On Being Different - Conrad Phillip Kottak 2003

On Being Different provides an up-to-date, comprehensive, and interdisciplinary account of diversity and multiculturalism in the United States and Canada. Kottak and Kozaitis clarify essential issues, themes, and topics in the study of diversity, including ethnicity, religion, gender, and sexual orientation. The book also presents an original theory of multiculturalism, showing how human agency and culture work to organize and change society. The authors use rich and varied ethnographic examples, from North America and abroad, to help students apply the material to their own lives, and thus gain a better understanding of diversity and multiculturalism.

Media and Middle Class Moms - Lara J. Descartes 2010-04-02

Written by nationally recognized anthropologists Conrad Kottak and Lara Descartes, this ethnography of largely white, middle class families in a town in the midwest explores the role that the media play in influencing how those families cope with everyday work/family issues. The book insightfully reports that families struggle with, and make work/family decisions based largely on the images and ideas they receive from media sources, though they strongly deny being so influenced. An ideal book

for teaching undergraduate family, media, and methods courses.

Suitably Modern - Mark Liechty 2003

Suitably Modern traces the growth of a new middle class in Kathmandu as urban Nepalis harness the modern cultural resources of mass media and consumer goods to build modern identities and pioneer a new sociocultural space in one of the world's "least developed countries." Since Nepal's "opening" in the 1950s, a new urban population of bureaucrats, service personnel, small business owners, and others have worked to make a space between Kathmandu's old (and still privileged) elites and its large (and growing) urban poor. Mark Liechty looks at the cultural practices of this new middle class, examining such phenomena as cinema and video viewing, popular music, film magazines, local fashion systems, and advertising. He explores three interactive and mutually constitutive ethnographic terrains: a burgeoning local consumer culture, a growing mass-mediated popular imagination, and a recently emerging youth culture. He shows how an array of local cultural narratives--stories of honor, value, prestige, and piety--flow in and around global narratives of "progress," modernity, and consumer fulfillment. Urban Nepalis simultaneously adopt and critique these narrative strands, braiding them into local middle-class cultural life. Building on both Marxian and Weberian understandings of class, this study moves beyond them to describe the lived experience of "middle classness"--how class is actually produced and reproduced in everyday practice. It considers how people speak and act themselves into cultural existence, carving out real and conceptual spaces in which to produce class culture.

Made in Madagascar - Andrew Walsh 2012-10-04

Since the 1990s, the Ankarana region of northern Madagascar has developed a

reputation among globe-trotting gemstone traders and tourists as a source of some of the world's most precious natural wonders. Although some might see Ankarana's sapphire and ecotourist trades as being at odds with each other, many local people understand these trades to be fundamentally connected, most obviously in how both serve foreign demand for what Madagascar has to offer the world. Walsh explores the tensions and speculations that have come with the parallel emergence of these two trades with sensitivity and a critical eye, allowing for insights into globalization, inequality, and the appeal of the "natural." American Pageant - David M. Kennedy
2015-01-01

THE AMERICAN PAGEANT enjoys a reputation as one of the most popular, effective, and entertaining texts on American history. The colorful anecdotes, first-person quotations, and trademark wit bring American history to life. The 16th edition includes a major revision of Part Six (the period from 1945 to the present), reflecting recent scholarship and providing greater thematic coherence. The authors also condensed and consolidated material on the Wilson presidency and World War I (formerly Chapters 29 and 30) into a new single chapter. A new feature, "Contending Voices," offers paired quotes from original historical sources, accompanied by questions that prompt students to think about conflicting perspectives on controversial subjects. Additional pedagogical aids make THE AMERICAN PAGEANT accessible to students: part openers and chapter-ending chronologies provide a context for the major periods in American history, while other features present additional primary sources, scholarly debates, and key historical figures for analysis.

Available in the following options: THE AMERICAN PAGEANT, Sixteenth Edition (Chapters 1–41); Volume 1: To 1877 (Chapters 1–22); Volume 2: Since 1865 (Chapters 22–41). Favela - Janice Perlman 2010-06-10
Janice Perlman wrote the first in-depth account

of life in the favelas, a book hailed as one of the most important works in global urban studies in the last 30 years. Now, in *Favela*, Perlman carries that story forward to the present. Re-interviewing many longtime favela residents whom she had first met in 1969--as well as their children and grandchildren--Perlman offers the only long-term perspective available on the favelados as they struggle for a better life. Perlman discovers that while educational levels have risen, democracy has replaced dictatorship, and material conditions have improved, many residents feel more marginalized than ever. The greatest change is the explosion of drug and arms trade and the high incidence of fatal violence that has resulted. Yet the greatest challenge of all is job creation--decent work for decent pay. If unemployment and under-paid employment are not addressed, she argues, all other efforts will fail to resolve the fundamental issues. Foreign Affairs praises Perlman for writing "with compassion, artistry, and intelligence, using stirring personal stories to illustrate larger points substantiated with statistical analysis."

The Language of the Inka since the European Invasion - Bruce Mannheim
2013-08-26

The Inka empire, Tawantinsuyu, fell to Spanish invaders within a year's time (1532-1533), but Quechua, the language of the Inka, is still the primary or only language of millions of Inka descendants throughout the southern Andes. In this innovative study, Bruce Mannheim synthesizes all that is currently known about the history of Southern Peruvian Quechua since the Spanish invasion, providing new insights into the nature of language change in general, into the social and historical contexts of language change, and into the cultural conditioning of linguistic change. Mannheim first discusses changes in the social setting of language use in the Andes from the time of the first European contact in the sixteenth century until today. He reveals that the modern linguistic homogeneity of Spanish and Quechua is a product of the Spanish conquest, since multilingualism was the rule in the Inka empire. He identifies the social and political forces that have influenced the kinds of changes the language has undergone. And he provides the first synthetic history of

Southern Peruvian Quechua, making it possible at last to place any literary document or written text in a chronological and social context.

Mannheim also studies changes in the formal structure of Quechua. He finds that changes in the sound system were motivated primarily by phonological factors and also that the changes were constrained by a set of morphological and syntactic conditions. This last conclusion is surprising, since most historical linguists assume that sound change is completely independent of other aspects of language. Thus, *The Language of the Inka* since the European Invasion makes an empirical contribution to a general theory of linguistic change. Written in an engaging style that is accessible to the nonlinguist, this book will have a special appeal to readers interested in the history and anthropology of native South America.

Uncertain Tastes - Jon Holtzman 2009

This richly drawn ethnography of Samburu cattle herders in northern Kenya examines the effects of an epochal shift in their basic diet--from a regimen of milk, meat, and blood to one of purchased agricultural products. In his innovative analysis, Jon Holtzman uses food as a way to contextualize and measure the profound changes occurring in Samburu social and material life. He shows that if Samburu reaction to the new foods is primarily negative--they are referred to disparagingly as "gray food" and "government food"--it is also deeply ambivalent. For example, the Samburu attribute a host of social maladies to these dietary changes, including selfishness and moral decay. Yet because the new foods save lives during famines, the same individuals also talk of the triumph of reason over an antiquated culture and speak enthusiastically of a better life where there is less struggle to find food. Through detailed analysis of a range of food-centered arenas, *Uncertain Tastes* argues that the experience of food itself--symbolic, sensuous, social, and material--is intrinsically characterized by multiple and frequently conflicting layers.

Anthropology - Conrad Phillip Kottak 2006-12

The new edition of Kottak's best selling text continues to offer a holistic introduction to anthropology that approaches the course from a four-field perspective. To emphasize anthropology's integrated and comparative

nature, *Bringing It All Together* essays show how anthropology's sub-fields and dimensions combine to interpret and explain a common topic. Another distinctive feature, *Understanding Ourselves*, illustrates the relevance of anthropological facts and theories to students' everyday lives. Pink Globalization - Christine Reiko Yano

Northern Passage - Robert Jarvenpa 1998-02-23

What is it like living among and learning about the cultural realities of other people for the first time? *Northern Passage* uses the motif of apprenticeship to reveal the humbling, childlike quest of the novice ethnographer, on the one hand, and the trials of an active participant learning the intricacies of bush life and livelihood from subarctic Indian hunting partners and teachers, on the other hand. In the process, Jarvenpa's reflexive narrative presents a compelling vision of northern Dene or Athapaskan society. The Han people of the Yukon Territory and eastern Alaska and the Chipewyan of northern Saskatchewan emerge as vividly drawn actors in a cultural landscape distinctly influenced by gold miners, fur traders, missionaries, conservation officers, and other post-colonial agents. This candid but sensitive treatment deals with issues such as trapping economies, knowledge of the environment, dreaming and hunting power, permission and informed consent, language learning, accusations of spying, alcohol use, economic development, partnerships, note-taking, and the pros and cons of active participation. Jarvenpa's early field experiences unfold as a primer on false leads, setbacks and revealing discoveries building to a suspenseful aftershock.

Assault on Paradise - Conrad Phillip Kottak
2017-11-10

By the highest standards, *Assault on Paradise* ranks among the best and most complete modern ethnographic accounts ever written. In a rich narrative style, it chronicles the rapid social

and economic change in Arembepe, a once-isolated coastal fishing village in Brazil where the author first conducted anthropological fieldwork more than fifty years ago. With emphasis on the impact of globalization, technology, and mass media, the current edition extends stories of people and events as well as internal and external changes. Readers quickly feel a part of the evolving community of Arembepe and the author's close friends and informants. As one reviewer put it, "The people and personalities come through in a very human and often amusing way. This isn't ethnography with the people taken out." The well-structured, jargon-free coverage makes it ideal for use in introductory anthropology courses.

Warlike and Peaceful Societies - Agner Fog
2017-10-13

Are humans violent or peaceful by nature? We are both. In this ambitious and wide-ranging book, Agner Fog presents a ground-breaking new argument that explains the existence of differently organised societies using evolutionary theory. It combines natural sciences and social sciences in a way that is rarely seen. According to a concept called regality theory, people show a preference for authoritarianism and strong leadership in times of war or collective danger, but desire egalitarian political systems in times of peace and safety. These individual impulses shape the way societies develop and organise themselves, and in this book Agner argues that there is an evolutionary mechanism behind this flexible psychology. Incorporating a wide range of ideas including evolutionary theory, game theory, and ecological theory, Agner analyses the conditions that make us either strident or docile. He tests this theory on data from contemporary and ancient societies, and provides a detailed explanation of the applications of regality theory to issues of war and peace, the rise and fall of empires, the mass media, economic instability, ecological crisis, and much more. Warlike and Peaceful Societies: The Interaction of Genes and Culture draws on many different fields of both the social sciences and the natural sciences. It will be of interest to academics and students in these fields, including anthropology, political science, history, conflict and peace research, social psychology, and more, as well as the

natural sciences, including human biology, human evolution, and ecology.

In addition, special focus is given to the most current trends in field research. Thanks for Watching - Patricia G. Lange
2019-11-15

YouTube hosts one billion visitors monthly and sees more than 400 hours of video uploaded every minute. In her award winning book, *Thanks for Watching*, Patricia G. Lange offers an anthropological perspective on this heavily mediated social environment by analyzing videos and the emotions that motivate sharing them. She demonstrates how core concepts from anthropology—participant-observation, reciprocity, and community—apply to sociality on YouTube. Lange's book reconceptualizes and

updates these concepts for video-sharing cultures. Lange draws on 152 interviews with YouTube participants at gatherings throughout the United States, content analyses of more than 300 videos, observations of interactions on and off the site, and participant-observation. She documents how the introduction of monetization options impacted perceived opportunities for open sharing and creative exploration of personal and social messages. Lange's book provides new insight into patterns of digital migration, YouTube's influence on off-site interactions, and the emotional impact of losing control over images. The book also debunks traditional myths about online interaction, such as the supposed online/offline binary, the notion that anonymity always degrades public discourse, and the popular characterization of online participants as over-sharing narcissists. YouTubers' experiences illustrate fascinating hybrid forms of contemporary sociality that are neither purely mediated nor sufficient when conducted only in person. Combining intensive ethnography, analysis of video artifacts, and Lange's personal vlogging experiences, the book explores how YouTubers are creating a posthuman collective characterized by interaction, support, and controversy. In analyzing the tensions between YouTubers' idealistic goals of sociality and the site's need for monetization, *Thanks for Watching* makes crucial contributions to cultural anthropology, digital ethnography, science and technology studies, new media studies, communication, interaction design, and posthumanism. For its perceptive analysis of video blogging for self-expression and sociality, *Thanks for Watching* received the Franklyn S. Haiman Award for Distinguished Scholarship in Freedom of Expression (2020), from the National Communication Association.

Golden Arches East - James L. Watson
2006-03-13

McDonald's restaurants are found in over 100 countries, serving tens of millions of people each day. What are the cultural implications of this phenomenal success? The widely read—and widely acclaimed—*Golden Arches East* argues that McDonald's has largely become divorced from its American roots and become a "local" institution for an entire generation of affluent

consumers in Hong Kong, Beijing, Taipei, Seoul, and Tokyo. In the second edition, James L. Watson also covers recent attacks on the fast-food chain as a symbol of American imperialism, and the company's role in the obesity controversy currently raging in the U.S. food industry, bringing the story of East Asian franchises into the twenty-first century. Praise for the First Edition: "Golden Arches East is a fascinating study that explores issues of globalization by focusing on the role of McDonald's in five Asian economies and [concludes] that in many countries McDonald's has been absorbed by local communities and become assimilated, so that it is no longer thought of as a foreign restaurant and in some ways no longer functions as one." —Nicholas Kristof, *New York Times Book Review* "This is an important book because it shows accurately and with subtlety how transnational culture emerges. It must be read by anyone interested in globalization. It is concise enough to be used for courses in anthropology and Asian studies." —Joseph Bosco, *China Journal* "The strength of this book is that the contributors contextualize not just the food side of McDonald's, but the social and cultural activity on which this culture is embedded. These are culturally rich stories from the anthropology of everyday life." —Paul Noguchi, *Journal of Asian Studies* "Here is the rare academic study that belongs in every library." —*Library Journal*

Community Organizing and Development -

Herbert J. Rubin 2008

This revised edition of a well-known and widely used text in community organizing and

development fully examines the broad and changing political and social settings that influence actions; while portraying the infrastructure of social change -- the knowledge, personnel, and organizations -- that enable such work to be successfully accomplished. The text brings together the practicalities of organizing and development -- fund raising, working out news releases, running an organization, orchestrating political actions, academic knowledge -- and explains why various approaches work; as well as the values and ideologies that guide what is to be done. It provides the foundations of organizing and development work and then describes how activists -- through following either a social confrontation model or an economic and social production approach -- can respond to economic and social problems.

Handbook of Methods in Cultural Anthropology - H. Russell Bernard 2014-07-08

The Handbook of Methods in Cultural Anthropology, now in its second edition, maintains a strong benchmark for understanding the scope of contemporary anthropological field methods. Avoiding divisive debates over science and humanism, the contributors draw upon both traditions to explore fieldwork in practice. The second edition also reflects major developments of the past decade, including: the rising prominence of mixed methods, the emergence of new technologies, and evolving views on ethnographic writing. Spanning the chain of research, from designing a project through methods of data collection and interpretive analysis, the Handbook features new chapters on ethnography of online communities, social survey research, and network and geospatial analysis. Considered discussion of ethics, epistemology, and the presentation of research results to diverse audiences round out the volume. The result is an essential guide for all scholars, professionals, and advanced students who employ fieldwork.
