*Managing Multiple Sclerosis Naturally* - Judy Graham 2010-06-24

A totally revised and updated edition of the first book to offer a holistic approach to slowing the progression of MS • Provides guidance on special diets and nutritional supplements, exercise, alternative therapies, and the effects of negative and positive thoughts on MS • Explains how to reduce toxic overload from mercury and chemicals • Includes life wisdom and coping strategies from others who suffer with MS Judy Graham is an inspiration. Diagnosed with multiple sclerosis when she was just 26 years old, 35 years later Judy Graham is still walking, working, and has successfully birthed and raised a son who is now an adult. In this totally revised and updated edition of her groundbreaking Multiple Sclerosis, first published in 1984, she shares the natural treatments that have helped her and many others with MS stabilize or even reverse the condition. Beginning with the effects of diet, she explains that many people with MS have been eating the wrong foods and shows which foods are “good” and “bad,” how to recognize food sensitivities, and how to correct nutritional deficiencies using dietary supplements. She also looks at reducing the body’s toxic overload, whether from mercury amalgam fillings, chemicals, or medications. She presents the exercises with proven benefits for MS she has found most reliable and appropriate, such as yoga, pilates, and t’ai chi, and explores alternative therapies that provide relief and support to the body’s efforts to control MS, including acupuncture, reflexology, shiatsu, reiki, and ayurveda. Most important are the insights she provides on the effects of negative thoughts on MS. She demonstrates how a positive mental attitude can actually slow down or even reverse the progression of this disease. Judy Graham is living proof that, as devastating as a diagnosis of MS is, life can still be lived to its fullest.

### **Overcoming Multiple Sclerosis** - George Jelinek 2016-07-01

### *Salt is Essential* - Shaun Hill 2018-08-23

Food needs salt. The quantity is a matter of personal taste but some presence is essential and little is more disappointing from the eating perspective than a plate of food that looks fabulous and tastes of very little. It shows the cook's priorities are all wrong, that too much television cookery has been watched and not enough tasting and enjoyment indulged in.' So says Shaun Hill, who in this engaging exploration of his 50 years as a chef, brings his wealth of experience to the table, sharing what he has learnt so that the home cook can create truly remarkable dishes. Never one to shy away from controversy, he covers everything from why local and seasonal are not necessarily indicators of quality, to why soy beans are best left for cattle feed and Budapest is paradise for the greedy. The recipes range from Warm Rock Oysters with Spring Onion Butter Sauce to Pork in Shirtsleeves and Buttermilk Pudding with Cardamom. And although his commentary is undeniably witty, it's Shaun's knowledge and expert guidance that makes this book an invaluable tome for anyone who takes their food (but not themselves) seriously. 'This is a book you need to own; a lifetime's hard work in the kitchen distilled into sensible brevity. Shaun is a friend and a great cook.'

**500 Low-Carb Recipes** - Dana Carpender 2002-10-01

Low-fat or low-carb? A recent New York Times Magazine (July 7, 2002) cover story answered this question and said that Dr. Atkins was right all along, "its not fat that makes us fat but carbohydrates." Though the government has spent hundreds of millions of dollars in research trying to prove that fat is the cause of obesity, there has been a subtle shift in the scientific consensus over the past five years supporting what the low-carb diet doctors have been saying all along: if we eat less carbohydrates, we will lose weight and live longer. One of the toughest challenges of any diet is having enough variety and choices to keep the dieter from losing interest. The most common reason that people abandon their diet is boredom but 500 LOW CARB RECIPES: 500 Recipes, From Snacks to Dessert, That the Whole Family Will Love by Dana Carpender has more than enough recipes to keep even the most finicky dieter on track. Ideas for breaking out of old ways of looking at food with suggestions that save time and money and change what is considered a normal meal for breakfast, lunch and dinner. Information about where to find low-carbohydrate specialty products and descriptions of low-carb specialty foods found in grocery stores everywhere. An entire chapter that lists and describes low-carb substitute ingredients such as fats and oils, flour substitutes, liquids, seasonings and sweeteners. Dieters will be pleased to know that they can eat foods like guacamole, omelets, pizza, steak, ham and dessert without giving up great taste and still lose weight. There are enough recipes to create the

perfect menu for any holiday of the year--including Thanksgiving. Each of the 500 recipes includes a carbohydrate count to help calculate the total carb intake of each menu. There are more recipes for main dishes and side dishes than most low-carb dieters will ever be able to eat--everything from down-home cooking to ethnic fare; from quick-and-easy weeknight meals to knock-their-socks off party food. 500 LOW CARB RECIPES is the last cookbook any dieter will ever need to buy and certain to be used until the binding is worn out!

[Cheese & Dairy](#) - Steven Lamb 2018-03-22

Nothing beats a really good cheese. These days you can buy great dairy products locally, made using high-quality ingredients and with a unique flavour of their own. The next step is to try your hand at making yoghurt, labneh, mozzarella and even delicious matured cheeses yourself. The River Cottage ethos is all about knowing the whole story behind what you put on the table; and as Steven Lamb explains in this thorough, accessible guide, the key ingredient is milk. He shows you exactly what to do to take it from its liquid form to a wide range of dairy products, from clotted cream to a washed-rind cheese. There are also plenty of gorgeous recipes that make the most of cheese and other dairy goods – as you'd hope, they involve such pleasures as dunking carbs into a pot of melty cheese; biting down on a delicate cheese wafer; or whipping up the best ever cheesecake. With an introduction by Hugh Fearnley-Whittingstall and plenty of helpful photographs, this book is the indispensable guide to crafting and enjoying cheese and other dairy products.

*Lateral Cooking* - Niki Segnit 2019-11-05

A groundbreaking handbook--the "method" companion to its critically acclaimed predecessor, *The Flavor Thesaurus*--with a foreword by Yotam Ottolenghi. Niki Segnit used to follow recipes to the letter, even when

she'd made a dish a dozen times. But as she tested the combinations that informed *The Flavor Thesaurus*, she detected the basic rubrics that underpinned most recipes. *Lateral Cooking* offers these formulas, which, once readers are familiar with them, will prove infinitely adaptable. The book is divided into twelve chapters, each covering a basic culinary category, such as "Bread," "Stock, Soup & Stew," or "Sauce." The recipes in each chapter are arranged on a continuum, passing from one to another with just a tweak or two to the method or ingredients. Once you've got the hang of flatbreads, for instance, then its neighboring dishes (crackers, soda bread, scones) will involve the easiest and most intuitive adjustments. The result is greater creativity in the kitchen: *Lateral Cooking* encourages improvisation, resourcefulness, and, ultimately, the knowledge and confidence to cook by heart. *Lateral Cooking* is a practical book, but, like *The Flavor Thesaurus*, it's also a highly enjoyable read, drawing widely on culinary science, history, ideas from professional kitchens, observations by renowned food writers, and Segnit's personal recollections. Entertaining, opinionated, and inspirational, with a handsome three-color design, *Lateral Cooking* will have you torn between donning your apron and settling back in a comfortable chair.
