**From Amourette to Żal: Bizarre and Beautiful Words from Europe** - Alex Rawlings 2018-09-03

Fjaka: the sublime state of aspiring to do absolutely nothing. Warmduscher: a 'warm showerer', meaning a bit of a wimp. Tener mano izquierda: literally 'to have a left hand'; to be skilfully persuasive. For all the richness of the English language there are some nuances that other languages capture much better, whether it's a phrase that beautifully articulates a feeling, a wonderfully understated insult that just hits the spot, or a curious idiom. From the melancholic to the funny to the downright peculiar, From Amourette to Żal takes us on a fascinating journey around Europe in twelve languages, celebrating our cultural similarities and differences along the way.

**Creating and Digitizing Language Corpora** - J. Beal 2007-07-12

A range of electronic corpora has become accessible via the WWW and CD-ROM. This coincides with improvements in standards governing the collecting, encoding and archiving of such data. This book develops similar standards for enriching and preserving 'unconventional' data': the fragmentary texts and voices left to us as accidents of history.

Seven angels have fallen through space and time for so long, they have forgotten why. Coming to rest on a desert landscape, they imagine the creation of a legendary garden that once flourished there and its destruction from greed and neglect. Inspired by Paradise Lost, Seven Angels interprets the themes of John Milton's masterpiece for a modern audience facing up to the urgent challenges of a changing climate and ever-depleting resources. This is the long-awaited first opera from Luke Bedford featuring the libretto of award-winning poet Glyn Maxwell.

**The Egypt Code** - Robert Bauval 2007-10-01

Why did the ancients align their monuments so precisely with the stars? What were the practical and symbolic reasons behind these mysterious configurations? From the author of The Orion Mystery, the best-selling book that introduced the revolutionary star-correlation theory about the Giza pyramids, The Egypt

Code reveals an amazing Grand Unified Plan behind the legendary temples of upper Egypt. Robert Bauval, one of the world's most prominent and controversial Egyptologists, completes his groundbreaking investigation of astronomy as related to Egyptian monuments and related religious texts. The Egypt Code revisits the Pyramid Age and the Old Kingdom, proposing a vast sky-ground correlation for the Memphite-Heliopolis region, and presenting the possibility of a grand plan spanning three thousand years of Pharaonic civilization and involving pyramids and major temple sites along the Nile. The central idea of the book is that the cosmic order, which the ancients referred to as "Maat," was comprised of the observable cycles of the sun and stars, in particular the star Sirius, and that the changes that took place due to the precession of the equinoxes and the so-called Sothic Cycle are reflected in the orientation and location of religious sites.

**Oh, Freedom!** - Francesco D'Adamo 2016-06-09

This exciting adventure story follows a family of slaves in the USA in 1860 as they escape from a cotton plantation via the legendary Underground Railroad. An enthralling story of courage and resilience, centring on 10-year-old Tommy, it will fascinate children who might not know much about this secret escape route into Canada that was used by as many as 100,000 people. Ten-year-old Tommy roams the cotton fields of Alabama owned by the notorious Captain Archer. Intimidating guards with fierce dogs protect the land to prevent any slaves from leaving. That is until a supernatural spirit visits Tommy offering a way out. With his banjo slung over his shoulder, Peg Leg Joe guides Tommy, his family and other slaves out of Southern USA, and into Canada through the legendary Underground Railroads. Stretched for miles across the country's vastness, the network famously facilitated more than 100,000 slaves to a new life. For Tommy and his family, the escape is far from an easy ride. The young boy is forced to mature through this testing period and allow his strong will to guide himself and others to safety under the guidance of Peg Leg Joe. Set in the 19th century, D'Adamo's well-constructed novel tells a story distant in time, remains grounded in a reality that still exists today. Millions of people across the globe continue to be enslaved, including children.

**Melancholy Death of Oyster Boy, The-Holiday Ed.** - Tim Burton 2002-10-22

From breathtaking stop-action animation to bittersweet modern fairy tales, filmmaker Tim Burton has become known for his unique visual brilliance -- witty and macabre at once. Now he gives birth to a cast of gruesomely sympathetic children -- misunderstood outcasts who struggle to find love and belonging in their cruel, cruel worlds. His lovingly lurid illustrations evoke both the sweetness and the tragedy of these dark

yet simple beings -- hopeful, hapless heroes who appeal to the ugly outsider in all of us, and let us laugh at a world we have long left behind (mostly anyway).

*The Cambridge Companion to Feminist Literary Theory* - Ellen Rooney 2006-07-06

Feminism has dramatically influenced the way literary texts are read, taught and evaluated. Feminist literary theory has deliberately transgressed traditional boundaries between literature, philosophy and the social sciences in order to understand how gender has been constructed and represented through language. This lively and thought-provoking Companion presents a range of approaches to the field. Some of the essays demonstrate feminist critical principles at work in analysing texts, while others take a step back to trace the development of a particular feminist literary method. The essays draw on a range of primary material from the medieval period to postmodernism and from several countries, disciplines and genres. Each essay suggests further reading to explore this field further. This is the most accessible guide available both for students of literature new to this developing field, and for students of gender studies and readers interested in the interactions of feminism, literary criticism and literature.

**Saying No** - Asha Phillips 2008

Asha Phillips writes as both a child psychotherapist and a mother, using case studies as well as informal anecdotes from family and friends as illustrations. She strips away the negative associations surrounding the word 'no' and celebrates change and setting limits as essential ingredients in development. In a new introduction, Asha Phillips explains why the idea of limits and boundaries have become ever more pertinent since the book was first published. Now with a new chapter on illness in the family, *Saying No* can continue to build confidence and self-esteem in both children and parents.

*Killing and Dying* - Adrian Tomine 2021-05-04

"One of the most gifted graphic novelists of our time." —Wired *Killing and Dying* is a stunning showcase of the possibilities of the graphic novel medium and a wry exploration of loss, creative ambition, identity, and family dynamics. With this work, Adrian Tomine (*Shortcomings*, *Scenes from an Impending Marriage*) reaffirms his place not only as one of the most significant creators of contemporary comics but as one of the great voices of modern American literature. His gift for capturing emotion and intellect resonates here: the weight of love and its absence, the pride and disappointment of family, the anxiety and hopefulness of being alive in the twenty-first century. "Amber Sweet" shows the disastrous impact of mistaken identity in a hyper-connected world; "A Brief History of the Art Form Known as Horticulture" details the invention and destruction of a vital new art form in short comic strips; "Translated, from the Japanese" is a lush, full-color display of storytelling through still images; the title story, "Killing and Dying", centers on parenthood, mortality, and stand-up comedy. In six interconnected, darkly funny stories, Tomine forms a quietly moving portrait of contemporary life. Tomine is a master of the small gesture, equally deft at signaling emotion via a subtle change of expression or writ large across landscapes illustrated in full color. *Killing and Dying* is a fraught, realist masterpiece.

**The Idea File of Harold Adams Innis** - William Christian 1980-12-15

The many published volumes of the writings of Harold Adams Innis testify to his extraordinary grasp of the ordering principles of human history. The notes that he left at the time of his death provide a new and revealing profile of the inner workings of this restless and relentless mind. Innis maintained, added to, and corrected, in the last seven years of his life, a single system of cross-referenced notes, which came to be called the Idea File. Before his death in 1952 he collected these notes into a single numbered collation. In this edition the material has been arranged in chronological order to give a sense of the development of Innis's ideas and concerns. Innis's interests were many and varied, and this collection of some 1500 notes covers an encyclopedic range of topics. The different lines of Innis's investigations converge, however, in his interest in basic political and cultural issues and in his fundamental concern for the preservation of individual freedom and creativity. At heart Innis was a moralist whose hatred of oppressive social institutions led him to examine them from many angles. It is a fascinating odyssey. Every reader will be refreshed and enriched by sharing Innis's life-long intellectual adventure.

**Berlusconi** - Alan Friedman 2015-10-20

Before there was real estate tycoon cum President-Elect Donald J. Trump, there was Silvio Berlusconi, the billionaire media mogul turned prime minister who dominated Italian life for the past twenty years. In a candid, warts-and-all portrait of the leader who played hard in office and in private life. From the bunga-bunga parties to his most secret moments with world leaders, this biography is rich in anecdotes and revelations involving Barack Obama, Hillary Clinton, George W. Bush, Vladimir Putin, Mikhail Gorbachev, Tony Blair, Nicolas Sarkozy, Angela Merkel, and many others. Berlusconi's incredible rise to power started from nothing. A self-created man, he was a cruise ship crooner as a young man, became a real estate tycoon in the '70s, started the first commercial television network in history, and turned AC Milan into a world-class soccer club. And that was all before he survived the squalid swampland of Italian politics to become prime minister who has not only served the longest in Italian history, but also has generated the most controversy of arguably any world leader today.

**In the Hand of Dante** - Nick Tosches 2002-09-04

Deep inside the Vatican library, a priest discovers the rarest and most valuable art object ever found: the manuscript of The Divine Comedy, written in Dante's own hand. Via Sicily, the manuscript makes its way from the priest to a mob boss in New York City, where a writer named Nick Tosches is called to authenticate the prize. For this writer, the temptation is too great: he steals the manuscript in a last-chance bid to have it all. Some will find it offensive; others will declare it transcendent; it is certain to be the most ragingly debated novel of the decade.

**Primo Levi** - Ian Thomson 2014-03-11

Primo Levi, author of *Survival in Auschwitz* and *The Periodic Table*, wrote books that have been called the essential works of humankind. Yet he lived an unremarkable existence, remaining until his death in the house in which he'd been born; managing a paint and varnish factory for thirty years; and tending his invalid mother to the last. Now, in a matchless account, Ian Thomson unravels the strands of a life as improbable as it was influential, the story of the most modest of men who became a universal touchstone of conscience and humanism. Drawing on exclusive access to family members and previously unseen correspondence, Thomson reconstructs the world of Levi's youth--the rhythms of Jewish life in Turin during the Mussolini years--as well as his experience in Auschwitz and difficult reintegration into postwar Italy. Thomson presents Levi in all his facets: his fondness for Louis Armstrong and fast cars, his insomnia and many near-catastrophic work accidents. Finally, he explores the controversy and isolation of Levi's later years, along with the increasing tensions in his life--between his private anguish and gift for friendship; his severe bouts of depression and passion for life and ideas; his pervasive dread and reasoned, pragmatic ethic. Praised in Britain as "the best sort of history" and "a model of its kind," *Primo Levi: A Life* is certain to take its place as the standard biography and a necessary companion to the works themselves.

casualty from a nearby research lab. With rumors flying, eyes turn to Mills Chevern—a tumbleweed orphan newly arrived in town from the west with no ties and a hazy history. **The Inhabited Pathway** - Sebastiano Brandolini 2014

Alberto Ponis was born in Genoa in 1933 and studied at Florence University, where he qualified as an architect in 1960. He worked in London with Erno Goldfinger and Denys Lasdun in 1960-64 under the strong and lasting influence also of the movements of Modernism and New Brutalism then prevailing in the theoretical discourse in British architecture. His own studio Ponis established in 1964 in Palau, on the Italian island of Sardinia, working since on private, public and urban planning commissions. In 1990 he was awarded the INARCH prize for the Village of "Stazzo Pulcheddu" in Palau. Ponis often refers to the natural conditions and the social history of Sardinia when talking about his work in architecture. Besides of nature and society, he has also extensively studied the "stazzo," Sardinia's typical rural building type. This thorough knowledge of conditions, traditions and requirements are the foundation of an oeuvre of more than 300 residential buildings. Each of them deeply rooted in its environment and connected with the land and other dwellings by the "sentiero," the path leading to and from the house. Ponis's houses are meant to be summer homes, their inert warmth reflecting the architect's fundamental optimism. They show a natural modesty and simplicity rather than their owner's wealth or status. They express the architect's great formal skills and sensitivity. They are inconceivable without the Sardinian landscape and history and the island seems to have been expecting just these particular buildings, merging naturally with nature. The new book "Alberto Ponis Sardinia" is the first comprehensive monograph on this highly interesting and original yet little known architect. In five lavishly illustrated sections it documents his biography and early work, his extensive research on Sardinia, eight selected buildings created between 1965-98 that make traceable the evolution of Ponis's work, his philosophy (Thoughts and Forms), and a concluding essay on the essence of his architecture.

**Formafantasma** - Studio Formafantasma 2014

According to the Museum, "This retrospective will focus not only on objects and installations but also on the creative process and mental world of Studio Formafantasma. The title of the exhibition refers to alchemy: the transformation of everyday raw materials into precious goods. Andrea Trimarchi and Simone Farresin do something similar as designers. An extensive research and work process results in products and installations that raise questions about the role of industry, globalisation and sustainability."
