in the League of Women Voters - Carolyn Jefferson-Jenkins 2020-02-29

The Untold Story of Women of Color in the League of Women Voters explores ways in which these women have been marginalized and recognizes how their contributions will positively influence the organization as it moves into its next 100 years. On February 14, 2020, the League of Women Voters of the United States will celebrate the 100th anniversary of its founding. Although women of color have always made significant contributions to women's suffrage and the women's movements, their contributions, particularly as they relate to the League of Women Voters (LWV), have been marginalized and relegated to the footnotes of the organization's history. *The Untold Story of Women of Color in the League of Women*

Voters adds a new dimension to these conversations. The book is structured to show the progression of the relationship between the League of Women Voters and its members of color as manifested in changes to its policies, practices, symbols, and messaging. It begins with the suffrage movement and continues until the celebration of the 100th anniversary of the League and uses actual correspondence, convention minutes, existing League histories, and personal accounts to tell the League story. Chapter titles disclose the philosophical shifts in attitude at each stage of the organization's evolution. Celebrates the 100-year history of the League of Women Voters and the contributions of women of color Provides an accurate, comprehensive account of history in this grassroots membership organization Explores the unique challenges that women of color faced in the United States and in its mainstream organizations Argues that the League must learn from the past and make

intentional decisions to change for the future to remain relevant in the next phase of its history

No Way Out - Steven R. Whitby 2020-10-28

It was the first and only combat mission for the B-24 Liberator "Lady Be Good." On April 4, 1943, she left her base on the North African coast of Libya to bomb the port city of Naples, Italy. She never returned to base. It was not until the spring of 1959 that "Lady Be Good" was discovered by a BP oil exploration team almost 500 miles deep in the Libyan Desert, virtually intact, with no trace of the crew. What happened to the "Lady Be Good" is explored in this book. This includes the search for the crew and the subsequent mission to find the two US Army personnel lost during the initial search. The author interviewed personnel who took part in the recovery effort, and has included many unpublished photos taken at the crash site during the first USAF visit in 1959.

Hidden in History: The

Untold Stories of Women During World War I and World War II - Rachel

Basinger 2019-05-28

In 2013, the U.S. Secretary of Defense officially lifted the ban on women in the military serving in combat. But a century before, women were involved with the military in ways you might not realize. In both World War I and World War II, women across the globe were invaluable to their home countries, regardless of which side they fought on. For much of the 20th century, it was common for most women to be housewives. But with most men off fighting on the front, it was up to the women to keep their countries running. Many women supported the war effort in traditional ways, like planting victory gardens and buying war bonds, but they also held titles like spy, war correspondent, code breaker, and pilot. A few women even disguised themselves as men to join them in battle. With “Hidden in History: The Untold Stories of Women During World War I and World War II,”

the often-forgotten role of women from across the globe who served on the front lines and on the home front is remembered and honored. Brave women crossed battle lines and served their nation as real-life Rosie the Riveters, changing the role of women in society forever. From Ida Mullerthal, the World War I spy with classified information tattooed on her back to Mary Amanda Sabourin, one of the first female U.S. Marines, read the untold stories of what the American War Department called “the vast reserve of woman power.”

Code Girls - Liza Mundy

2017-10-10

The award-winning New York Times bestseller about the American women who secretly served as codebreakers during World War II--a "prodigiously researched and engrossing" (New York Times) book that "shines a light on a hidden chapter of American history" (Denver Post). Recruited by the

U.S. Army and Navy from small towns and elite colleges, more than ten thousand women served as codebreakers during World War II. While their brothers and boyfriends took up arms, these women moved to Washington and learned the meticulous work of code-breaking. Their efforts shortened the war, saved countless lives, and gave them access to careers previously denied to them. A strict vow of secrecy nearly erased their efforts from history; now, through dazzling research and interviews with surviving code girls, bestselling author Liza Mundy brings to life this riveting and vital story of American courage, service, and scientific accomplishment.

The Untold Story of the Golan Heights: - Michael Mason 2022-10-20

In 1967 Israel occupied the western section of Syria's Golan Heights, expelling 130,000 residents and leaving only a few thousand Arab inhabitants clustered in several villages. Sometimes characterised as the 'forgotten occupation', the western Golan Heights have been transformed by Israeli colonisation, including the appropriation of land and water resources, economic development and extensive military use. This landmark volume is the first academic study in English of Arab politics and culture in the occupied Golan Heights. It focuses on an indigenous community, known as the Jawlanis, and their experience of everyday colonisation and resistance to settler colonisation. Chapters cover how governance is carried out in the Golan, from Israel's use of the education system and collective memory, to its development of large-scale wind turbines which are now a symbol of Israeli encroachment. To illustrate the ways in which the current

regime of Israeli rule has been contested, there are chapters on the six-month strike of 1982, youth mobilisation in the occupied Golan, Palestinian solidarity movements, and the creation of Jawlani art and writing as an act of resistance. Rich in ethnographic detail and with chapters from diverse disciplines, the book is unique in bringing together Jawlani, Palestinian and UK researchers. The innovative format - with shorter 'reflections' from young Arab researchers, activists and lawyers that respond to more traditional academic chapters - establishes a bold new 'de-colonial' approach.

The Untold Story of Sita - Dena Merriam 2020-02-19

The Untold Story of Sita replaces the traditional narrative of Sita's life as told in the Ramayana with Sita as she truly is -- an incarnation of the great Devi Narayani. Sita comes to Earth to join Sri Ram in setting the foundation for a new civilization at a time when humans are becoming separate from the natural world. She

seeks to embed a great love for the forests and rivers, plant and animal life in the hearts and minds of the people, and to share the high spiritual accomplishments of the great women rishis and sages, many of whom you meet along Sita's journey. This is a story of a woman's wisdom, courage and strength, her love for the manifest and unmanifest worlds, and her selfless sacrifices for the welfare of all. So step into Sita's time and see what life was like during a more spiritually more advanced age, when there was an understanding of Dharma, not just as duty but as an alignment with the higher forces of love that make possible the preservation of our world.

Tinderbox: The Untold Story of the Up Stairs Lounge Fire and the Rise of Gay

Liberation - Robert W.

Fieseler 2018-06-05

Winner • Edgar Award (Best Fact Crime) Winner • Lambda Literary's Judith A. Markowitz Award for Emerging LGBTQ Writers Finalist • Housatonic Book Award (Nonfiction) Finalist • Randy Shilts Award for Gay Nonfiction A Stonewall Honor Book in Nonfiction (American Library Association) Best Book of the Year: Kirkus

Reviews, Library Journal and Shelf Awareness An essential work of American civil rights history, *Tinderbox* mesmerizingly reconstructs the 1973 fire that devastated New Orleans' subterranean gay community. Buried for decades, the Up Stairs Lounge tragedy has only recently emerged as a catalyzing event of the gay liberation movement. In revelatory detail, Robert W. Fieseler chronicles the tragic event that claimed the lives of thirty-one men and one woman on June 24, 1973, at a New Orleans bar, the largest mass murder of gays until 2016. Relying on unprecedented access to survivors and archives, Fieseler creates an indelible portrait of a closeted, blue-collar gay world that flourished before an arsonist ignited an inferno that destroyed an entire community. The aftermath was no less traumatic—families ashamed to claim loved ones, the Catholic Church refusing proper burial rights, the city impervious to the survivors' needs—revealing

a world of toxic prejudice that thrived well past Stonewall. Yet the impassioned activism that followed proved essential to the emergence of a fledgling gay movement. *Tinderbox* restores honor to a forgotten generation of civil-rights martyrs.

Hidden Figures - Margot Lee Shetterly 2016-09-27

The #1 New York Times bestseller *The phenomenal true story of the black female mathematicians at NASA* whose calculations helped fuel some of America's greatest achievements in space. Soon to be a major motion picture starring Taraji P. Henson, Octavia Spencer, Janelle Monae, Kirsten Dunst, and Kevin Costner. Before John Glenn orbited the earth, or Neil Armstrong walked on the moon, a group of dedicated female mathematicians known as "human computers" used pencils, slide rules and adding machines to calculate the numbers that would launch rockets, and astronauts, into space. Among these problem-solvers were a group of

exceptionally talented African American women, some of the brightest minds of their generation. Originally relegated to teaching math in the South's segregated public schools, they were called into service during the labor shortages of World War II, when America's aeronautics industry was in dire need of anyone who had the right stuff. Suddenly, these overlooked math whizzes had a shot at jobs worthy of their skills, and they answered Uncle Sam's call, moving to Hampton, Virginia and the fascinating, high-energy world of the Langley Memorial Aeronautical Laboratory. Even as Virginia's Jim Crow laws required them to be segregated from their white counterparts, the women of Langley's all-black "West Computing" group helped America achieve one of the things it desired most: a decisive victory over the Soviet Union in the Cold War, and complete domination of the heavens. Starting in World War II and moving through to the Cold War, the Civil Rights

Movement and the Space Race, *Hidden Figures* follows the interwoven accounts of Dorothy Vaughan, Mary Jackson, Katherine Johnson and Christine Darden, four African American women who participated in some of NASA's greatest successes. It chronicles their careers over nearly three decades they faced challenges, forged alliances and used their intellect to change their own lives, and their country's future.

paddling their boats heading to the same river bank..

The Girls Who Stepped Out of Line - Mari K. Eder 2021-08-03

For fans of *Radium Girls* and history and WWII buffs, *The Girls Who Stepped Out of Line* takes you inside the lives and experiences of 15 unknown women heroes from the Greatest Generation, the women who served, fought, struggled, and made things happen during WWII—in and out of uniform, for theirs is a legacy destined to embolden generations of women to come. *The Girls Who Stepped Out of Line* are the heroes of the Greatest Generation that you hardly ever hear about. These women who did extraordinary things didn't expect thanks and shied away from medals and recognition. Despite their amazing accomplishments, they've gone mostly unheralded and unrewarded. No longer. These are the women of World War II who served, fought, struggled, and made things happen—in and out of uniform. Young Hilda Eisen was captured twice by

the Nazis and twice escaped, going on to fight with the Resistance in Poland. Determined to survive, she and her husband later emigrated to the U.S. where they became entrepreneurs and successful business leaders. Ola Mildred Rexroat was the only Native American woman pilot to serve with the Women's Airforce Service Pilots (WASP) in World War II. She persisted against all odds—to earn her silver wings and fly, helping train other pilots and gunners. Ida and Louise Cook were British sisters and opera buffs who smuggled Jews out of Germany, often wearing their jewelry and furs, to help with their finances. They served as sponsors for refugees, and established temporary housing for immigrant families in London. Alice Marble was a grand-slam winning tennis star who found her own path to serve during the war—she was an editor with Wonder Woman comics, played tennis exhibitions for the troops, and undertook a dangerous undercover mission to expose

Nazi theft. After the war she was instrumental in desegregating women's professional tennis. Others also stepped out of line—as cartographers, spies, combat nurses, and troop commanders. Retired U.S. Army Major General Mari K. Eder wrote this book because she knew their stories needed to be told—and the sooner the better. For theirs is a legacy destined to embolden generations of women to come. **Autism in Heels** - Jennifer Cook O'Toole 2018-12-04 The face of autism is changing. And more often than we realize, that face is wearing lipstick. *Autism in Heels*, an intimate memoir, reveals the woman inside one of autism's most prominent figures, Jennifer O'Toole. At the age of thirty-five, Jennifer was diagnosed with Asperger's syndrome, and for the first time in her life, things made sense. Now, Jennifer exposes the constant struggle between carefully crafted persona and authentic existence, editing the autism script with wit, candor,

passion, and power. Her journey is one of reverse-self-discovery not only as an Aspie but--more importantly--as a thoroughly modern woman. Beyond being a memoir, *Autism in Heels* is a love letter to all women. It's a conversation starter. A game changer. And a firsthand account of what it is to walk in Jennifer's shoes (especially those iconic red stilettos). Whether it's bad perms or body image, sexuality or self-esteem, Jennifer's is as much a human journey as one on the spectrum. Because autism "looks a bit different in pink," most girls and women who fit the profile are not identified, facing years of avoidable anxiety, eating disorders, volatile relationships, self-harm, and stunted independence. Jennifer has been there, too. *Autism in Heels* takes that message to the mainstream. From her own struggles and self-discovery, she has built an empire of empowerment, inspiring women the world over to realize they aren't mistakes.

They are misunderstood miracles.

No Place for Ladies - Helen Rappaport 2007

On 23 February 1854, the Scots Fusilier Guards marched past Buckingham Palace resplendent in full regalia en route to the Crimea, as Queen Victoria bowed and waved proudly from the balcony. Day after day, there were anxious farewells as husbands, sons, and fathers set off to war, leaving their women to face a bleak and uncertain future. Schoolchildren learn the story of Florence Nightingale who heroically tended the sick during the Crimean War. But she was not the only woman to play her part. Numerous women from all social classes were actively engaged in the war, often in the most surprising ways. Based on dozens of rare and often unpublished accounts, *No Place for Ladies* is a rich, colourful and fascinating picture of very different women

at war.

Untold Stories - Alan Bennett 2008-09-04

Alan Bennett's first collection of prose since *Writing Home* takes in all his major writings over the last ten years. The title piece is a poignant family memoir with an account of the marriage of his parents, the lives and deaths of his aunts and the uncovering of a long-held family secret. Bennett, as always, is both amusing and poignant, whether he's discussing his modest childhood or his work with the likes of Maggie Smith, Thora Hird and John Gielgud. Also included are his much celebrated diaries for the years 1996 to 2004. At times heartrending and at others extremely funny, *Untold Stories* is a matchless and unforgettable anthology. Since the success of *Beyond the Fringe* in the 1960s Alan Bennett has delighted audiences worldwide with his gentle humour and wry observations about life. His many works include *Forty Years On*, *The Lady in the Van*,

Talking Heads, A Question of Attribution and The Madness of King George. The History Boys opened to great acclaim at the National in 2004, and is winner of the Evening Standard Award, the South Bank Award and the Critics' Circle Award for Best New Play. 'Perhaps the best loved of English writers alive today.' Sunday Telegraph Untold Stories is published jointly with Profile Books.

Not a Good Day to Die - Sean Naylor 2005-03-01

Award-winning combat journalist Sean Naylor reveals a firsthand account of the largest battle fought by American military forces in Afghanistan in an attempt to destroy al-Qaeda and Taliban forces. At dawn on March 2, 2002, America's first major battle of the 21st century began. Over 200 soldiers of the 101st Airborne and 10th Mountain Division flew into Afghanistan's Shah-i-Kot Valley—and into the mouth of a buzz saw. They were about to pay a bloody price for strategic, high-level miscalculations that

underestimated the enemy's strength and willingness to fight. Naylor, an eyewitness to the battle, details the failures of military intelligence and planning, while vividly portraying the astonishing heroism of these young, untested US soldiers. Denied the extra support with which they trained, these troops nevertheless proved their worth in brutal combat and prevented an American military disaster.

Ashley's War - Gayle Tzemach Lemmon 2016-04-26

In 2010, the Army created Cultural Support Teams, a secret pilot program to insert women alongside Special Operations soldiers battling in Afghanistan. The Army reasoned that women could play a unique role on Special Ops teams: accompanying their male colleagues on raids and, while those soldiers were searching for insurgents, questioning the mothers, sisters, daughters and wives living at the compound. Their presence had a calming effect on enemy households, but

more importantly, the CSTs were able to search adult women for weapons and gather crucial intelligence. They could build relationships—woman to woman—in ways that male soldiers in an Islamic country never could. In *Ashley's War*, Gayle Tzemach Lemmon uses on-the-ground reporting and a finely tuned understanding of the complexities of war to tell the story of CST-2, a unit of women hand-picked from the Army to serve in this highly specialized and challenging role. The pioneers of CST-2 proved for the first time, at least to some grizzled Special Operations soldiers, that women might be physically and mentally tough enough to become one of them. The price of this professional acceptance came in personal loss and social isolation: the only people who really understand the women of CST-2 are each other. At the center of this story is a friendship cemented by "Glee," video games, and the shared perils and seductive powers of up-close combat. At the heart of the team is the tale

of a beloved and effective soldier, Ashley White. Much as she did in her bestselling *The Dressmaker of Khair Khana*, Lemmon transports readers to a world they previously had no idea existed: a community of women called to fulfill the military's mission to "win hearts and minds" and bound together by danger, valor, and determination. *Ashley's War* is a gripping combat narrative and a moving story of friendship—a book that will change the way readers think about war and the meaning of service.

Broad Band - Claire L. Evans
2020-07-07

If you loved *Hidden Figures* or *The Rise of the Rocket Girls*, you'll love Claire Evans' breakthrough book on the women who brought you the internet--written out of history, until now. "This is a radically important, timely work," says Miranda July, filmmaker and author of *The First Bad Man*. The history of technology you probably know is one of men and machines, garages and riches, alpha nerds and

brogrammers--but from Ada Lovelace, who wrote the first computer program in the Victorian Age, to the cyberpunk Web designers of the 1990s, female visionaries have always been at the vanguard of technology and innovation. In fact, women turn up at the very beginning of every important wave in technology. They may have been hidden in plain sight, their inventions and contributions touching our lives in ways we don't even realize, but they have always been part of the story. VICE reporter and YACHT lead singer Claire L. Evans finally gives these unsung female heroes their due with her insightful social history of the Broad Band, the women who made the internet what it is today. Seek inspiration from Grace Hopper, the tenacious mathematician who democratized computing by leading the charge for machine-independent programming languages after World War II. Meet Elizabeth "Jake" Feinler, the one-woman

Google who kept the earliest version of the Internet online, and Stacy Horn, who ran one of the first-ever social networks on a shoestring out of her New York City apartment in the 1980s. Join the ranks of the pioneers who defied social convention to become database poets, information-wranglers, hypertext dreamers, and glass ceiling-shattering dot com-era entrepreneurs. This inspiring call to action shines a light on the bright minds whom history forgot, and shows us how they will continue to shape our world in ways we can no longer ignore. Welcome to the Broad Band. You're next.

No Greater Ally - Kenneth K. Koskodan 2011-12-20

There is a chapter of World War II history that remains largely untold; the monumental struggles of an entire nation have been forgotten, and even intentionally obscured. Giving a full overview of Poland's participation in World War II. Following their valiant but doomed defence of Poland in 1939, members of the Polish armed forces fought with the

Allies wherever and however they could. Full of previously unpublished accounts, and rare photographs, this title provides a detailed analysis of the devastation the war brought to Poland, and the final betrayal when, having fought for freedom for six long years, Poland was handed to the Soviet Union.

The Girls of Atomic City -

Denise Kiernan 2013-03-05

The New York Times bestseller, now available in paperback—an incredible true story of the top-secret World War II town of Oak Ridge, Tennessee, and the young women brought there unknowingly to help build the atomic bomb. “The best kind of nonfiction: marvelously reported, fluidly written, and a remarkable story...As meticulous and brilliant as it is compulsively readable.”

—Karen Abbott, author of *Sin in the Second City* At the height of World War II, Oak Ridge, Tennessee, was home to 75,000 residents, and consumed more electricity than New York City, yet it was shrouded in such secrecy that

it did not appear on any map. Thousands of civilians, many of them young women from small towns across the U.S., were recruited to this secret city, enticed by the promise of solid wages and war-ending work. What were they actually doing there? Very few knew. The purpose of this mysterious government project was kept a secret from the outside world and from the majority of the residents themselves. Some wondered why, despite the constant work and round-the-clock activity in this makeshift town, did no tangible product of any kind ever seem to leave its guarded gates? The women who kept this town running would find out at the end of the war, when Oak Ridge’s secret was revealed and changed the world forever. Drawing from the voices and experiences of the women who lived and worked in Oak Ridge, *The Girls of Atomic City* rescues a remarkable, forgotten chapter of World War II from obscurity. Denise Kiernan captures the spirit of the times through these women: their pluck, their

desire to contribute, and their enduring courage. “A phenomenal story,” and Publishers Weekly called it an “intimate and revealing glimpse into one of the most important scientific developments in history.” “Kiernan has amassed a deep reservoir of intimate details of what life was like for women living in the secret city...Rosie, it turns out, did much more than drive rivets.” —The Washington Post

[The Light of Days](#) - Judy Batalion 2021-04-06

THE INSTANT NEW YORK TIMES BESTSELLER! Also on the USA Today, Washington Post, Boston Globe, Globe and Mail, Publishers Weekly, and Indie bestseller lists. One of the most important stories of World War II, already optioned by Steven Spielberg for a major motion picture: a spectacular, searing history that brings to light the extraordinary accomplishments of brave Jewish women who became resistance fighters—a group of unknown heroes whose exploits have never been chronicled in

full, until now. Witnesses to the brutal murder of their families and neighbors and the violent destruction of their communities, a cadre of Jewish women in Poland—some still in their teens—helped transform the Jewish youth groups into resistance cells to fight the Nazis. With courage, guile, and nerves of steel, these “ghetto girls” paid off Gestapo guards, hid revolvers in loaves of bread and jars of marmalade, and helped build systems of underground bunkers. They flirted with German soldiers, bribed them with wine, whiskey, and home cooking, used their Aryan looks to seduce them, and shot and killed them. They bombed German train lines and blew up a town’s water supply. They also nursed the sick, taught children, and hid families. Yet the exploits of these courageous resistance fighters have remained virtually unknown. As propulsive and thrilling as Hidden Figures, In the Garden of Beasts, and Band of Brothers, *The Light of Days* at last tells the true story of

these incredible women whose courageous yet little-known feats have been eclipsed by time. *Judy Batalion*—the granddaughter of Polish Holocaust survivors—takes us back to 1939 and introduces us to Renia Kukielka, a weapons smuggler and messenger who risked death traveling across occupied Poland on foot and by train. Joining Renia are other women who served as couriers, armed fighters, intelligence agents, and saboteurs, all who put their lives in mortal danger to carry out their missions. *Batalion* follows these women through the savage destruction of the ghettos, arrest and internment in Gestapo prisons and concentration camps, and for a lucky few—like Renia, who orchestrated her own audacious escape from a brutal Nazi jail—into the late 20th century and beyond. Powerful and inspiring, featuring twenty black-and-white photographs, *The Light of Days* is an unforgettable true tale of war, the fight for freedom, exceptional bravery, female friendship, and survival in the

face of staggering odds. NPR's Best Books of 2021 National Jewish Book Award, 2021 Canadian Jewish Literary Award, 2021

A Woman of No Importance

- Sonia Purnell 2020-03-24

A NEW YORK TIMES

BESTSELLER Chosen as a BEST BOOK OF THE YEAR by NPR, the New York Public Library, Amazon, the Seattle Times, the Washington Independent Review of Books, PopSugar, the Minneapolis Star Tribune, BookBrowse, the Spectator, and the Times of London Winner of the Plutarch Award for Best Biography "Excellent...This book is as riveting as any thriller, and as hard to put down." -- The New York Times Book Review "A compelling biography of a masterful spy, and a reminder of what can be done with a few

brave people -- and a little resistance." - NPR "A meticulous history that reads like a thriller." - Ben Macintyre A never-before-told story of Virginia Hall, the American spy who changed the course of World War II, from the author of *Clementine*. In 1942, the Gestapo sent out an urgent transmission: "She is the most dangerous of all Allied spies. We must find and destroy her." The target in their sights was Virginia Hall, a Baltimore socialite who talked her way into Special Operations Executive, the spy organization dubbed Winston Churchill's "Ministry of Ungentlemanly Warfare." She became the first Allied woman deployed behind enemy lines and--despite her prosthetic leg--helped to light the flame of the French Resistance, revolutionizing secret warfare as we know it. Virginia established vast spy networks throughout France, called weapons and explosives down from the skies, and became a linchpin for the Resistance. Even as her face covered wanted posters and a

bounty was placed on her head, Virginia refused order after order to evacuate. She finally escaped through a death-defying hike over the Pyrenees into Spain, her cover blown. But she plunged back in, adamant that she had more lives to save, and led a victorious guerilla campaign, liberating swathes of France from the Nazis after D-Day. Based on new and extensive research, Sonia Purnell has for the first time uncovered the full secret life of Virginia Hall--an astounding and inspiring story of heroism, spycraft, resistance, and personal triumph over shocking adversity. *A Woman of No Importance* is the breathtaking story of how one woman's fierce persistence helped win the war.

Army Wives - Midge Gillies
2016-11-18

Most families have an army wife somewhere in their past. Over the centuries they have followed their men to the front, helped them keep order in far-flung parts of the empire or waited anxiously at home.

Army Wives uses first hand accounts, letters and diaries to tell their story. We meet the wives who made the arduous journey to the Crimean war and witnessed battle at close quarters. We hear the story of life in the Raj and the, often terrifying, experiences of the women who lived through its dying days. We explore the pressures of being a modern army wife - whether living in barracks or trying to maintain a normal home life outside 'the patch'. In the twentieth century two world wars produced new generations of army wives who forged friendships that lasted into peacetime. Army Wives reveals their experience and that of a new breed of independent women who supported their men through the Cold War to the current

war on terror. Midge Gillies, author of acclaimed The Barbed-Wire University, looks at how industrial warfare means husbands can survive battle with life-changing injuries that are both mental and physical - and what that means for their family. She describes how army wives communicate with their husbands - via letters and coded messages, to more immediate, but less intimate, texts and Skype. She examines bereavement, from the seances, public memorials and deaths in a foreign field of the Great War to the modern media coverage of flag-draped coffins returning home by military plane. Above all, Army Wives examines what it really means to be part of the 'army family'.
