**Mathematical Analysis I** - Claudio Canuto 2015-04-08

The purpose of the volume is to provide a support for a first course in Mathematics. The contents are organised to appeal especially to Engineering, Physics and Computer Science students, all areas in which mathematical tools play a crucial role. Basic notions and methods of differential and integral calculus for functions of one real variable are presented in a manner that elicits critical reading and prompts a hands-on approach to concrete applications. The layout has a specifically-designed modular nature, allowing the instructor to make flexible didactical choices when planning an introductory lecture course. The book may in fact be employed at three levels of depth. At the elementary level the student is supposed to grasp the very essential ideas and familiarise with the corresponding key techniques. Proofs to the main results befit the intermediate level, together with several remarks and complementary notes enhancing the treatise. The last, and farthest-reaching, level requires the additional study of the material contained in the appendices, which enable the strongly motivated reader to explore further into the subject. Definitions and properties are furnished with substantial examples to stimulate the learning process. Over 350 solved exercises complete the text, at least half of which guide the reader to the solution. This new edition features additional material with the aim of matching the widest range of educational

choices for a first course of Mathematics.

**Venice Saved** - Simone Weil 2019-06-13

Towards the end of her life, the French philosopher and mystic Simone Weil (1909-43) was working on a tragedy, *Venice Saved*. Appearing here in English for the first time, this play explores the realisation of Weil's own thoughts on tragedy. A figure of affliction, a central theme in Weil's religious metaphysics, the central character offers a unique insight into Weil's broader philosophical interest in truth and justice, and provides a fresh perspective on the wider conception of tragedy itself. The play depicts the plot by a group of Spanish mercenaries to sack Venice in 1618 and how it fails when one conspirator, Jaffier, betrays them to the Venetian authorities, because he feels compassion for the city's beauty. The edition includes notes on the play by the translators as well as introductory material on: the life of Weil; the genesis and purport of the play; Weil and the tragic; the issues raised by translating *Venice Saved*. With additional suggestions for further reading, the volume opens up an area of interest and research: the literary Weil.

**Monk's Eye** - Cees Nooteboom 2018-03

Cees Nooteboom wrote the poems that make up *Monk's Eye* on two islands: he began them on

the Dutch island of Schiermonnikoog and finished them on the Spanish island of Minorca, where he has spent summers for decades. The poems—which can be read individually or, all together, as the record of a poet's life—are about the two islands. But they're also about islands as an archetype, about the serenity that we can find on beaches and amid dunes, the sea sweeping imperturbably around us. Accompanied by Sunandini Banerjee's collages, the poems in this volume are rich in allusion; they address the past, memories, illusions, dreams, and the heart of all poetry—which Nooteboom locates in the opening line of Plato's *Phaedrus*, when Socrates, walking with his admirer, asks, "My dear *Phaedrus*, whence came you, and whither are you going?"

*Melodious Accord* - Alice Parker 1991

**Non-standard Analysis** - Abraham Robinson 2016-08-11

Considered by many to be Abraham Robinson's magnum opus, this book offers an explanation of the development and applications of non-standard analysis by the mathematician who founded the subject. Non-standard analysis grew out of Robinson's attempt to resolve the contradictions posed by infinitesimals within calculus. He introduced this new subject in a seminar at Princeton in 1960, and it remains as controversial today as it was then. This paperback reprint of the 1974 revised edition is indispensable reading for anyone interested in non-standard analysis. It treats in rich detail many areas of application, including topology, functions of a real variable, functions of a complex variable, and normed linear spaces, together with problems of boundary layer flow of viscous fluids and rederivations of Saint-Venant's hypothesis concerning the distribution of stresses in an elastic body.

*Bodies that Matter* - Judith Butler 1993

The author of "Gender Trouble" further develops her distinctive theory of gender by examining the workings of power at the most material dimensions of sex and sexuality. Butler examines how the power of heterosexual hegemony forms the matter of bodies, sex, and gender.

Bodies That Matter - Judith Butler 2014-09-03

In *Bodies That Matter*, Judith Butler further develops her distinctive theory of gender by

examining the workings of power at the most "material" dimensions of sex and sexuality. Deepening the inquiries she began in *Gender Trouble*, Butler offers an original reformulation of the materiality of bodies, examining how the power of heterosexual hegemony forms the "matter" of bodies, sex, and gender. Butler argues that power operates to constrain "sex" from the start, delimiting what counts as a viable sex. She offers a clarification of the notion of "performativity" introduced in *Gender Trouble* and explores the meaning of a citational politics. The text includes readings of Plato, Irigaray, Lacan, and Freud on the formation of materiality and bodily boundaries; "Paris is Burning," Nella Larsen's "Passing," and short stories by Willa Cather; along with a reconsideration of "performativity" and politics in feminist, queer, and radical democratic theory.

*I semi del poeta* - Evaristo Seghetta Andreoli 2013

*Medici Women* - Judith C Brown 2015-02-01

*The Dogs of the Sinai* - Franco Fortini 2013  
"Fortini/Cani" presents Fortini reading excerpts from his book, focusing on his alienation from Judaism and social relations, the rise of fascism in Italy, and the anti-Arab attitude of European culture. The Italian landscape provides a backdrop that highlights the meaning of the text.

*Linguistics and Psychoanalysis* - Michel Arrivé 1992-06-11

If you read or reread Freud, it is difficult not to find on a single page references to language: from speech to text, from slip of the tongue to word play, from letter to meaning-passing inevitably through the strange notion of literal meaning, that fascinated Freud. In short, the unconscious is linked to language. How could it be otherwise, if psychoanalysis is a cure through speech as indicated as early as 1881, by Fraülein Anna O.? The problem of the relationship between linguistic and psychoanalytic concepts necessarily arises. Until now this question has been examined mainly by psychoanalysts, from their own perspective, but here it is investigated by a linguist, who systematically explores two domains. The first is related to the sign and symbol, where the meeting of Freud, Saussure and Hjelmselv occurred; whereas in the second,

that of the signifier, Saussure reappears escorted by Lacan. But Freud is not far away, sine the Lacanian theory of the signifier is rooted not only in Saussure's Cours, but also in the Metapsychology and in Freud's Correspondence with Fliess. To aspire to unravel this knot, in fact corresponds to attempt a reading of the Lacanian aphorism "the unconscious is structured like a language".

**Thinking Through the Skin** - Sara Ahmed 2003-09-02

This exciting collection of work from leading feminist scholars including Elspeth Probyn, Penelope Deutscher and Chantal Nadeau engages with and extends the growing feminist literature on lived and imagined embodiment and argues for consideration of the skin as a site where bodies take form - already written upon but open to endless re-inscription. Individual chapters consider such issues as the significance of piercing, tattooing and tanning, the assault of self harm upon the skin, the relation between body painting and the land among the indigenous people of Australia and the cultural economy of fur in Canada. Pierced, mutilated and marked, mortified and glorified, scarred by disease and stretched and enveloping the skin of another in pregnancy, skin is seen here as both a boundary and a point of connection - the place where one touches and is touched by others; both the most private of experiences and the most public marker of a raced, sexed and national history.

*Cumulated Index Medicus* - 1987

*Plain Roots* - Becki Willis 2018-11

Taryn Clark thought she'd outgrown the need to find her birth mother. She thought that a

successful career and a comfortable life in the city were enough to be happy. Did she really need to know about the woman who had given her away? Adopted at birth, her first few years were happy. It hadn't mattered that she didn't know her heritage; she had parents who loved her and wanted her. But divorce, and then death, ripped their tiny family apart, and at the tender age of six, she entered the foster care system. Over the next dozen years, she shuffled from home to home. Finding her roots seemed an impossible dream. But dreams are resilient. An unexpected discovery awakens old yearnings of belonging to a family, of being part of something bigger than herself. Finding the brief, ambiguous note from her birth mother is enough to unfurl the ribbons of hope still binding her heart. Her quest takes her to Lancaster County, Pennsylvania and the heart of the Plain community. Aided by her unique eye color, a healthy dose of luck, and the private investigator she hires, Taryn finds her birth family easily enough, but finding the truth is another matter. In all her musings, she never imagined a scenario where her mother might be Amish. She never imagined that the fabric of her life might be a patchwork of faith and fear, stitched together with a dark family secret. Taryn is determined to trace her roots, even if it means digging in the mud to do so. Now she's caught in the quicksand of a shocking discovery and the consequences of choices made, almost forty years ago. She'll risk everything to uncover the truth and to claim the family--and the roots--she so desperately craves.

Venice & Antiquity - Patricia Fortini Brown 1996-01-01

Inscriptions, medals, and travelers' accounts, on more learned humanist and antiquarian writings, and, most importantly, on the art of the period, Brown explores Venice's evolving sense of the past. She begins with the late middle ages, when Venice sought to invent a dignified civic past by means of object, image, and text. Moving on to the fourteenth and fifteenth centuries, she discusses the collecting and recording of antiquities and the incorporation of Roman forms.

**The Ethnically Diverse City** - Frank Eckardt 2011-01-01

The Unmaking of Fascist Aesthetics - Kriss Ravetto 2001

In works by filmmakers from Bertolucci to Spielberg, debauched images of nazi and fascist eroticism, symbols of violence and immorality, often bear an uncanny resemblance to the images and symbols once used by the fascists themselves to demarcate racial, sexual, and political others. This book exposes the "madness" inherent in such a course, which attests to the impossibility of disengaging visual and rhetorical constructions from political, ideological, and moral codes. Kriss Ravetto argues that contemporary discourses using such devices actually continue unacknowledged rhetorical, moral, and visual analogies of the past. Against postwar fictional and historical accounts of World War II in which generic images of evil characterize the nazi and the

fascist, Ravetto sets the more complex approach of such filmmakers as Pier Paolo Pasolini, Liliana Cavani, and Lina Wertmuller. Her book asks us to think deeply about what it means to say that we have conquered fascism, when the aesthetics of fascism still describe and determine how we look at political figures and global events. **Tales of Royalty** - Elisabeth Wagner-Durand  
2020-07-20

The volume sheds light on Ancient Near Eastern kingship by focusing on its constant urge for legitimation. Thus, it highlights specific aspects like royal building activities, warfare and wisdom and frames these into material and textual expressions that take the powerful form of narratives. The contributions made in this volume look for specific topoi of kingship and examine which shapes they took and why. The publication determines which narrative topoi have once been selected to legitimize kingship, which media have been chosen to transmit these narratives, and what kind of narrative strategies have been applied. To consider both, texts and images, in the same margin, the book is based on a dual approach: referring to certain narrative themes both philological and archaeological material will be presented. By joining diverse perspectives of scholars of material culture and texts and their various approaches the publication promises new and special insight into the connection of narration and legitimation in Mesopotamia. It reflects

Ancient Near Eastern kingship and its narrative strategies from a interdisciplinary and transmedial point of view and gives new insights into the matter of royal legitimation.
