*Aristotle's Zoology and Its Renaissance
Commentators, 1521-1601* - Stefano Perfetti
2000
Almost neglected in the Middle Ages, Aristotle's

libri de animalibus received increasing attention in the Cinquecento, and were often commented on by several professional Aristotelians. Dr. Perfetti reconstructs this commentary tradition:

a parabola that goes from Pomponazzi's lessons on the *De partibus animalium* (held in Bologna, 1521-23) up to the publication of Cristoforo Guarinoni's *Commentaria in primum librum De historia animalium*, Frankfurt 1601, and includes other bright lights of the Aristotelian scene, such as Niccolo Leonico Tomeo, Agostino Nifo, Julius Caesar Scaliger, Simone Porzio, Francesco Vimercato, Cesare Cremonini, and Theodore Gaza. The author pays special attention to the peculiar techniques of analysis employed by each commentator and to the balance between philology, erudition, and natural philosophy. This study also provides a reading key that explains the reasons for this renewed interest for philosophical zoology in the first half of the century and explains why commentators transformed their use of Aristotle's zoology throughout the second half of the century, to reach, eventually, the extinction of *exegesis per modum commentii*.

The Big Water - Živko Čingo 2004

Set in Macedonia immediately after World War 2, it tells the story of a group of children orphaned by the war and their life in an orphanage. Full of characters and incidents, the book presents a child's view of life that is both humorous and bleak and, by its end, very moving. At a metaphoric level, the novel presents a strong critique of the authoritarianism of both institutional life and the Communist system, and their inability to reconcile with the needs and nature of the individual. At the human level, *The Big Water* is a very positive and moving story of the emotional development of children, and of the fundamental and irreplaceable role of the mother. Readers will remember this story and its climax long after they have finished the book.

I pericoli della solidarietà - SERGIO RICOSSA
2014-02-26T00:00:00+01:00

Gli scritti di Sergio Ricossa sono sempre un prezioso scrigno, da cui si possono di continuo trarre gemme di inusuale bellezza. Le pagine contenute in questo volume ne sono un esempio. Con il suo acume, la sua cultura e la sua ironia, Ricossa ci offre la possibilità di esplorare un principio, di cui si parla molto e che è stato fatto proprio anche da talune carte costituzionali. Ci fa capire che cosa sia la solidarietà e quale funzione essa svolga nella convivenza fra gli uomini e nel rapporto fra governati e governanti. Affrancandoci dai tanti luoghi comuni quotidianamente spesi, Ricossa ci aiuta a rispondere alle nostre domande, soprattutto a quelle che potrebbero sembrare scomode o "impertinenti". Il metodo utilizzato è quello caro all'Autore, che richiama costantemente la nostra

attenzione sugli esiti positivi e negativi generati dalle nostre azioni. Ricossa si sofferma dapprima sulla solidarietà volontaria. E spiega che pure il nostro più spontaneo desiderio di aiutare gli altri «esige un patto anticipato fra almeno due persone», chi propone e chi accetta. Come avviene in ogni altro rapporto intersoggettivo, amicizia e amore compresi, c'è nella solidarietà uno "scambio", in cui devono essere presenti la disponibilità a dare e la disponibilità a ricevere. Ricossa "esplora" le relazioni interne alla famiglia, i rapporti fra colleghi e varie altre situazioni. E alla sua vigile lente non sfuggono «gli abbracci ostentati, le pacche sulle spalle, i "regali" prestigiosi», che precedono l'«invito ad aderire a reti di connivenze e omertà», le "cricche" solidaristiche, alle quali «bisogna saper dire di "no" al momento giusto». Ricossa analizza poi un tipo di solidarietà a cui non è possibile sottrarsi: quella resa «obbligatoria per legge, imposta da politici demagoghi, pagata da contribuenti inermi, goduta massimamente da

burocrati pubblici, inventata nella forma moderna da Bismarck, il cui ideale era trasformare la Prussia in un'unica immensa caserma, trattando i civili come militari». È una solidarietà che non ha alcun valore morale, perché non è un prodotto della libertà di scelta. Ossia: «il valore morale della solidarietà obbligatoria, non libera, è nullo». E non solo. Il suo valore economico, «inteso come spesa, è altissimo. Il presupposto teorico è che i ricchi paghino per i poveri. La conseguenza pratica è che, più spesso di quanto non si creda, i poveri pagano per i ricchi».

The Bauhaus Group - Nicholas Fox Weber
2009-10-27

Nicholas Fox Weber, for thirty-three years head

of the Albers Foundation, spent many years with Anni and Josef Albers, the only husband-and-wife artistic pair at the Bauhaus (she was a textile artist; he a professor and an artist, in glass, metal, wood, and photography). The Alberses told him their own stories and described life at the Bauhaus with their fellow artists and teachers, Walter Gropius, Paul Klee, Wassily Kandinsky, Ludwig Mies van der Rohe, as well as these figures' lesser-known wives and girlfriends. In this extraordinary group biography, Weber brilliantly brings to life the Bauhaus geniuses and the community of the pioneering art school in Germany's Weimar and Dessau in the 1920s and early 1930s. Here are: Walter Gropius, founder of the Bauhaus, the architect who streamlined design early in his career and who saw the school as a place for designers to collaborate in an ideal setting . . . a dashing hussar, the ardent young lover of the renowned femme fatale Alma Mahler, beginning when she was the wife of composer Gustav

Mahler . . . Paul Klee, the onlooker, smoking his pipe, observing Bauhaus dances as well as his colleagues' lectures from the back of the room . . . the cook who invented recipes and threw together his limited ingredients with the same spontaneity, sense of proportion, and fascination that underscored his paintings . . . Wassily Kandinsky, the Russian-born pioneer of abstract painting, guarding a secret tragedy one could never have guessed from his lively paintings, in which he used bold colors not just for their visual vibrancy, but for their "sound" effects . . . Josef Albers, who entered the Bauhaus as a student in 1920 and was one of the seven remaining faculty members when the school was closed by the Gestapo in 1933 . . . Annelise Else Frieda Fleischmann, a Berlin heiress, an intrepid young woman, who later, as Anni Albers, made art the focal point of her existence . . . Ludwig Mies van der Rohe, imperious, decisive, often harsh, an architect who became director—the last—of the Bauhaus, and the person who guided

the school's final days after SS storm troopers raided the premises. Weber captures the life, spirit, and flair with which these geniuses lived, as well as their consuming goal of making art and architecture. A portrait infused with their fulsome embrace of life, their gift for laughter, and the powerful force of their individual artistic personalities.

How to Be a Fascist - Michela Murgia
2020-08-04

The first and only guide to turning your 21st century democracy into a fascist paradise. Democracy is difficult, flawed and unstable. It involves barely distinguishable political parties taking part in lengthy, overcomplicated and expensive decision-making processes. Trying to engage so many people with political issues seems to lead only to complexity and disagreement. So why bother? Doesn't fascism guarantee a more effective and efficient management of the state? In this short, biting ironic mixture of *On Tyranny* and *The Psychopath Test*, Italian political activist Michela

Murgia explores the logic that is attracting increasing numbers of voters to right-wing populism. Far from its origins in the 20th century, fascism is once again on the rise in an age of increased connectivity and globalism. Murgia shows how many of the elements of our society that we might think would combat closed-mindedness and xenophobia actually fan the flames. Closing with a "fascistometer" to measure the reader's own authoritarian inclinations, *How to be a Fascist* is a refreshingly direct, polemical book that asks us to confront the fascism in our governments, in our societies, and in our own political leanings. *The Architecture of Pica Ciamarra Associati* - Antonietta Iolanda Lima 2019-04 Since 1970, based in an isolated building situated on the peninsula of Posillipo, Pica Ciamarra Associati (www.pcaint.eu) has acted as a laboratory of architectural and urban design which has gradually incorporated new members and new energies over the time: using a

multidisciplinary approach, the roots of the architectural practice lie in the intensive theoretical and practical work begun in the early 1960s by Massimo Pica Ciamarra. Since then the practice has been marked by a continuous relationship with Le Carré Bleu Feuille internationale d'architecture and leading members of the cultural milieu of Team 10: this has led to constant attention to everything that lies beyond form, to the relationship with contexts that also include non-spatial contexts, and to high levels of integration and dialectical discussion. According to Pica Ciamarra Associati, a design transcends the approaches of a single sector, providing simultaneous solutions to contradictory requirements, combining utopia and practicality. The poetics of the fragment: it mediates between architecture and the urban dimension; some designs also have the aim of becoming absorbed within a context as 'informed fragments'. This monograph is the result of an intensive period of work and consists

of two interacting parts. It stems from research into the archive of the studio Pica Ciamarra and conversation with the members of the architectural practice. Organised diachronically, the book tells the long story, unfolding over a period of over fifty years of a team of Neapolitan architects and designers, who have maintained the lively spirit of the practice which is still geared towards the future. The textual and iconographic account tells a story and offers an interpretation that highlight the vibrant atmosphere of the studio, based on a consistency of thought and action, and fuelled by an interest in many different forms of knowledge. The contextualisation of the events related to the studio, as they unfolded over time, is wide-ranging, coherent and connotative. Antonietta Iolanda Lima, professor of history of architecture at the University of Palermo, has always tried, through theory, teaching and design, to disseminate the importance of history which can embracing innovation and tradition to

an equal degree, forming a new architectural language. According to her view of architecture, history and design are closely connected, a 'single entity' as is reflected by her career. Since the 1980s, her academic work has gained increasing importance, a way of avoiding narrow sectoral approaches in the training of future architects, offering a holistic stance of the history of architecture and an architecture that contributes to shaping critical thought and a thriving cultural life.

The Leopard Boy - Daniel Picouly 2016-01-11
October 15, 1793: the eve of Marie-Antoinette's execution. The Reign of Terror has descended upon revolutionary France, and thousands are beheaded daily under the guillotine. Edmond Coffin and Jonathan Gravedigger, two former soldiers now employed in disposing of the dead,

are hired to search the Parisian neighborhood of Haarlem for a mysterious mixed-race "leopard boy," whose nickname derives from his mottled black-and-white skin. Some would like to see the elusive leopard boy dead, while others wish to save him. Why so much interest in this child? He is rumored to be the son of Marie-Antoinette and a man of color--the Chevalier de Saint-George, perhaps, or possibly Zamor, the slave of Madame du Barry, mistress of Louis XV. This wildly imaginative and culturally resonant tale by Daniel Picouly audaciously places black and mixed-race characters--including King Mac, creator of the first hamburger, who hands out figures of Voltaire and Rousseau with his happy meals, and the megalomaniac Black Delorme, creator of a slavery theme park--at the forefront of its Revolution-era story. Winner of the Prix Renaudot, one of France's most prestigious literary awards, this book envisions a "Black France" two hundred years before the term came to describe a nation transformed through

Aesthetics of the Virtual - Roberto Diodato

2012-11-15

Reconfigures classic aesthetic concepts in relation to the novelty introduced by virtual bodies. Arguing that the virtual body is something new—namely, an entity that from an ontological perspective has only recently entered the world—Roberto Diodato considers the implications of this kind of body for aesthetics. Virtual bodies insert themselves into the space opened up by the famous distinction in Aristotle's *Physics* between natural and artificial beings—they are both. They are beings that are simultaneously events; they are images that are at once internal and external; they are ontological hybrids that exist only in the interaction between logical-computational text

and human bodies endowed with technological prostheses. Pursuing this line of thought, Diodato reconfigures classic aesthetic concepts such as mimesis, representation, the relation between illusion and reality, the nature of images and imagination, and the theory of sensory knowledge. Roberto Diodato is Associate Professor of Aesthetics at the Catholic University of the Sacred Heart in Milan, Italy. Justin L. Harmon is a teaching assistant in the Philosophy Department at the University of Kentucky. Silvia Benso is Professor of Philosophy at the Rochester Institute of Technology.

addressing this question, the authors connect contemporary penological thought with an enquiry that has received the attention of some of the greatest thinkers on punishment in the past. Through critical exploration of the theories, policies and practices of imprisonment, the authors analyse why prison persists and why prisoner populations are rapidly rising in many countries. Collectively, the chapters provide not only a sophisticated diagnosis and critique of global hyper-incarceration but also suggest principles and strategies that could be adopted to radically reduce our reliance upon imprisonment.

In difesa dell'egoismo - Barbara Di Salvo
2015-04-07T00:00:00+02:00

Questo è un elogio dell'egoismo. Perché squarcia il velo di ipocrisia che impedisce di apprezzare il motore che ha aumentato il benessere della civiltà, che senza egoismo non sarebbe nata e non potrebbe sopravvivere. Perché, osservando quali interessi determinano i comportamenti, emerge che il contrario di egoismo non è altruismo, ma autolesionismo. Perché, se in una società il risultato per il singolo non è superiore a quello che avrebbe ottenuto da solo, o si ha uno sfruttamento ingiustificato delle risorse altrui oppure la società è in perdita e non ha nessuna ragione di esistere. Perché l'altruismo è il prodotto dell'egoismo e dell'intelligenza. Perché ognuno sia fiero e libero di essere egoista, consapevole che solo così potrà essere felice perché utile a se stesso e agli altri.
