Auschwitz Testimonies - Primo Levi 2017-10-16
In 1945, soon after the liberation of Auschwitz, Soviet authorities in control of the Kattowitz (Katowice) camp in Poland asked Primo Levi and his fellow captive Leonardo De Benedetti to compile a detailed report on the sanitary conditions they witnessed in Auschwitz. The result was an extraordinary testimony and one of the first accounts of the extermination camps ever written. Their report, published in a medical journal in 1946, marked the beginnings of Levi's life-long work as writer, analyst and witness. In the subsequent four decades, Levi never ceased to recount his experiences in Auschwitz in a wide variety of texts, many of which are assembled together here for the first time, alongside other testimony from De Benedetti. From early research into the fate of their companions to the deposition written for Eichmann's trial, *Auschwitz Testimonies* is a rich mosaic of documents, memories and critical reflections of great historic and human value. Underpinned by his characteristically clear language, rigorous method and deep psychological insight, this collection of testimonies, reports and analyses reaffirms Primo Levi's position as one of the most important chroniclers of the Holocaust.

Atti della dieta provinciale dell'Istria in Parenzo - 1874

Guilt, Shame, and Anxiety - Peter R. Breggin, MD 2014-12-02
With the first unified theory of guilt, shame, and anxiety, this pioneering psychiatrist and critic of psychiatric diagnoses and drugs examines the causes and effects of psychological and emotional suffering from the perspective of biological evolution, child development, and mature adult decision-making. Drawing on evolution, neuroscience, and decades of clinical experience, Dr. Breggin analyzes what he calls our negative legacy emotions—the painful emotional heritage that encumbers all human beings. The author marshals evidence that we evolved as the most violent and yet most empathic creatures on Earth. Evolution dealt with this species-threatening conflict between our violence and our close-knit social life by building guilt, shame, and anxiety into our genes. These inhibiting emotions were needed

prehistorically to control our self-assertiveness and aggression within intimate family and clan relationships. Dr. Breggin shows how guilt, shame, and anxiety eventually became self-defeating and demoralizing legacies from our primitive past that no longer play any useful or positive role in mature adult life. He then guides the reader through the Three Steps to Emotional Freedom, starting with how to identify negative legacy emotions and then how to reject their control over us. Finally, he describes how to triumph over and transcend guilt, shame, and anxiety on the way to greater emotional freedom and a more rational, loving, and productive life.

Experiences in Translation - Umberto Eco 2008-01-01

In this book Umberto Eco argues that translation is not about comparing two languages, but about

the interpretation of a text in two different languages, thus involving a shift between cultures. An author whose works have appeared in many languages, Eco is also the translator of Gérard de Nerval's *Sylvie* and Raymond Queneau's *Exercices de style* from French into Italian. In *Experiences in Translation* he draws on his substantial practical experience to identify and discuss some central problems of translation. As he convincingly demonstrates, a translation can express an evident deep sense of a text even when violating both lexical and referential faithfulness. Depicting translation as a semiotic task, he uses a wide range of source materials as illustration: the translations of his own and other novels, translations of the dialogue of American films into Italian, and various versions of the Bible. In the second part of his study he deals with translation theories proposed by Jakobson, Steiner, Peirce, and others. Overall, Eco identifies the different types of interpretive acts that count as translation. An enticing new typology emerges, based on his insistence on a common-sense approach and the necessity of taking a critical stance.

Asylums - Erving Goffman 2017-09-08

A total institution is defined by Goffman as a place of residence and work where a large number of like-situated, individuals, cut off from the wider society for an appreciable period of time, together lead an enclosed, formally administered round of life. Prisons serve as a clear example, providing we appreciate that what is prison-like about prisons is found in institutions whose members have broken no laws. This volume deals with total institutions in general and, mental hospitals, in particular. The main focus is, on the world of the inmate, not the world of the staff. A chief concern is to develop a sociological version of the structure of the self. Each of the essays in this book were intended to focus on the same issue--the inmate's situation in an institutional context. Each chapter approaches the central issue from a different vantage point, each introduction drawing upon a different source in sociology and having little direct relation to the other chapters. This method of presenting material may be irksome, but it allows the reader to pursue the main theme of each paper analytically and comparatively past the point that would be

allowable in chapters of an integrated book. If sociological concepts are to be treated with affection, each must be traced back to where it best applies, followed from there wherever it seems to lead, and pressed to disclose the rest of its family.

Loaded - marquis de Sade 1990

The 120 Days of Sodom is the Marquis de Sade's masterpiece. A still unsurpassed catalogue of sexual perversions and the first systematic exploration of the psychopathology of sex, it was written during Sade's lengthy imprisonment for sexual deviancy and blasphemy and then lost after the storming of the Bastille during the French Revolution in 1789. Later rediscovered, the manuscript remained unpublished until 1936 and is now introduced by Simone de Beauvoir's landmark essay, 'Must We Burn Sade?' Unique in its enduring capacity to shock and provoke, *The 120 Days of Sodom* must stand as one of the most controversial books ever written, and a fine example of the Libertine novel, a genre inspired by eroticism and anti-establishmentarianism, that effectively ended with the French Revolution.

The Day After Roswell - Philip Corso 2012-12-11

Colonel Philip J. Corso (Ret.), a member of President Eisenhower's National Security Council and former head of the Foreign Technology Desk at the U.S. Army's Research & Development department, has come forward to tell the whole

explosive story. Backed by documents newly declassified through the Freedom of Information Act, Colonel Corso reveals for the first time his personal stewardship of alien artifacts from the crash, and discloses the U.S. government's astonishing role in the Roswell incident: what was found, the cover-up, and how these alien artifacts changed the course of 20th century history.

The Ante-Purgatorio of Dante Alighieri - Dante Alighieri 1875

Partisan Diary - Ada Gobetti 2014

Ada Gobetti's Partisan Diary is both diary and memoir. From the German entry into Turin on 10 September 1943 to the liberation of the city on 28 April 1945, Gobetti recorded an almost daily account of events, sentiments, and personalities, in a cryptic English only she could understand. Italian senator and philosopher Benedetto Croce encouraged Ada to convert her notes into a book. Published by the Italian publisher Giulio Einaudi in 1956, it won the Premio Prato, an annual prize for a work inspired by the Italian Resistance (Resistenza). From a political and military point of view, the Partisan Diary provides firsthand knowledge of how the partisans in Piedmont fought, what obstacles they encountered, and who joined the struggle against the Nazis and the Fascists. The mountainous terrain and long winters of the Alpine regions (the site of many of their battles) and the ever-present threat of reprisals by German occupiers and their fascist partners exacerbated problems of organization among the various partisan groups. So arduous was their fight, that key military events--Italy's declaration of war on Germany, the fall of Rome, and the Allied landings on D-Day --appear in the diary as remote and almost unrelated incidents. Ada Gobetti writes of the heartbreak of mothers who lost their sons or watched them leave on dangerous missions of sabotage, relating it to worries about her own son Paolo. She reflects on the relationship between anti-fascist thought of the 1920s, in particular the ideas of her husband, Piero Gobetti, and the Italian resistance movement (Resistenza) in which she and her son were participating. While the Resistenza represented a culmination of more than twenty years of anti-fascist activity for Ada,

it also helped illuminate the exceptional talents, needs, and rights of Italian women, more than one hundred thousand of whom participated.

Mathematical Lives - CLAUDIO BARTOCCI
2010-10-01

Steps forward in mathematics often reverberate in other scientific disciplines, and give rise to innovative conceptual developments or find surprising technological applications. This volume brings to the forefront some of the proponents of the mathematics of the twentieth century, who have put at our disposal new and powerful instruments for investigating the reality around us. The portraits present people who have impressive charisma and wide-ranging cultural interests, who are passionate about defending the importance of their own research, are sensitive to beauty, and attentive to the social and political problems of their times. What we have sought to document is mathematics' central position in the culture of our day. Space has been made not only for the great mathematicians but also for literary texts, including contributions by two apparent interlopers, Robert Musil and Raymond Queneau, for whom mathematical concepts represented a valuable tool for resolving the struggle between 'soul and precision.'

Literary Figures in French Drama (1784-1834) - Eric H. Kadler 1969

The general aim of this book is to present a study of a dramatic genre which was a significant facet of French drama in the period from 1784 to 1834 and has never before been singled out or analyzed. The striking feature of the plays of this genre is that the protagonists represent French literary figures. A casual examination of a collection of late eighteenth- and early nineteenth-century plays, many of which concern literary figures, led to the initial idea for this study. Conscientious cross-checking was subsequently done in a number of reference works and contemporary newspapers to obtain complete coverage and to draw up a list of all the plays in which French literary figures appeared as characters. From the total number of such plays, 153 have been used as the primary source of information. They were found scattered either in different collections or as separate copies in various libraries. This source has been supplemented by use of theatrical journals and almanacs giving reviews of some of the plays which were not published.

Narcissism - Alexander Lowen 2012-08-21
NARCISSISM Are you a narcissist? Do you interact with someone who is? Contrary to popular belief, narcissists do not love themselves or anyone else. They cannot accept their true

selves, constructing instead fixed masks that hide emotional numbness. Influenced by forces in culture and predisposed by factors in the human personality, narcissists tend to be • More concerned with how they appear than what they feel • Seductive and manipulative, striving for power and control • Egotists, focused on their own interests but lacking the true values of the self -- self-expression, self-possession, dignity, and integrity • Without a solid sense of self, which leads them to experience life as empty and meaningless In this groundbreaking study, Dr. Alexander Lowen uses his extensive clinical experience to demonstrate how narcissists can recover their suppressed feelings and regain their lost humanity. By the use of Bioenergetic Analysis, the psychotherapy created by Dr. Lowen, a new possibility of a fulfilling and authentic life is presented for people with narcissistic characteristics and for those who interact with them.

Like *The Man Who Mistook His Wife for a Hat*, this is a fascinating voyage into a strange and wonderful land, a provocative meditation on communication, biology, adaptation, and culture.

In *Seeing Voices*, Oliver Sacks turns his attention to the subject of deafness, and the result is a deeply felt portrait of a minority struggling for recognition and respect — a minority with its own rich, sometimes astonishing, culture and unique visual language, an extraordinary mode of communication that tells us much about the basis of language in hearing people as well. *Seeing Voices* is, as Studs Terkel has written, "an exquisite, as well as revelatory, work."

Journeys Out of the Body - Robert A. Monroe
2014-11-12

The definitive work on the extraordinary phenomenon of out-of-body experiences, by the founder of the internationally known Monroe Institute. Robert Monroe, a Virginia businessman, began to have experiences that drastically altered his life. Unpredictably, and without his willing it, Monroe found himself leaving his physical body to travel via a "second body" to locales far removed from the physical and spiritual realities of his life. He was inhabiting a place unbound by time or death. Praise for *Journeys Out of the Body* "Monroe's account of his travels, *Journeys Out of the Body*, jam-packed with parasitic goblins and dead humans, astral sex, scary trips into mind-boggling other dimensions, and practical tips on how to get out of your body, all told with wry humor, quickly became a cult sensation with its publication in 1971, and has been through many printings. Whatever their 'real' explanation, Monroe's trips made for splendid reading."

—Michael Hutchinson, author of *Megabrain* "Robert Monroe's experiences are probably the most intriguing of any person's of our time, with the possible exception of Carlos Castaneda's."

—Joseph Chilton Pierce, author of *Magical Child* "This book is by a person who's clearly a sensible man and who's trying to tell it like it is."

No ego trips. Just a solid citizen who's been 'out' a thousand times now and wants to pass his experiences to others." —The Last Whole Earth Catalog

Petrolio - Mario Martone 2003

Room 24 - Katie Prejean McGrady 2016-02-05
Five years after she graduated from high school, teacher, youth minister, and sought-after speaker Katie Prejean McGrady returned to her alma mater in Lake Charles, Louisiana, to teach freshman theology. In the early years of her career, McGrady's hormonal, sometimes grumpy, and often confused students taught her what it means to evangelize. Her frequently witty and always candid stories—and the ten lessons she offers—will inspire anyone who works with youth in the Church today. As she began her first year of teaching, McGrady was eager to impart the Catholic doctrine she loves to her class in room 24 at St. Louis Catholic high school, but she was quickly rattled by the magnitude of the task, especially when she was

challenged by a teen who said he didn't believe. In ten brief and compelling chapters, McGrady shares humorous and hopeful interactions she's had with her students that helped her learn that teaching them about Jesus and his Church is not as important as knowing them, loving them, and inviting them to know and love Jesus as a personal friend and savior. Her frequent mistakes and occasional successes with her students taught McGrady how to evangelize young people by building relationships in joyful, humble, and prayerful ways. Likewise, McGrady determined that the power of inviting conversation, welcoming questions, and witnessing to faith through personal stories engages students and helps them fall in love with Jesus.
