A Parallel History of France and England - Charlotte Mary Yonge 1871

Historia Novella - Guillaume de Malmesbury 1998

The Historia Novella is a key source for the succession dispute between King Stephen and the Empress Matilda which brought England to civil war in the twelfth century. William of Malmesbury was the doyen of the historians of his day. His account of the main events of the years 1126 to 1142, to some of which he was an eyewitness, is sympathetic to the empress's cause, but not uncritical of her. Edmund King offers a complete revision of K. R. Potter's edition of 1955, retaining only the translation, which has been amended in places. Not only is this a new edition but it offers a new text, arguing that what have earlier been seen as William of Malmesbury's final revisions are not from his hand. Rather they seem to come from somewhere in the circle of Robert of Gloucester, the empress's half-brother, to whom the work is dedicated. In this way the work raises important questions concerning the transmission of medieval texts.

Timelines of History - DK 2018-04-03

Humans are a recent event in the planet's history, but we've wasted little time in making our mark. The range of our achievements has created a rich and elaborate heritage that we have the unique ability to capture and record - meaning we can look back and learn from the road traveled. Timelines of History begins with the emergence of our earliest African ancestors

and takes the reader through the history of cultures and nations around the world to arrive at the present day-the beginning of a new millennium. A dynamic, layered timeline zooms in and out of time, speeding up or slowing down to keep pace with the size and scope of events. [A Companion to Geoffrey of Monmouth](#) - Georgia Henley 2020

"A Companion to Geoffrey of Monmouth brings together scholars from a range of disciplines to provide an updated scholarly introduction to all aspects of his work. Arguably the most influential secular writer of medieval Britain, Geoffrey (d. 1154) popularized Arthurian literature and left an indelible mark on European romance, history, and genealogy. Despite this outsized influence, Geoffrey's own life, background, and motivations are little understood. The volume situates his life and works within their immediate historical context, and frames them within current critical discussion across the humanities. By necessity, this volume concentrates primarily on Geoffrey's own life and times, with the reception of his works covered by a series of short encyclopaedic overviews, organized by language, that serve as guides to further reading. Contributors are Jean Blacker, Elizabeth Bryan, Thomas H. Crofts, Siân Echard, Fabrizio De Falco, Michael Faletra, Ben Guy, Santiago Gutiérrez Garcia, Nahir I. [The Comic History of England](#) - Gilbert Abbott A Beckett 1894

A'Beckett and Leech were original contributors to "Punch, or the London Charivari" magazine, established 1841. It became the famous "Punch" magazine and remained in publication to 2002. A'Beckett also wrote editorials for a similar concept magazine, "Figaro in London" that ceased publication in 1839. "In commencing this work, the object of the Author was, as he stated in the Prospectus, to blend amusement with instruction, by serving up, in as palatable a shape as he could, the facts of English History. He pledged himself not to sacrifice the

substance to the seasoning; and though he has certainly been a little free in the use of his sauce, he hopes that he has not produced a mere hash on the present occasion. His object has been to furnish something which may be allowed to take its place as a standing at the library table, and which, though light, may not be found devoid of nutriment."--Preface.

History of Britain and Ireland - DK 2011-05-02

The History of Britain and Ireland traces the key events that shaped the societies living in the British Isles from the earliest times to the present day. From the Roman conquest of 43 CE to the Norman conquest of 1066, from the Elizabethan age of Shakespeare to the Victorian age of Charles Dickens, and from the Hundred Years War of the 14th and 15th centuries to the Iraq and Afghan wars of the 21st century, this beautifully illustrated book provides a definitive visual chronicle of the most colorful and defining episodes in British history. The story begins at least half a million years ago when humans started to make their home in Britain. Around 3000 BCE, the first Britons were making their mark on the landscape at remarkable sites such as the stone village of Skara Brae in Orkney and the earliest earthworks at Stonehenge. They entered the annals of recorded history with Julius Caesar's exploratory expedition across the

Channel in the late summer of 55 BCE. From then on the small group of islands off the west coast of Europe was never far from the center of world affairs: pioneering the industrial revolution, creating the largest empire the world has ever seen, fighting two world wars in the 20th century, and finally coming to terms with a new status in a fast-changing global economy. The History of Britain and Ireland combines a spread-by-spread narrative of events with a wealth of supporting features on the decisive turning points in the long and fascinating story of the British Isles, and on the outstanding individuals-from Geoffrey Chaucer and Queen Elizabeth I to Charles Darwin and Winston Churchill-who helped shape that story.
