Politics of International Human Rights Law Promotion in Western Europe - Koldo Casla 2019-06-19

This book offers a critical reinterpretation of Western European States' programmatic support for International Human Rights Law (IHRL) since the 1970s. It examines the systemic or structural constraints inherent to the international legal system and argues that order trumps justice in Western Europe's promotion of international human rights norms. The book shows that IHRL evolved as a result of a tension between two forces: A European understanding of international society, based on order, the centrality of the State and a minimalist conception of human rights; and a civil society and UN-promoted, mostly Western, particularly European but broader conception of human rights, based on justice. As such, human rights norms emerge and develop when (some) states' idea of order meets with advocates' idea of justice. We are living a historical juncture of shifting tectonic plates with rising nationalism in the Global North, ever growing power in the Global South and a declining presence of Europe in global affairs. The conditions under which IHRL emerged have fundamentally changed and unpacking the factors beneath the international recognition of human rights has never been more pressing. This book will be of key interest to scholars, students and practitioners in human rights law, public international law, international relations, critical legal theory and in European politics.

Luc Tuymans - Eva Meyer-Hermann 2018-01-09

This first volume in a catalogue raisonné of Tuymans's paintings surveys nearly 200 works from the vital early years of his career Credited with a key role in the revival of painting in the 1990s, Belgian artist Luc Tuymans (b. 1958) continues to produce subtle, and at times unsettling, works that engage with history, technology, and everyday life. This first volume in a catalogue raisonné of Tuymans's paintings surveys nearly 200 works that were vital to his artistic development. The years 1972 to 1994 witnessed the maturation of his signature method of painting from preexisting imagery--such as magazine images, Polaroids, and television footage--as well as his first solo exhibition. Also dating from this period are many of his seminal canvases, along with ten poignant portraits of

the ailing human body and the enigmatic series *Superstition* that comprised his first works exhibited in the United States. The catalogue features brilliant new photography of each of the paintings and an illustrated chronology with archival images and installation shots of the works in this volume. This publication is a testament to Tuymans's persistent assertion of the relevance and importance of painting--a conviction that he maintains even in today's digital world, when his work continues to be a touchstone for artists and scholars.

A History of Clouds - Hans Magnus Enzensberger 2018-06-22

In these 99 meditations, poet and novelist Hans Magnus Enzensberger celebrates the tenacity of the normal and routine in everyday life, where the survival of the objects we use without thinking--a pair of scissors, perhaps--is both a small, human victory and a quiet reminder of our own ephemeral nature. He sets his quotidian reflections against a broad historical and political backdrop: the cold war and its accompanying atomic threat; the German student revo Enzensberger's poems are conversational, skeptical, and serene they culminate in the extended set of observations that gives the collection its title. Clouds, alien and yet symbols of human life, are for Enzensberger at once a central metaphor of the Western poetic tradition and "the most fleeting of all masterpieces." "Cloud archaeology," writes Enzensberger, is "a science for angels." Praise for the German edition "After reading this wonderful volume of poetry one would like to call Enzensberger simply the lyric voice of transience."-- *Sueddeutsche Zeitung* "With this book Enzensberger reveals himself both as a spokesman of persistence and as a decelerator."--*Neue Zuercher Zeitung*

Every Man Dies Alone - Hans Fallada 2019-09-10

This never-before-translated masterpiece—by a heroic best-selling writer who saw his life crumble when he wouldn't join the Nazi Party—is based on a true story. It presents a richly detailed portrait of life in Berlin under the Nazis and tells the sweeping saga of one working-class couple who decides to take a stand when their only son is killed at the front. With nothing but their grief and each other against the awesome power of the Reich, they launch a simple, clandestine resistance campaign that soon has an enraged Gestapo on their trail, and a world of terrified neighbors and cynical snitches ready to turn them in. In the end, it's

more than an edge-of-your-seat thriller, more than a moving romance, even more than literature of the highest order—it's a deeply stirring story of two people standing up for what's right, and for each other.

Dark Dreams 2.0 - Charles Derry 2009-12-21

Greatly expanded and updated from the 1977 original, this new edition explores the evolution of the modern horror film, particularly as it reflects anxieties associated with the atomic bomb, the Cold War, 1960s violence, sexual liberation, the Reagan revolution, 9/11 and the Iraq War. It divides modern horror into three varieties (psychological, demonic and apocalyptic) and demonstrates how horror cinema represents the popular expression of everyday fears while revealing the forces that influence American ideological and political values. Directors given a close reading include Alfred Hitchcock, Brian De Palma, David Cronenberg, Guillermo Del Toro, Michael Haneke, Robert Aldrich, Mel Gibson and George A. Romero. Additional material discusses postmodern remakes, horror franchises and Asian millennial horror. This book also contains more than 950 frame grabs and a very extensive filmography.
