Probable Truth - Vincent Gillespie 2013

Editing as an academic mode of work has had a variable 'press' - it is often seen as just plumbing. But without editions no historian of whatever critical persuasion could operate. Texts that are not edited are effectively invisible. The advent of electronic means of text production has also raised new possibilities and new problems that need to be openly considered rather than ignored. The papers in this volume reflect those concerns, and explore the ways

forward. How do the best editorial procedures of the past get transmitted to the future? A distinguished line-up of experienced editors and younger scholars actively grappling with these issues reflect on their engagement with the challenges of textual theory and editorial practice. No single solution emerges as applicable to all texts and for all editions; the individual characteristics of each text and its transmission, together with the intended audience of each edition, emerge as primary areas for consideration.

Homosexuality and Italian Cinema - Mauro Giori 2017-11-18

This book is the first to establish the relevance of same-sex desires, pleasures and anxieties in the cinema of post-war Italy. It explores cinematic representations of homosexuality and their significance in a wider cultural struggle in Italy involving society, cinema, and sexuality between the 1940s and 1970s. Besides tracing the evolution of representations through both art

and popular films, this book also analyses connections with consumer culture, film criticism and politics. Giori uncovers how complicated negotiations between challenges to and valorization of dominant forms of knowledge of homosexuality shaped representations and argues that they were not always the outcome of hatred but also sought to convey unmentionable pleasures and complicities. Through archival research and a survey of more than 600 films, the author enriches our understanding of thirty years of Italian film and cultural history.

The Female Voice in the Twentieth Century -
Serena Facci 2021-03-02

By integrating theoretical approaches to the female voice with the musicological investigation of female singers' practices, the contributors to this volume offer fresh viewpoints on the material, symbolic and cultural aspects of the female voice in the twentieth century. Various styles and genres are covered, including Western art music, experimental composition,

popular music, urban folk and jazz. The volume offers a substantial and innovative appraisal of the role of the female voice from the perspective of twentieth-century performance practices, the centrality of female singers' experimentations and extended vocal techniques along with the process of the 'subjectivisation' of the voice.

Introduzione alla regia teatrale. Una grammatica dell'allestimento scenico ad uso di registi in formazione - Simona Gonella 2016

The Political Theatre - Erwin Piscator 1980

'The Political Theatre' is among the most important documents of the modern stage. It tells of the foundation and flowering in Weimar Germany of a new form of theatre - epic theatre - designed to bring on to the stage the real political issues of the time, and to do so with all the aids that modern technology could supply.

Candelaio - Giordano Bruno 2016-09-21

Nella commedia, dove Bruno definisce se stesso un «accademico di nulla accademia», è mostrato un mondo assurdo, violento e corrotto,

rappresentato con amara comicità, dove gli eventi si succedono in una trasformazione continua e vivace. Lo stesso apparato introduttivo ai cinque atti in cui la commedia è suddivisa risulta inconsueto e articolato, ponendosi in contrasto con i canoni della commedia tradizionale rinascimentale: alla poesia iniziale indirizzata ai poeti e a una dedica alla signora Morgana B. (probabilmente una conoscente di Bruno), seguono un "argomento", dove Bruno riassume la trama; un "antiprologo", dove l'autore capovolgendo subito quanto proposto in precedenza, ironizza sulla possibilità stessa di rappresentare realmente questa commedia; un "proprologo", dove egli polemizza contro le ideologie false, e un "bidello", che finalmente licenzia la commedia.

The Shifting Point, 1946-1987 - Peter Brook 1994

Originally published: New York: Harper & Row, 1987.

La Rondine - Giacomo Puccini 1987

Puccini's non-operatic songs, *Arie da camera e da chiesa* for voice and piano, have never before been collected--many until now have never been published. They cover the entire span of the composer's life: the earliest was written when Puccini was in his teens, the latest when the composer was in his sixties. Working from musical manuscripts, letters, documents, and other sources, Michael Kaye shows Puccini--whose music is the mainstay of every opera house in the world--in a new light. The words and music of fifteen songs, including little-known music from the operas *Edgar* and *La Rondine*, are provided. More than a dozen fascinating--some rare--photographs give an extra dimension to the book. About the Author Michael Kaye received his M.M. in opera from the New England Conservatory. He has served on the artistic staffs of opera companies in Boston, Chicago, Cologne, San Francisco and New York.

Adrienne Lecouvreur - Eugène Scribe 1866

Dario Fo - Joseph Farrell 2000

Joseph Farrell and Antonio Scuderi present an international collection of essays reevaluating the multifaceted performance art of Nobel laureate Dario Fo. The contributors, all of whom either have previously published on Fo or have worked with him, are the major Dario Fo scholars of three continents. Going beyond the Marxist criticism of the 1970s and 1980s, the editors and contributors try to establish an appropriate language in which to debate Fo's theater. They seek to identify the core of Fo's work, the material that will be of lasting value. This involves locating Fo in history, examining the nature of his development through successive phases, incorporating his politics into a wider framework of radical dissent, and setting his theatrical achievements in a context and a tradition. The essays cover every aspect of Dario Fo: as actor, playwright, performer, and songwriter. They also provide the historical background of Fo's theater, as well as an in-

depth analyses of specific works and the contribution of Franca Rame.

Postdramatic Theatre - Hans-Thies Lehmann
2006-09-27

Newly adapted for the Anglophone reader, this is an excellent translation of Hans-Thies Lehmann's groundbreaking study of the new theatre forms that have developed since the late 1960s, which has become a key reference point in international discussions of contemporary theatre. In looking at the developments since the late 1960s, Lehmann considers them in relation to dramatic theory and theatre history, as an inventive response to the emergence of new technologies, and as an historical shift from a text-based culture to a new media age of image and sound. Engaging with theoreticians of 'drama' from Aristotle and Brecht, to Barthes and Schechner, the book analyzes the work of recent experimental theatre practitioners such as Robert Wilson, Tadeusz Kantor, Heiner Müller, the Wooster Group, Needcompany and

Societas Raffaello Sanzio. Illustrated by a wealth of practical examples, and with an introduction by Karen Jürs-Munby providing useful theoretical and artistic contexts for the book, *Postdramatic Theatre* is an historical survey expertly combined with a unique theoretical approach which guides the reader through this new theatre landscape.

The Dream of a Spring Morning - Gabriele D'Annunzio 1902

Performance and Popular Music - Ian Inglis
2017-07-05

Since the emergence of rock'n'roll in the early 1950s, there have been a number of live musical

performances that were not only memorable in themselves, but became hugely influential in the way they shaped the subsequent trajectory and development of popular music. Each, in its own way, introduced new styles, confronted existing practices, shifted accepted definitions, and provided templates for others to follow.

Performance and Popular Music explores these processes by focusing on some of the specific occasions when such transformations occurred. An international array of scholars reveal that it is through the (often disruptive) dynamics of performance - and the interaction between performer and audience - that patterns of musical change and innovation can best be recognised. Through multi-disciplinary analyses which consider the history, place and time of each event, the performances are located within their social and professional contexts, and their immediate and long-term musical consequences considered. From the Beatles and Bob Dylan to Michael Jackson and Madonna, from Woodstock

and Monterey to Altamont and Live Aid, this book provides an indispensable assessment of the importance of live performance in the practice of popular music, and an essential guide to some of the key moments in its history.

The Italian Academies 1525-1700 - Jane E. Everson 2016-04-14

The intellectual societies known as Academies played a vital role in the development of culture, and scholarly debate throughout Italy between 1525-1700. They were fundamental in establishing the intellectual networks later defined as the 'République des Lettres', and in the dissemination of ideas in early modern Europe, through print, manuscript, oral debate and performance. This volume surveys the social and cultural role of Academies, challenging received ideas and incorporating recent archival findings on individuals, networks and texts. Ranging over Academies in both major and smaller or peripheral centres, these collected studies explore the interrelationships of

Academies with other cultural forums. Individual essays examine the fluid nature of academies and their changing relationships to the political authorities; their role in the promotion of literature, the visual arts and theatre; and the diverse membership recorded for many academies, which included scientists, writers, printers, artists, political and religious thinkers, and, unusually, a number of talented women. Contributions by established international scholars together with studies by younger scholars active in this developing field of research map out new perspectives on the dynamic place of the Academies in early modern Italy. The publication results from the research collaboration 'The Italian Academies 1525-1700: the first intellectual networks of early modern Europe' funded by the Arts and Humanities Research Council and is edited by the senior investigators.

The Theatre of Societas Raffaello Sanzio - Joe Kelleher 2007-11-02

The Theatre of Societas Raffaello Sanzio chronicles four years in the life of an extraordinary Italian theatre company whose work is widely recognized as some of the most exciting theatre currently being made in Europe. In the first English-language book to document their work, company founders, Claudia Castellucci, Romeo Castellucci and Chiara Guidi, discuss their approach to theatre making with Joe Kelleher and Nicholas Ridout. At the centre of the book is a detailed exploration of the company's eleven episode cycle of tragic theatre, *Tragedia Endogonida* (2002-2004,) including: production notes and extensive correspondence giving insights into the creative process essays by and conversations with company members alongside critical responses by their two co-authors seventy-two photographs of the company's work. This is a significant collection of theoretical and practical reflections on the subject of theatre in the twenty-first century, and an indispensable written and visual

document of the company's work.

Treatise on Musical Objects - Pierre Schaeffer
2017-07-25

The Treatise on Musical Objects is regarded as Pierre Schaeffer's most important work on music and its relationship with technology. Schaeffer expands his earlier research in musique

concrète to suggest a methodology of working with sounds based on his experiences in radio broadcasting and the recording studio. Drawing on acoustics, physics, and physiology, but also on philosophy and the relationship between subject and object, Schaeffer's essay summarizes his theoretical and practical work in music composition. Translators Christine North and John Dack present an important book in the history of ideas in Europe that will resonate far beyond electroacoustic music.

Reminiscences of Rudolf Steiner - Andrei Bely
1987-06

Both because it is the gift of the Russian people to be able to describe another's soul-configuration in a particularly pictorial and

concrete way, and because each of these writers knew Rudolf Steiner and saw him frequently, their impressions are especially living and vivid. In these eminently readable reminiscences, Andrei Belyi, the foremost symbolist poet of Russia in the twentieth century, Assya Turgenieff, a niece of novelist Ivan Turgenieff, and Margarita Voloschin, wife of a Russian poet and a well-known painter in her own right, recount their personal observations and experiences with Rudolf Steiner. Beautifully illustrated by photographs as well as drawings and paintings by Turgenieff and Voloschin, this collection offers striking and surprising impressions of Rudolf Steiner.

Essays on Realism - Georg Lukacs 1983-01
Originally published in the 1930s, these essays on realism, expressionism, and modernism in literature present Lukacs's side of the controversy among Marxist writers and critics now known as the Lukacs-Brecht debate. The book also includes an exchange of letters

between Lukács, writing in exile in the Soviet Union, and the German Communist novelist, Anna Seghers, in which they discuss realism, the European literary heritage, and the situation of the artist in capitalist culture.

Obsolete Objects in the Literary

Imagination - Francesco Orlando 2008-10-01
Translated here into English for the first time is a monumental work of literary history and criticism comparable in scope and achievement to Eric Auerbach's *Mimesis*. Italian critic Francesco Orlando explores Western literature's obsession with outmoded and nonfunctional objects (ruins, obsolete machinery, broken things, trash, etc.). Combining the insights of psychoanalysis and literary-political history, Orlando traces this obsession to a turning point in history, at the end of eighteenth-century industrialization, when the functional becomes the dominant value of Western culture. Roaming through every genre and much of the history of Western literature, the author identifies distinct

categories into which obsolete images can be classified and provides myriad examples. The function of literature, he concludes, is to remind us of what we have lost and what we are losing as we rush toward the future.

Music after Hitler, 1945-1955 - Toby Thacker
2017-07-05

The political control of music in the Third Reich has been analysed from several perspectives, and with ever increasing sophistication. However, music in Germany after 1945 has not received anything like the same treatment. Rather, there is an assumption that two separate musical cultures emerged in East and West alongside the division of Germany into two states with differing economic and political systems. There is a widely accepted view of music in West Germany as 'free', and in the East subject to party control. Toby Thacker challenges these assumptions, asking how and why music was controlled in Germany under Allied Occupation from 1945-1949, and in the

early years of 'semi-sovereignty' between 1949 and 1955. The 're-education' of Germany after the Hitler years was a unique historical experiment and the place of music within this is explored here for the first time. While emphasizing political, economic and broader social structures that influenced the production and reception of different musical forms, the book is informed by a sense of human agency, and explores the role of salient individuals in the reconstruction of music in post-war Germany. The focus is not restricted to any one kind of music, but concentrates on those aspects of music, professional and amateur, live and recorded, which appeared to be the mostly highly charged politically to contemporaries. Particular attention is given to 'denazification' and to the introduction of international music. Thacker traces the development of a divide between Communist and liberal-democratic understandings of the place of music in society. The contested celebrations of the Bach Year in

1950 are used to highlight the role of music in the broader cultural confrontation between East and West. Thacker examines the ways in which central governments in East and West Germany sought to control and influence music through mechanisms of censorship and positive support. The book will therefore be of interest not only Merchant of Venice. As you like it - William Shakespeare 1785

Folktales of the Jews, V. 3 (Tales from Arab

Lands) - Dan Ben Amos 2011-05-01

Thanks to these generous donors for making the publication of the books in this series possible: Lloyd E. Cotsen; The Maurice Amado Foundation; National Endowment for the Humanities; and the National Foundation for Jewish Culture Tales from Arab Lands presents tales from North Africa, Yemen, Lebanon, Syria, and Iraq in the latest volume of the most important collection of Jewish folktales ever published. This is the third book in the multi-volume series in the tradition of Louis Ginzberg's timeless classic, *Legends of the Jews*. The tales here and the others in this series have been selected from the Israel Folktale Archives (IFA), named in Honor of Dov Noy, at The University of Haifa, a treasure house of Jewish lore that has remained largely unavailable to the entire world until now. Since the creation of the State of Israel, the IFA has collected more than 20,000 tales from newly arrived immigrants, long-lost stories shared by

their families from around the world. The tales come from the major ethno-linguistic communities of the Jewish world and are representative of a wide variety of subjects and motifs, especially rich in Jewish content and context. Each of the tales is accompanied by in-depth commentary that explains the tale's cultural, historical, and literary background and its similarity to other tales in the IFA collection, and extensive scholarly notes. There is also an introduction that describes the culture and its folk narrative tradition, a world map of the areas covered, illustrations, biographies of the collectors and narrators, tale type and motif indexes, a subject index, and a comprehensive bibliography. Until the establishment of the IFA, we had had only limited access to the wide range of Jewish folk narratives. Even in Israel, the gathering place of the most wide-ranging cross-section of world Jewry, these folktales have remained largely unknown. Many of the communities no longer exist as cohesive

societies in their representative lands; the Holocaust, migration, and changes in living styles have made the continuation of these tales

impossible. This series is a monument to a rich but vanishing oral tradition. This series is a monument to a rich but vanishing oral tradition.
