**Places, Towns and Townships 2021** - Deirdre A. Gaquin 2021-10-15

Places, Towns and Townships is an excellent resource for anyone in need of data for all of the nation's cities, towns, townships, villages, and census-designated places in one convenient source. It compiles essential information about places in the United States and the people who

live in them such as: • population • housing • income • education • employment • crime • and much more! In addition to the tables, Places, Towns and Townships includes text that describes key findings, figures that call attention to noteworthy trends in data, and rankings of the largest cities by various demographics.

Compiled from multiple government sources, the data in this unique reference volume represents the most current and accurate information available. This data will not be updated for several years, making Places, Towns and Townships an invaluable resource in the years to come.

American Exports: Why Have They Lagged? -  
Wendell H. McCulloch 2008-04-01

The growing U.S. trade deficit is a source of concern to everyone. This study identifies 18 obstacles or disincentives to American exports. It is limited to the export side of the trade equation, & in its specialized setting, provides a great deal of historical & background material on factors that depress U.S. exports. The study assigns a 25% blame for declining exports on the strong dollar, & examines whether the present international monetary system of floating currency rates is the cause of the dollar's strength. It concludes that the system is not to blame. Given worldwide political unrest, oil price shocks, & divergence of major countries' economic policies, a fixed -- as opposed to floating -- currency exchange rate system could not have been maintained.
