Remarkable Trees - Christina Harrison 2019

For as long as there have been humans, trees have been central to our existence. They provide us with vital ingredients for life--food, medicine, materials, even the oxygen we breathe. Ecologically they are crucial in controlling pollution and moderating climate, and culturally they are at the center of our religion, folklore, and art. It has also been shown that, as well as greening our lives, they can improve our health and mental well-being. Remarkable Trees tells the unique story of more than sixty species, each selected for their resonance and connection with humankind. In portraits that combine vivid cultural and

historical narrative with a firm scientific grounding, Christina Harrison and Tony Kirkham reveal fascinating details of trees from around the world's major zones and ecologies. Some are obvious superstars, like oaks, redwoods, and apple trees, while others are more surprising varieties: We learn of the monkey puzzle, a tree native to Chile that "can grow for 1,000 years," and of the manchineel, a tree that contains sap so toxic to human skin that it's a risk to stand beneath it on a rainy day. In these pages are trees that are healers and killers, trees that serve as foundations of great buildings and grand feasts, and trees that leave us feeling wondrous and worried for their survival. In a tribute to the artists and botanists who have been inspired by trees for centuries, this book is filled with more than two hundred delightful illustrations. The varied and beautiful range of images come from the unrivalled archive at England's Royal Botanic Gardens, Kew, and they bring this

enlightening and enchanting volume to life. While trees have supported us for millennia, we have recently lost that direct, deep connection with them. Harrison and Kirkham remind us that we do not have to look far to reestablish that relationship. The stories revealed in Remarkable Trees remind us of why we should take the time to appreciate and care for these quiet giants that will forever be an intimate part of our culture, our past, and our future.

Max Huber. Ediz. illustrata - Stanislaus von Moos 2006-07

"Max Huber (1919-92) is one of the most significant graphic designers of the twentieth century. In this comprehensive monograph, the first to be published on this major figure, the authors trace and illustrate Huber's entire career, from his early years in Switzerland to his more mature work in Italy." "Huber's style assimilated the teachings of the early modern masters, such as Max Bill and Laszlo Moholy-Nagy, combining their principles with the enormous variety of cultural influences present in vibrant post-war Milan. This fully illustrated survey of his work demonstrates that Huber was among the first to apply the aesthetics of the avant garde to a corporate and commercial environment, creating formal solutions that he would go on to use throughout his life. Among the 450 illustrations in this book (the majority of which were never published before) are

examples of his celebrated posters for the Monza races, his jazz record covers and book series for major Italian publishers, which remain appreciated today as superb examples of their genres."

"Some of Huber's most enduring achievements were on a completely different scale and remain in the collective memory of generations and on the streets of Italy: his logo design for the department store La Rinascente and the supermarket chain Esselunga, were so influential as to change the public's perception of these two popular stores and, moreover, the visual landscape of Milan itself." "The three expert authors of this book (Stanislaus von Moos, Mara Campana and Giampiero Bosoni) were privileged to have the full support of Huber's widow, Aoi Kona, who granted them unrestricted access to the renowned archive of Huber's work that is now housed in the m.a.x.Museo, in Chiasso, Switzerland. This wide-ranging and exhaustively researched book demonstrates the

importance of this fascinating and influential figure in the history of modern graphic design."--BOOK JACKET.

Serpentine Gallery Pavilions - Philip Jodidio 2011

Since 2000, the Serpentine Gallery in London's Kensington Gardens has called on some of the world's top architects to

design summer pavilions - temporary structures that are erected next to the Gallery itself for a three-month period. The Serpentine, which was built in 1934 as a tea pavilion, opened in 1970 as a showplace for exhibitions of modern and contemporary artists ranging from Matthew Barney to Dan Flavin, Ellsworth Kelley, Louise Bourgeois or Rachel Whiteread. The pavilions in the Programme that was conceived in 2000 by the Serpentine Director Julia Peyton-Jones, are the work of international architects or design teams who at the time of the Serpentine's invitation have not completed a building in England. A maximum of six months from invitation to completion is allotted. The only architecture program of its type in the world, the Serpentine Gallery Pavilions attract up to 250.000 visitors each summer. The Serpentine Pavilion is regularly ranked in the top 5 most attended architecture and design exhibitions worldwide in The Art Newspaper's annual survey of museums and

Oh, Freedom! - Francesco D'Adamo 2016-06-09
This exciting adventure story follows a family of slaves in the USA in 1860 as they escape from a cotton plantation via the legendary Underground Railroad. An enthralling story of courage and resilience, centring on 10-year-old Tommy, it will fascinate children who might not know much about this secret escape route into Canada that was used by as many as 100,000

people. Ten-year-old Tommy roams the cotton fields of Alabama owned by the notorious Captain Archer. Intimidating guards with fierce dogs protect the land to prevent any slaves from leaving. That is until a supernatural spirit visits Tommy offering a way out. With his banjo slung over his shoulder, Peg Leg Joe guides Tommy, his family and other slaves out of Southern USA, and into Canada through the legendary Underground Railroads. Stretched for miles across the country's vastness, the network famously facilitated more than 100,000 slaves to a new life. For Tommy and his family, the escape is far from an easy ride. The young boy is forced to mature through this testing period and allow his strong will to guide himself and others to safety under the guidance of Peg Leg Joe. Set in the 19th century, D'Adamo's well-constructed novel tells a story distant in time, remains grounded in a reality that still exists today. Millions of people across the

globe continue to be enslaved, including children.

[A Severed Head](#) - Iris Murdoch
1976-11-18

A novel about the frightfulness and ruthlessness of being in love, from the author of the Booker Prize-winning novel *The Sea*, The Sea Martin Lynch-Gibson believes he can possess both a beautiful wife and a delightful lover. But when his wife, Antonia, suddenly leaves him for her psychoanalyst, Martin is plunged into an intensive emotional reeducation. He attempts to behave beautifully and sensibly. Then he meets a woman whose demonic splendor at first repels him and later arouses a consuming and monstrous passion. As his Medusa informs him, "this is nothing to do with happiness." *A Severed Head* was adapted for a successful stage production in 1963 and was later made into a film starring Claire Bloom, Lee Remick, Richard Attenborough, and Ian Holm.
