Uncle Tungsten - Oliver Sacks 2013-12-11

Long before Oliver Sacks became a distinguished neurologist and bestselling writer, he was a small English boy fascinated by metals—also by chemical reactions (the louder and smellier the better), photography, squids and cuttlefish, H.G. Wells, and the periodic table. In this endlessly charming and eloquent memoir, the author of *The Man Who Mistook His Wife for a Hat* and *Awakenings* chronicles his love affair with science and the magnificently odd and sometimes harrowing childhood in which that love affair unfolded. In *Uncle Tungsten* we meet Sacks' extraordinary family, from his surgeon mother (who introduces the fourteen-year-old Oliver to the art of human dissection) and his father, a family doctor who imbues in his son an early enthusiasm for housecalls, to his "Uncle Tungsten," whose factory produces tungsten-filament lightbulbs. We follow the young Oliver as he is exiled at the age of six to a grim, sadistic boarding school to escape the London Blitz, and later watch as he sets about passionately reliving the exploits of his chemical heroes—in his own home laboratory. *Uncle Tungsten* is a crystalline view of a brilliant young mind springing to life, a story of growing up which is by turns elegiac, comic, and wistful, full of the electrifying joy of discovery.

Merchants in the Temple - Gianluigi Nuzzi 2015-11-10

From a bestselling author with unprecedented access to Pope Francis, an investigative look at the recent financial scandals at the highest levels of the Vatican. A veritable war is waging in the Church: on one side, there is Pope Francis's strong message for one church of the poor and all; on the other, there is the old Curia with its endless enemies, and the old and new lobbies struggling to preserve their not-so-Christian privileges. The old guard do not back down, they are ready to use all means necessary to stay in control and continue the immoral way they conduct their business. They resist reforms sought by Pope Francis and seek to delegitimize their opponents, to isolate those who want to eliminate corruption. It's a war that will determine the future of the church. And if he loses the battle against secular interests and blackmail, Pope Francis could resign, much like his predecessor. Based on confidential

information—including top secret documents from inside the Vatican, and actual transcripts of Pope Francis’s admonishments to the papal court about the lack of financial oversight and responsibility—*Merchants in the Temple* illustrates all the undercover work conducted by the Pope since his election and shows the reader who his real enemies are. It reveals the instruments Francis is using to reform the Vatican and rid it, once and for all, of the overwhelming corruption traditionally encrusted in the Roman Catholic Church. *Merchants in the Temple* is a startling book that will shock every reader. It’s a story worthy of a Dan Brown novel, with its electrifying details of the trickery and scheming against the papacy—except that it is real.

Road to Valour - Aili McConnon 2013-06-20

An Italian SCHINDLER'S LIST, this is the inspirational story of Gino Bartali, who made the greatest comeback in Tour de France history and secretly aided the Italian Resistance during the Second World War. ROAD TO VALOUR is the inspiring, against-the-odds story of Gino Bartali, the cyclist who made the greatest comeback in Tour de France history and still holds the record for the longest gap between victories. Yet it was his actions during the Second World War, when he secretly aided the Resistance, rather than his remarkable exploits on a bike, that truly cemented his place in the hearts and minds of the Italian people. Based on nearly ten years of research, and including fascinating new interviews, this is the only book written that fully explores the scope of Bartali's wartime work. A breathtaking account of one man's unsung heroism and his resilience in the face of adversity, this is an epic tale of courage, comeback and redemption, and the untold story of one of the greatest athletes of the twentieth century.

How to Travel with a Salmon - Umberto Eco 1995-09-15

“Impishly witty and ingeniously irreverent” essays on topics from cell phones to librarians, by the author of *The Name of the Rose* and *Foucault’s Pendulum* (*The Atlantic Monthly*). A cosmopolitan curmudgeon the *Los Angeles Times* called “the Andy Rooney of academia”—known for both nonfiction and novels that have become blockbuster New York

Times bestsellers—Umberto Eco takes readers on “a delightful romp through the absurdities of modern life” (*Publishers Weekly*) as he journeys around the world and into his own wildly adventurous mind. From the mundane details of getting around on Amtrak or in the back of a cab, to reflections on computer jargon and soccer fans, to more important issues like the effects of mass media and consumer civilization—not to mention the challenges of trying to refrigerate an expensive piece of fish at an English hotel—this renowned writer, semiotician, and philosopher provides “an uncanny combination of the profound and the profane” (*San Francisco Chronicle*). “Eco entertains with his clever reflections and with his unique persona.” —Kirkus Reviews

Le bugie nel carrello - Dario Bressanini

2013-05-16T00:00:00+02:00

Cos’è esattamente il Kamut®? Perché è meglio non mangiare troppo tonno? Le patate al selenio fanno bene alla salute? La mortadella al 100 per cento naturale esiste davvero? Dopo il successo di *PANE E BUGIE* (*Chiarelettere* 2010), il libro sulla disinformazione in campo alimentare, Dario Bressanini ci accompagna tra gli scaffali di un supermercato immaginario e ci aiuta a capire cosa raccontano, e cosa nascondono, le etichette dei prodotti che acquistiamo. Scopriremo, tra l’altro, che l’equazione “naturale = buono” è uno dei pregiudizi più radicati e più usati dalla pubblicità, che un prodotto che l’etichetta descrive come a “chimica zero” i conservanti li contiene, che il prezzo di una bottiglia di vino ne influenza l’apprezzamento e che il tonno più buono non si taglia con un grissino.

The Comrade from Milan - Rossana Rossanda 2020-10-27

In this much-lauded memoir, acclaimed for its blend of literary elegance and political passion, Rossana Rossanda, a legendary figure on the Italian left, reflects on a life of radical commitment. Active as a communist militant in the Italian Resistance against fascism during World War Two, Rossanda rose rapidly in its aftermath, becoming editor of the Communist Party weekly paper and a member of parliament. Initially a party loyalist, she was critical of the party's conservatism in the face of new radical movements and moved into opposition during the late 1960s. The breach widened after she and others publicly opposed the Soviet invasion of Czechoslovakia, and were expelled in 1969. She went on to help found the influential paper *il manifesto*, which remains the most critical daily in Berlusconi's Italy. Her unique experience enables her to reconstruct that period with flair and authority. She paints a revealing picture of fascism, communism, post-war reconstruction and the revolts that shook Europe in the 1960s. In *The Comrade from Milan*, one of the most influential intellectuals of the European Left

relives the storms of the twentieth century. Both cool-headed and precise, Rossanda provides a rare insight into what it once meant to be politically engaged.

Italian Superstitions - Andrea Malossini
2013-03-27

We are all superstitious, even those who affirm the opposite. Superstition is natural, it resides in all of us: it represents the human answer to rare, singular, and mysterious phenomena. All that cannot be explained or resolved in a logical manner disturbs the human spirit, promoting many to devise remedies that, while irrational, can restore hope and security. It is fear, therefore, that generates, feeds, and preserves superstition. Not surprisingly, religion with its dogmas, natural phenomena with its mysteries, and life's cycle with its uncertainties, have always been a source of superstitious beliefs. Andrea Malossini's book - which collects over one thousand superstitious - reports, in an orderly manner, Italian superstitious beliefs along with a brief description of their origin and meaning. The intent is to give the reader an idea of Italian superstitions, in a smooth and easy way, hoping, thanks to the suggestion in the titles, to arouse curiosity. This small book is therefore not necessarily devoted to superstitious people, but to all of those who, perhaps out of habit, want to know why, when they see an upside down piece of bread on the table, they turn it over, or why, not being happy to have spilled some oil, they also throw a handful of salt over their shoulder. Author A firmly convinced rationalist and agnostic, Andrea Malossini is not superstitious and does not believe in the absurd and irrational rites suggested by superstitions. Luckily, he was born on a Thursday, of an even year, of a non-leap year, and apprentice on a Wednesday, therefore, undoubtedly, born under the best omens. Maybe for this reason- and for his inexhaustible curiosity towards the things that appear to the many as strange, mysterious and incomprehensible- he has been studying, collecting and writing for many years on topics

regarding superstition and witchcraft without the fear of being charmed by them. Among the very few superstitions that he grants himself more to keep family-peace than anything else—there are the never upside-down bread on the table and never place the hat on the bed rules. On the subject of popular traditions he cooperated with several newspapers and periodicals. He was the author of the moon weekly almanac on the Sunday television program “Linea Verde” broadcasted on Rai Uno; today he is the author and voice of the weekly column “Lune e Cieli” broadcasted live on the Television station TeleSanterno- Odeon TV. He published over ten books for the publishing company Garzanti , A.Vallardi e Area51 Publishing, among which: “Manuale di stregoneria” (Witchcraft Manual), “Le ricette delle streghe” (Witches Recipes), “Breve storia delle streghe” Witches: a brief history), “Dizionario delle superstizioni italiane” (Dictionary of Italian superstitions), “Gli unti del Signore” (God’s Anointed), “Dizionario dei Santi patroni”(Dictionary of Patron Saints).

The Warren Buffett Way - Robert G. Hagstrom 2013-09-13

Warren Buffett is the most famous investor of all time and one of today's most admired business leaders. He became a billionaire and investment sage by looking at companies as businesses rather than prices on a stock screen. The first two editions of *The Warren Buffett Way* gave investors their first in-depth look at the innovative investment and business strategies behind Buffett's spectacular success. The new edition updates readers on the latest investments by Buffett. And, more importantly, it draws on the new field of behavioral finance to explain how investors can overcome the common obstacles that prevent them from investing like Buffett. New material includes: How to think like a long-term investor - just like Buffett Why "loss aversion", the tendency of most investors to overweight the pain of losing money, is one of the biggest obstacles that investors must overcome. Why behaving rationally in the face of the ups and downs of the market has been the key to Buffett's investing success Analysis of Buffett's recent acquisition of H.J. Heinz and his investment in IBM stock The greatest challenge to emulating Buffett is not in the selection of the right stocks, Hagstrom writes, but in having the fortitude to stick with sound investments in the face of economic and market uncertainty. The new edition explains the psychological foundations of Buffett's approach, thus giving readers the best roadmap yet for mastering both the principles and behaviors that have made Buffett the greatest investor of our generation.
