Remediation - Jay David Bolter 1999

A new framework for considering how all media constantly borrow from and refashion other media. Media critics remain captivated by the modernist myth of the new: they assume that digital technologies such as the World Wide Web, virtual reality, and computer graphics must divorce themselves from earlier media for a new set of aesthetic and cultural principles. In this richly illustrated study, Jay David Bolter and Richard Grusin offer a theory of mediation for our digital age that challenges this assumption. They argue that new visual media achieve their cultural significance precisely by paying homage to, rivaling, and refashioning such earlier media as perspective painting, photography, film, and television. They call this process of refashioning "remediation," and they note that earlier media have also refashioned one another: photography remediated painting, film remediated stage production and photography, and television remediated film, vaudeville, and radio.

Telecinematic Discourse - Roberta Piazza 2011-07-20

This cutting-edge collection of articles provides the first organised reflection on the language of films and television series across British, American and Italian cultures. The volume suggests new directions for research and applications, and offers a variety of methodologies and perspectives on the complexities of "telecinematic" discourse - a hitherto virtually unexplored area of investigation in linguistics. The papers share a common vision of the big and small screen: the belief that the discourses of film and television offer a re-presentation of our world. As such, telecinematic texts reorganise and recreate language (together with time and space) in their own way and with respect to specific socio-cultural conventions and media logic. The volume provides a multifaceted, yet coherent insight into the diegetic - as it revolves around narrative - as opposed to mimetic - as referring to other non-narrative and non-fictional genres - discourses of fictional media. The collection will be of interest to researchers, tutors and students in pragmatics, stylistics, discourse analysis, corpus linguistics, communication studies and related fields.

Audiovisual Translation - Luis Perez-Gonzalez 2014-08-27

Audiovisual translation is the fastest growing strand within translation studies. This book addresses the need for more robust theoretical frameworks to investigate emerging text- types, address new methodological challenges (including the compilation, analysis and reproduction of audiovisual data), and understand new discourse communities bound together by the production and consumption of audiovisual texts. In this clear, user- friendly book, Luis Pérez-González introduces and explores the field, presenting and critiquing key concepts, research models and methodological approaches. Features include: • introductory overviews at the beginning of each chapter, outlining aims and relevant connections with other chapters • breakout boxes showcasing key concepts, research case studies or other relevant links to the wider field of translation studies • examples of audiovisual texts in a range of languages with back translation support when required • summaries reinforcing key issues dealt with in each chapter • follow- up questions for further study • core references and suggestions for further reading. • additional online resources on an extensive companion website This will be an essential text for all students studying audiovisual or screen translation at postgraduate or advanced undergraduate level and key reading for all researchers working in the area.

Between Text and Image - Delia Chiaro 2008

"This book sets out to establish the state of the art of screen translation and at the same time to underscore the work of scholars following new paths of investigation both in terms of innovative linguistic mediations being examined and pioneering experimental design." "The volume includes descriptions of sophisticated electronic databases and corpora of audiovisual products for the big and small screen, and the rationale behind them. Furthermore, *Between Text and Image* also includes a number of cutting edge studies in audience perception of audiovisual products." "Finally, the volume does not fail to ignore examples of original research carried out from both a traditional linguistic viewpoint and from a more cultural perspective."--P. [4] de la couv.

Post-War Italian Cinema - Daniela Treveri Gennari 2011-02-23

Through a comparative approach of current theories developed on ideology and an analysis of official documents from the Vatican and the United States Department of State, the book investigates the decisive role that American production companies played in the development of the Italian film industry and their links to the Vatican. This analysis evaluates how the Italian production and distribution industries satisfied the American political and economic interests. American political and cultural ideology of the post-1945 era, is compared with the Roman Catholic ideology in order to assess their cultural propaganda. This is followed by studies of the roles played by key individuals, such as Giulio Andreotti, and institutions such as ANICA and A.G.I.S. involved in formulating the policies and regulations that affected the production and distribution of American and Italian films in the post-1945 era, as well as the involvement of the Roman Catholic Church in this process.

Language and Woman's Place - Robin Tolmach Lakoff 2004-07-22

The 1975 publication of Robin Tolmach Lakoff's *Language and Woman's Place*, is widely recognized as having inaugurated feminist research on the relationship between language and gender, touching off a remarkable response among language scholars, feminists, and general readers. For the past thirty years, scholars of language and gender have been debating and developing Lakoff's initial observations. Arguing that language is fundamental to gender inequality, Lakoff pointed to two areas in which inequalities can be found: Language used about women, such as the asymmetries between seemingly parallel terms like master and mistress, and language used by women, which places women in a double bind between being appropriately feminine and being fully human. Lakoff's central argument that "women's language" expresses powerlessness triggered a controversy that continues to this day. The revised and expanded edition presents the full text of the original first edition, along with an introduction and annotations by Lakoff in which she reflects on the text a quarter century later and expands on some of the most widely discussed issues it raises. The volume also brings together commentaries from twenty-six leading scholars of language, gender, and sexuality, within linguistics, anthropology, modern languages, education, information sciences, and other disciplines. The commentaries discuss the book's contribution to feminist research on language and explore its ongoing relevance for scholarship in the field. This new edition of *Language and Woman's Place* not only makes available once again the pioneering text of feminist linguistics; just as important, it places the text in the context of contemporary feminist and gender theory for a new generation of readers.

Film Dialogue - Jeff Jaeckle 2013-07-09

Film Dialogue is the first anthology in film studies devoted to the topic of language in cinema, bringing together leading and emerging scholars to discuss the aesthetic, narrative, and ideological dimensions of film speech that have largely gone unappreciated and unheard. Consisting of thirteen essays divided into three sections: genre, auteur theory, and cultural representation, *Film Dialogue* revisits and reconfigures several of the most established topics in film studies in an effort to persuade readers that "spectators" are more accurately described as "audiences," that the gaze has its equal in eavesdropping, and that images are best understood and appreciated through their interactions with words. Including an introduction that outlines a methodology of film dialogue study and adopting an accessible prose style throughout, *Film Dialogue*

is a welcome addition to ongoing debates about the place, value, and purpose of language in cinema.

Homosexuality and Italian Cinema - Mauro Giori 2017-11-18

This book is the first to establish the relevance of same-sex desires, pleasures and anxieties in the cinema of post-war Italy. It explores cinematic representations of homosexuality and their significance in a wider cultural struggle in Italy involving society, cinema, and sexuality between the 1940s and 1970s. Besides tracing the evolution of representations through both art and popular films, this book also analyses connections with consumer culture, film criticism and politics. Giori uncovers how complicated negotiations between challenges to and valorization of dominant forms of knowledge of homosexuality shaped representations and argues that they were not always the outcome of hatred but also sought to convey unmentionable pleasures and complicities. Through archival research and a survey of more than 600 films, the author enriches our understanding of thirty years of Italian film and cultural history.

Orson Welles's Last Movie - Josh Karp 2015-04-21

In the summer of 1970 legendary but self-destructive director Orson Welles returned to Hollywood from years of self-imposed exile in Europe and decided it was time to make a comeback movie. Coincidentally it was the story of a legendary self-destructive director who returns to Hollywood from years of self-imposed exile in Europe. Welles swore it wasn't autobiographical. *The Other Side of the Wind* was supposed to take place during a single day, and Welles planned to shoot it in eight weeks. It took twelve years and remains unreleased and largely unseen. *Orson Welles' Last Movie* by Josh Karp is a fast-paced, behind-the-scenes account of the bizarre, hilarious and remarkable making of what has been called "the greatest home movie that no one has ever seen." Funded by the Shah of Iran's brother-in-law, and based on a script that Welles rewrote every night for years, a final attempt to one-up his own best-work. It's almost impossible to tell if art is imitating life or vice versa in the film. It's a production best encompassed by its star, John Huston, who described the making of the film as "an adventure shared by desperate men that finally came to nothing."

L'italiano tra parola e immagine: graffiti, illustrazioni, fumetti -

Claudio Ciociola 2020-10-15

Codice verbale e codice figurativo sono distinti, ma spesso anche complementari. Parlare di graffiti, illustrazioni e fumetti in rapporto all'italiano è un modo per ripercorrere l'intera storia linguistica nazionale, aperta dal graffito della catacomba di Commodilla a Roma, uno dei più antichi testi in volgare dell'intero mondo romano. I saggi che aprono e chiudono il volume sono dedicati alle "scritture esposte" del presente e del passato, affidate non al libro cartaceo, ma ad altri materiali, per una lettura in spazi aperti, spesso pubblici. Si va dall'antico e noto esempio pittorico di una basilica romana a un bassorilievo trecentesco napoletano; da varie scritte umbre medievali e moderne al "visibile parlare" della grande pittura toscana tre-quattrocentesca, che ha in Dante un imprescindibile punto di riferimento; dalle scritte medievali destinate a usi religiosi o magici agli ex voto popolari dei secoli XVI-XIX, fino a forme contemporanee di scritte di carattere effimero, come gli striscioni di protesta, quelli esposti negli stadi, i graffiti metropolitani. Le illustrazioni sono qui rappresentate dai manoscritti di Leonardo, dalle immagini con cui Manzoni corredo l'edizione definitiva dei *Promessi sposi*, dalle figure contenute in un fascicoletto del 1919, che costituisce una parodia del *Vocabolario della Crusca*. L'Accademia è presente anche con le sue famose "pale", contenenti un'immagine, lo pseudonimo dell'accademico e un motto, chiave di lettura dell'immagine e del nome. Quanto ai fumetti, tre saggi documentano come vignettisti, "fumettari" e giornalisti italiani abbiano saputo declinare questa particolare tipologia di immagini a stampa in nuovi generi testuali, che coniugano testo e figura nelle forme più varie. L'Accademia della Crusca è uno dei principali e più antichi punti di riferimento per le ricerche sulla lingua italiana e la sua promozione nel mondo. Sostiene l'attività scientifica e la formazione di ricercatori nel campo della lessicografia e della linguistica; diffonde la conoscenza storica della lingua e la coscienza critica della sua evoluzione; collabora con le istituzioni nazionali ed estere per il plurilinguismo.

Heretical Empiricism - Pier Paolo Pasolini 2005

This is an expanded edition of Pier Paolo Pasolini's long out-of-print *Heretical Empiricism*. It includes a new Introduction by Ben Lawton that discusses the relevance of the book on the 30th anniversary of the author's death. It also features the first approved translation of "Repu-

diation of the 'Trilogy of Life', one of Pasolini's most controversial final essays. While Pasolini is best known in the U.S. as a revolutionary film director, in Italy he was even better known as poet, novelist, playwright, political gadfly, and scholar of the semiotics of film. "New Academic Publishing should be commended for making this expanded version of Pier Paolo Pasolini's *Hermetic Empiricism* once again available to the English-speaking public, especially in the light of the fact that the important essay, "Repudiation of the Trilogy of Life," has been added to its contents. Thirty years after Pasolini's violent death on 2 November 1975, the appearance of this excellent translation and edition of his major writings on Italian film, literature, and language is most welcome. No figure has emerged in Italy since the writer/director's death that has aroused such passionate opinions from all sides of the political and cultural spectrum. The translations by Ben Lawton and Louise Barnett render Pasolini's sometimes complex prose accurately with ample explanatory notes to guide the reader without a firm grasp of the original essays in Italian. This book represents an important work to have in every library devoted to cultural criticism, cinema, and literary theory." -- Peter Bondanella, Distinguished Professor of Comparative Literature and Italian, Indiana University "One of the greatest cultural figures of postwar Europe, Pier Paolo Pasolini (1922-1975), who is already widely known as a revolutionary filmmaker, was an equally important writer and poet. Pasolini's numerous works are published in some 50 volumes, which include poetry, novels, critical and theoretical essays, verse tragedies, screenplays, political journalism, and translations. With this successful and complete translation of *Empirismo eretico* (a collection of Pasolini's interventions on language, literature, and film written between 1964 and 1971), editors Barnett and Lawton have made a wide sample of Pasolini's most significant theoretical work available to the English-speaking reader. Essays on the screenplay, on the commercial and the art cinema, and on film semiotics make the collection of special interest to American film scholars and students. This volume is further enriched by an excellent introduction, carefully edited notes, a useful biographical glossary, and a thorough index. Given the contemporary interest in studying film, together with other cultural forms, within a broad social and historical context, Pasolini's "extravagantly interdisciplinary" writings beckon as a promising source of insight. A potentially seminal text that could contribute to the further evolution of interdisciplinary humanistic studies, *Heretical Empiricism* is highly recommended for university and college libraries." -- J. Welle, University of Notre Dame, CHOICE (1989)

Audiovisual Translation: Subtitling - Jorge Díaz-Cintas 2014-06-03
 "Audiovisual Translation: Subtitling" is an introductory textbook which provides a solid overview of the world of subtitling. Based on sound research and first-hand experience in the field, the book focuses on generally accepted practice but identifies current points of contention, takes regional and medium-bound variants into consideration, and traces new developments that may have an influence on the evolution of the profession. The individual chapters cover the rules of good subtitling practice, the linguistic and semiotic dimensions of subtitling, the professional environment, technical considerations, and key concepts and conventions, providing access to the core skills and knowledge needed to subtitle for television, cinema and DVD. Also included are graded exercises covering core skills. "Audiovisual Translation: Subtitling" can be used by teachers and students as a coursebook for the classroom or for self-learning. It is also aimed at translators and other language professionals wishing to expand their sphere of activity. While the working language of the book is English, an accompanying DVD contains sample film material in Dutch, English, French, Italian and Spanish, as well as a range of dialogue lists and a key to some of the exercises. The DVD also includes WinCAPS, SysMedia's professional subtitling preparation software package, used for broadcast television around the world and for many of the latest multinational DVD releases of major Hollywood projects.

Towards a Methodology for the Investigation of Norms in Audiovisual Translation - Fotios Karamitroglou 2000

Here is presented for the first time a methodology for the investigation of norms which operate in the field of audiovisual translation. Based on the findings of the polysystem approach to translation, the present work aims to demonstrate that it is possible to investigate audiovisual translation and the norms that operate in it in a systematic way. Human agents, (audiovisual) products, recipients, and the mode itself are thoroughly investigated and stratified under a lower, middle and upper

level. Specific techniques for collecting and analysing data are suggested. The model is tentatively applied to the investigation of norms which seem to determine the choice between subtitling and revoicing children's TV programmes in Greece. However, one will soon notice that the same model could be applied for the investigation of audiovisual translation norms in any other country. But not only that: one will quickly realise that, with minute modifications, the same model can prove effective for the study of norms in other modes of written translation too. Therefore, this volume can be of a high interest not only to audiovisual translation scholars and practitioners, but to general translation scholars and students of translation proper as well.

Translating Humour in Audiovisual Texts - Gian Luigi De Rosa 2014-12-11

Humour found in audiovisual products is, of course, performative in nature. If we consider instances of humour - any droll moment occurring in today's fare of mixed-genre products as a composite of cognition, emotion, interaction and expression - we see that the verbal code becomes just one component of four equally significant elements. And, as 'expression' is not limited to verbal output alone, humour may of course be created in absence of a verbal code. Translating humour for audiovisuals is not too different from translating verbal humour tout court. What makes humour occurring within audiovisual texts more problematic is the fact that it may be visually anchored; in other words a gag or a joke may pivot on verbal content directed at a specific element that is present within the graphic system of the same text. As the term itself suggests, audiovisuals contain two overlying structures: a visual and an auditory channel each of which contain a series of both verbal and non-verbal elements which inextricably cross-cut one another. The contributors in this collection of essays present a series of case studies from films and video-games exemplifying problems and solutions to audiovisual humour in the dubs and subs in a variety of language combinations.

Nature Embodied - Anthony Corbeill 2018-06-05

Bodily gesture. A Roman worshipper spins in a circle in front of a temple. Faced with death, a Roman woman tears her hair and beats her breasts. Enthusiastic spectators at a gladiatorial event gesticulate with thumbs. Examining the tantalizing glimpses of ancient bodies offered by surviving Roman sculptures, paintings, and literary texts, Anthony Corbeill analyzes the role of gesture in medical and religious ritual, in the gladiatorial arena, in mourning practice, in aristocratic competition of the late Republic, and in the court of the emperor Tiberius. Adopting approaches from anthropology, gender studies, and ecological theory, *Nature Embodied* offers both a series of case studies and an overarching narrative of the role and meanings of gesture in ancient Rome. Arguing that bodily movement grew out of the relationship between Romans and their natural, social, and spiritual environment, the book explores the ways in which an originally harmonious relationship between nature and the body was manipulated as Rome became socially and politically complex. By the time that Tacitus was writing about the reign of Tiberius, the emergence of a new political order had prompted an increasingly inscrutable equation between truth and the body--and something vital in the once harmonizing relationship between bodies and the world beyond them had been lost. *Nature Embodied* makes an important contribution to an expanding field of research by offering a new theoretical model for the study of gesture in classical times.
