The Vegan Book of Permaculture - Graham Burnett 2015-01-15

How we eat is such a fundamental part of what we are; yet, in our present time-poor culture of prepackaged fast foods, food can become an expensive symptom of alienation and disempowerment. It doesn't have to be this way! The Vegan Book of Permaculture gives us the tools and confidence to take responsibility for our lives and actions. Creating a good meal, either for ourselves or to share, taking time to prepare fresh, wholesome home- or locally grown ingredients with care and respect can be a deeply liberating experience. It is also a way of taking back some control from the advertising agencies and multinational corporations. In this groundbreaking and original book, Graham demonstrates how understanding universal patterns and principles, and applying these to our own gardens and lives, can make a very real difference to both our personal lives and the health of our planet. This also isn't so very different from the compassionate concern for "animals, people, and environment" of the vegan way. Interspersed with an abundance of delicious, healthy, and wholesome exploitation-free recipes, Graham provides solutions-based approaches to nurturing personal effectiveness and health, eco-friendly living, home and garden design, veganic food growing, reforestation strategies, forest gardening, reconnection with wild nature, and community regeneration with plenty of practical ways to be well fed with not an animal dead! This is vegan living at its best.

How Should One Read a Book? - Virginia Woolf 2021-11-24

First delivered as a speech to schoolgirls in Kent in 1926, this enchanting short essay by the towering Modernist writer Virginia Woolf celebrates the importance of the written word. With a measured but ardent tone, Woolf weaves together thought and quote, verse and prose into a moving tract on the power literature can have over its reader, in a way which still resounds with truth today. I have sometimes dreamt, at least, that when the Day of Judgement dawns and the great conquerors and lawyers and statesmen come to receive their rewards - their crowns, their laurels, their names carved indelibly upon imperishable marble - the Almighty will turn to Peter and will say, not without a certain envy when he sees us coming with our books under our arms, "Look, these need no reward. We have nothing to give them here. They have loved reading."

Her mother wants to renovate the family apartment in Messina, to put it up for sale and asks her daughter to sort through her things--to decide what to keep and what to throw away. Surrounded by the objects of her past, Ida is forced to deal with the trauma she experienced as a girl, twenty-three years earlier, when her father left one morning, never to return. The fierce silences between mother and daughter, the unbalanced friendships that leave her emotionally drained, the sense of an identity based on anomaly, even the relationship with her husband, everything revolves around the figure of her absent father. Mirroring herself in that absence, Ida has grown up into a woman dominated by fear, suspicious of any form of desire. However, as her childhood home besieges her with its ghosts, Ida will have to find a way to break the spiral and let go of her father finally. Beautifully translated by Ann Goldstein, who also translated Elena Ferrante's Neapolitan quartet, Farewell, Ghosts is a
