The Author's Hand and the Printer's Mind -

Roger Chartier 2013-12-06

In Early Modern Europe the first readers of a book were not those who bought it. They were the scribes who copied the author's or translator's manuscript, the censors who licensed it, the publisher who decided to put this title in his catalogue, the copy editor who prepared the text for the press, divided it and added punctuation, the typesetters who composed the pages of the book, and the proof reader who corrected them. The author's hand cannot be separated from the printers' mind.

This book is devoted to the process of publication of the works that framed their readers' representations of the past or of the world. Linking cultural history, textual criticism and bibliographical studies, dealing with canonical works - like Cervantes' Don Quixote or Shakespeare's plays - as well as lesser known texts, Roger Chartier identifies the fundamental discontinuities that transformed the circulation of the written word between the invention of printing and the definition, three centuries later, of what we call 'literature'.

Haythornthwaite 2012-05-20

In January 1794 the French 'Army of Italy' was commanded by General Dumerbion and he acknowledged a great debt to his 25-year-old commander of artillery - Napoleon Bonaparte. The French Revolution had resulted in major changes in the military system, conscription created a national army and new tactics and initiatives allowed an officer of such promise as Napoleon to rise quickly through the ranks. By 1796 he was the general commanding the French in Italy and at the conclusion of fourteen months campaigning he was the decisive military personality of his age. Philip Haythornthwaite examines Napoleon's campaigns in Italy, and the uniforms of his soldiers are illustrated in eight colour plates by Richard Hook.

Night Fever: A Design History of Club Culture examines the history of the nightclub, with examples ranging from Italian nightclubs of the 1960s that were created by members of the Radical Design group to the legendary Studio 54 in New York, Philippe Starck's Les Bains Douches in Paris and the more recent Double Club in London, conceived by German artist Carsten Höller for the Prada Foundation. Featuring films and vintage photographs, posters and fashion, Night Fever takes the reader on a fascinating journey through a world of glamour, subculture and the search for the night that never ends.

The Other Venice - Predrag Matvejević 2007

To know a city is to become intimately intertwined with its nooks, crevices, secret passageways, and dark places where its lifeblood flows—and what city has more of those than Venice? In *The Other Venice*, Predrag Matvejević ventures past the infamous canals and cobblestone streets of the tourist's Venice to find the heart of the ancient Italian metropolis. A lyric re-imagining of the City of Romance, *The*

Other Venice utterly reconfigures the Venetian landscape, as Matvejevic follows both real and imaginary maps, contemporary and historical, to trace out the details of this sensuous city. He probes into what the ancient metropolis means to its people, the nation, and global culture. But he also finds hints of life in the smallest and most mundane details—ancient bridges, rust-flecked boats, wall sculptures, rivers, and piazzas scattered throughout the city. Each has a little-known story and with Matvejevic as our guide, he reveals the stories behind them all. The book carries readers to a Venice that has escaped the eyes of writers, artists, and photographers through the centuries, and Matejevic by turns plays a historian, cartographer, anthropologist, and philologist as he unravels elusive artifacts of time past. Arresting black-and-white photographs by renowned photographer Sarah Quill accompany the text, offering a silent testament to Matvejevic's pilgrimage. A fascinating and beautifully written guide, *The Other Venice* reminds us that there is always another mystery to uncover in the city of water and stone.

The project Baja Moda (Low Fashion) explores two key aspects of contemporary Latin American culture: identity and resistance. While working on a previous project across Latin America, I began documenting store fronts and shoe shops still standing unaltered through the passage of time, unconcerned with the tendencies of modern globalized culture, seemingly opposing the economic transition to overseas manufacturing.

"A little village stretching like an arch of the moon around a quiet basin. Never have I felt the way I did when I walked into that green indefiniteness, with such a sense of peace and fulfillment". From *Vie Errante* by Guy de Maupassant Portofino is a typical fisherman village of the Ligurian Riviera, which has become one of Italy's most famous tourist spots. It is best known worldwide for its tall colored houses situated in a semicircular formation around the small port and piazza. Portofino and the Tigullio Gulf are symbols representing Italy throughout the world. The coast is a sequence of fashionable resorts with their marinas, pastel-colored houses, first-rate sports facilities, and the Dolce Vita's seductive atmosphere. But perhaps the most striking thing for the traveler is the beauty of the seascapes, with some of Italy's most famous views suspended between the intense blue of the sea and the green mountains. Portofino's area boasts an exceptional natural heritage that includes traces of rural and nautical civilizations, beautiful religious architecture, and clusters of rural houses surrounded by tiny orchards and sections of land planted with grapevines and olive trees. This is a guide to a visit to Portofino and the towns of nearby Riviera del Levante, from Sestri Levante to Genoa, including Sestri Levante, Santa Margherita Ligure, Camogli, San Fruttuoso and the villages of the Cinque Terre, with the trails between them. There are extensive descriptions and photos of the attractions. It contains many reviews for the best-recommended restaurants that are at the location described.

Clinical Dermatology - Richard B. Weller
2015-01-27

The best-selling text has been completely revised and revitalised in this fifth edition, with the authors once again encouraging general practitioners, medical students, general physicians and early stage dermatology specialist trainees and interns to relish the unique challenge of diagnosing and treating skin conditions. *Clinical Dermatology*, 5th edition contains over 400 high quality pictures and diagrams combined with colourful phrases to illustrate and entertain as it teaches. The book has established a reputation as a 'way of learning' and as an accessible guide to the subject for the aspiring specialist. Readers are guided through the maze that too often lies between the presenting skin complaint and its final diagnosis and treatment. The authors have skilfully crafted an easily read text with enough detail to clarify the subject, but not enough to obscure it. This fifth edition contains new chapters on non-invasive physical treatment and dermoscopy, and new material on cosmetic dermatology, surgical dermatology, the skin and the psyche, and dermatoses of non-Caucasian skin. The text throughout the book has been updated in line with developments in the science and practice of dermatology. "... brilliantly succeeds in enticing you to look further. The writing is clear, and the joint British-American authorship avoids any parochial views." From a review of a previous edition in *BMJ* "...a very well-presented book...an excellent aid for teaching. I recommend this book highly to individuals and departments." From a review of a previous edition in *J Derm Treatment* "... provides a good overview of the structure and function of the skin as well as a good foundation for learning dermatology...well organized and includes a chapter dedicated to skin signs of systemic disease which is not covered in the other dermatology primers." From a review of a previous edition in *JAMA*

We Are Family - Fabio Bartolomei 2019

Al Santamaria is a child prodigy, maybe a genius. It is not out of the realm of possibility that he, alone, will save the human race. But

first, he has to solve a far more urgent problem: finding a home for his family. He exists, like many kids, in a realm located somewhere between reality and fantasy, enjoying time with imaginary friends and wielding his magical powers. He has a wonderful relationship with his father, Mario Elvis, and his mother, Agnese, and he's convinced he has the best family in the world. But life isn't all roses for the Santamaria family. They are typical of many Italian families today, whose existences seem suspended between conflicting impulses: on the one hand, delusions of grandeur and immoderate ambition,

and on the other nostalgia for a past golden age and the secret wish that somebody, anybody, will come to their rescue. Big dreams, it appears, exist to be crushed. But Al is not about to give up. He lives in a marvelous world of his own. He has the energy, imagination, and unselfconscious talents of a child. And, although he doesn't know it yet, he is going to remain a child his entire life.
