Prelude to the Night - Fabrizio Frosini 2019-02-17

This second book of English Poems by Fabrizio Frosini, comes two years after his first, 'The Chinese Gardens', and it stands as the continuation of Frosini's philosophical and existential path, in his being an outstanding poet and a sensitive and committed human being. And indeed, in Frosini's Poetry "the Personal becomes the Universal."Although most of Frosini's poetic production (over 2,000 high quality poems published) is expressed in his native language, Italian, these English poems -as well as the ones belonging in 'The Chinese Gardens'- show the best of Frosini's poetic mind. Here is a book that is worth reading.

The last decade has seen an incredible growth in the production and distribution of images and other cultural artefacts. At the Crossing of Seven Winds: L.Ayliffe D.J.Brick F.Frosini D.Hine G.Italyanskaya M.Menon A.Sze - Daniel J. Brick 2018-04-29

«Nature is wild and eagles and wolves will never be lovers. But certainly Poetry can overcome every obstacle and translates our dreams, desires, passions,.. in images that evoke even a new, different Universe» ~ «It fulfills the very nature of poetry that we 7 poets publish our poems in a common anthology and witness how these diverse poems reflect each other, relate to each other, amplify each other »~ This Anthology of Poetry collects 72 poems from 7 Authors living in 7 different Countries of the World. ~ As Fabrizio Frosini puts it: «When I first proposed this idea for a book to my Minnesotan friend Daniel Brick, we decided together to open it to other "voices of poetry" from different parts of our troubled world. Maybe we put it a bit too emphatically, like "voices of poetry conveying the joy of creativity," to point out the real issues of human

passions mediated through poetry. Yet, Poetry is a sum of hope and despair. It is a sum of wishes, hopes, dreams, inspirations, wanderings on the wings of Imagination. It is a long flight our hearts and minds took, revisiting reality, memories, expectations. Life itself is revisited through the multicolored glasses of poetry. As Dylan Thomas wrote: "These poems, with all their crudities, doubts, and confusions, are written for the love of Man" and, I add, they are written out of the joy of creativity, even when created in the darkest moments of despairing depression. Everyone who reads our poetry enters our own Universe -even if for a while. Through Poetry, we all -Authors and Readers- are in touch.»

A Season for Everyone: Tanka Poetry - Fabrizio Frosini 2019-03-23

In AD 905, the standard poetic diction for the "perfect waka" was

established, with the rule of 31 sound units in the pattern 5-7-5-7-7. Since then, although tanka poetry has evolved over the centuries, its form hasn't changed. This collection of tanka by Fabrizio Frosini, although written in English, possess all the charm of the ancient Japanese waka poetry: in them you can savor the aesthetic principles of 'sabi' (the melancholic sense of beauty), or enjoy the feeling of 'yūgen' (mysterious depth), while the pathos of things ('mono no aware') encircles you, offering your thoughts depth of feeling ('ushin') and awareness of time and space. But let the poems speak for themselves...Enjoy the reading.

The Lady Or the Tiger? - Raymond M. Sullyan 2009-01-01

"Another scintillating collection of brilliant problems and paradoxes by the most entertaining logician and set theorist who ever lived." — Martin Gardner. Nineteen chapters advance in difficulty from relatively simple to highly complex.

[Socially Symbolic Acts](#) - Joseph Francese 2006

This book discusses issues of broad cultural consequence by examining the work of three of Italy's most prominent living novelists, Umberto Eco, Vincenzo Consolo, and Antonio Tabucchi. The introductory chapter continues a discussion of some of the topics already broached in the author's *Narrating Postmodern Time and Space* (1997). It uses an approach that is both historicist and psychoanalytic to critically address topics in cultural studies and Italian studies. The book deals with fictions of very recent publication, many of which have been published after the turn of the millennium, filling important gaps in the critical bibliography.

Close readings relate texts to their historical and cultural contexts, critiquing their ideology while preserving their Utopian moments.

Geography and Revolution - David N. Livingstone 2010-08-15

A term with myriad associations, revolution is commonly understood in its intellectual, historical, and sociopolitical contexts. Until now, almost no attention has been paid to revolution and questions of geography. *Geography and Revolution* examines the ways that place and space matter in a variety of revolutionary situations. David N. Livingstone and Charles W. J. Withers assemble a set of essays that are themselves revolutionary in uncovering not only the geography of revolutions but the role of geography in revolutions. Here, scientific

revolutions—Copernican, Newtonian, and Darwinian—ordinarily thought of as placeless, are revealed to be rooted in specific sites and spaces.

Technical revolutions—the advent of print, time-keeping, and photography—emerge as inventions that transformed the world's order without homogenizing it. Political revolutions—in France, England, Germany, and the United States—are notable for their debates on the nature of political institutions and national identity. Gathering insight from geographers, historians, and historians of science, *Geography and Revolution* is an invitation to take the where as seriously as the who and the when in examining the nature, shape, and location of revolutions.

Moments of Lightness: Haiku & Tanka - Poets Unite Worldwide 2019-03-17

"A very good book of haiku and tanka poetry: very useful to learn about this kind of poetry." (Patrick C., USA) * "After 'Seasons of the Fleeting World - Writing Haiku', this new book opens a window on tanka, too. A very good collection of haiku and tanka for those who love these two genre of poetry" (Annika K., Germany) * "Very helpful!" (Gurpreet D., India) * An example of English tanka? I especially like this one: "what world is this? / hate speech is widespread / hate crimes increase, / and a reckless president / blows on the flames!" (Marika R., GB) *

[The Secret Language of Dante Alighieri](#) - Luigi Valli 2021-04-11

From that long investigation of mine the conclusions that I summarize and explain in this book arose and which, I will say immediately, are the

following: It is true that the poetry of the "Fedeli d'Amore", especially that of Dante and his most immediate predecessors, of the his contemporaries and his successors, is written in a secret jargon for which at least thirty words (Rossetti had already pointed out some, deceiving himself about others) constantly have, in addition to the apparent meaning concerning love matter, a second and sometimes also a third conventional meaning, concerning the ideas of an initiatory doctrine and the life of a group of initiates. These words are precisely those that with exasperating monotony fill the lines of these "Faithful", very often presenting nonsense in the literal plane, namely: love, madonna, death, life, women, madness and madness, cold, gaiety, gravity, boredom, nature, weep, stone, rose, flower, source, greeting, wild, shame and others of less frequent use. It is true that all the women of the dolce stil novo are in reality one woman and that is the holy Wisdom, which in the special use of the dolce stil novo conventionally takes a different name for each different lover and is called Beatrice for Dante, Giovanna for Guido Cavalcanti, Lagia for Lapo Gianni, Selvaggia for Cino and so on. And since, as I said above, the doctrine cultivated by a sect and the sect itself are confused under the same designation, these women also serve to designate the sect of the "Fedeli d'Amore". Dante's Vita Nuova is all written in this jargon: it is all symbolic from the first to the last word and concerns the initiatory life of Dante and his relations not with the wife of Simone de 'Bardi, but with the Holy Wisdom and with the group that cultivated it. Therefore the Beatrice of the New Life does not differ substantially from the one who appears triumphant on the chariot of the Church in the apocalyptic vision of the Divine Comedy. The darkest poems of the "Fedeli d'Amore" and especially Dante's obscure songs, over which those who were ignorant of the jargon have struggled in vain, read according to the jargon, melt their clarity, coherence, unsuspected depth. Not only that, but with the knowledge of the secret meaning of these few words of jargon, they clear up in our eyes and completely transform into their spirit, other very obscure works by Dante's contemporaries, such as the Documents of love by Francesco da Barberino, the Intelligence by Dino Compagni, the Acerba by Cecco

d'Ascoli, works which, while differing outwardly from the love poetry of the sweet styl novo are informed by the same profound mystical spirit, by the same secret doctrine, they come out, in other words, from the bosom of the same sect. These poems, once translated into their real meaning with the key of jargon, in place of that vague, stylized, monotonous, cold, artificial love, which they almost always show according to the letter, reveal to us an intense and deep life of love. for a mystical idea, considered the true essence of Catholic revelation, of a struggle for it, against the carnal and corrupt Church, conventionally called "Death" or "the Stone" and which is depicted as an opponent of the sect of the "Fedeli d'Amore" and as a concealer of that holy Wisdom that the "Fedeli d'Amore" pursue under the figure of the woman; they reveal to us a series of mystical kidnappings, of cries invoking help against the persecutions and threats of adversaries, of excitements with which the followers comfort each other to remain faithful to the holy idea, and other very high and very deep things, before which the fictitious love poem, which is on the surface, falls, and almost always without our regret, like a very insignificant rind, leaving us astonished that we could have believed that all this was really love poetry.

Scattering Dreams & Tales - Daniel J. Brick 2018-06-14

This Anthology of Poetry sees the participation of 13 poets from 12 different countries of 4 continents. As Daniel Brick writes: Our third collection of poems can be considered a grace note attached to the full melody to the first two. The title, "Scattering Dreams and Tales," was chosen to reflect the first two collections. According to Fabrizio Frosini, "Dreams & Tales" recalls 'Nine Tales of Creation'. "Scattering" evokes 'At the Crossing of Seven Winds.' In this Anthology, you will find poems by 13 poets. According to the Random House Dictionary, a POET is a person who has the gift of poetic thought, imagination and creation. Let us see how we can amplify this definition with statements made by poets and prose writers. One of the earliest definitions still current is by the ancient Roman poet, HORACE, one of the masters of Lyric Poetry in Western literature. He wrote "Poets were the first teachers of mankind." The poet-teacher would inculcate the highest human values along with

whatever information would be deemed necessary. Who are the hyphenated teachers in today's world? Perhaps technocrat-teachers, dogmatist-teachers, militarist-teachers, businessman-teachers. Would there be room for Horace's confidence in Lyric Poetry? The early 20th century poet James Flecker made a very precise distinction in what we can expect poets to accomplish through language, mere words raised to heightened, even electric power: "The poet's business is not to save the soul of man but to make it worth saving." Perhaps several poems in our anthology will perform this redemptive role, if the poets have fulfilled their mission and readers read with lively attention.

Geometry of the Passions - Remo Bodei 2018-08-08

The passions have long been condemned as a creator of disturbance and purveyor of the temporary loss of reason, but as Remo Bodei argues in *Geometry of the Passions*, we must abandon the perception that order and disorder are in a constant state of collision. By means of a theoretical and historical analysis, Bodei interprets the relationship between passion and reason as a conflict between two complementary logics. *Geometry of the Passions* investigates the paradoxical conflict-collaboration between passions and reason, and between individual and political projects. Tracing the roles passion and reason have played throughout history, including in the political agendas of Descartes, Hobbes, and the French Jacobins, *Geometry of the Passions* reveals how passion and reason may be used as a vehicle for affirmation rather than self-enslavement.

The Italian Difference - Lorenzo Chiesa 2009

This volume brings together essays by different generations of Italian thinkers which address, whether in affirmative, problematizing or genealogical registers, the entanglement of philosophical speculation and political proposition within recent Italian thought. Nihilism and biopolitics, two concepts that have played a very prominent role in theoretical discussions in Italy, serve as the thematic foci around which the collection orbits, as it seeks to define the historical and geographical particularity of these notions as well their continuing impact on an international debate. The volume also covers the debate around

OCyweak thoughtOCO (pensiero debole), the feminist thinking of sexual difference, the re-emergence of political anthropology and the question of communism. The contributors provide contrasting narratives of the development of post-war Italian thought and trace paths out of the theoretical and political impasses of the presentOCO against what Negri, in the text from which the volume takes its name, calls OCythe Italian desertOCO."
