The Second Vatican Council - Charles J. Chaput 2013-08-14

Introductory Essay by Pope Benedict XVI This collection includes the four constitutions of the Second Vatican Council, the most popular and key documents for understanding the Council itself, its decrees, and its declarations. Few events in the history of the modern Catholic Church have been as far-reaching as the Second Vatican Council (1962-1965). And few have been as controversial. No one denies great changes have come about since the close of the Council. Have the changes been all good, all bad, or a mixture of both? To what extent were the changes, for good or ill, the result of the Council itself? Some have criticized the Council for not going far enough, though they maintain that the "spirit of Vatican II" supports their rejection of many firmly established Catholic beliefs and practices. Others claim the Council went too far and abandoned certain fundamental Catholic tenets in the name of "updating" the Church. The popes of the Council-John XXII and Paul VI-and their successors who also participated in the Council -John Paul I, John Paul II, and Benedict XVI-have insisted that the Council itself was the work of the Holy Spirit. They have aggressively criticized misinterpretations and distortions of it. They insist that the Council be understood in fundamental continuity with the Church's Tradition, even while deepening the Church's self-understanding and calling for authentic reforms and renewal of Catholic life. Readers can learn for themselves what the Second Vatican Council taught using this highly accessible collection of its basic texts. This book uses the Catholic Truth Society translation and features: The Constitution on the Sacred Liturgy, Sacrosanctum Concilium, introduced by Cardinal Francis Arinze.The Dogmatic Constitution on the Church, Lumen Gentium, introduced by Cardinal Paul Poupard.The Dogmatic Constitution on Divine Revelation, Dei Verbum, introduced by Archbishop Charles J. Chaput, OFM, Cap.The Pastoral Constitution on the Church in the Modern World, Gaudium et Spes, introduced by Cardinal Angelo Scola. Four major aspects of the Church's life-the Sacred Liturgy, the mystery of the Church herself, the Word of God, and the Church in the world as it is today-are explored. No twenty-first-century Catholic should be without these four foundational texts in this superb translation. The collection also includes a general introduction by Archbishop Salvatore Cordileone of San Francisco, as well as an address given by Pope Emeritus Benedict XVI in 2005, explaining how best to understand the Second Vatican Council in the history of the Church.

Manipulating Theophany - Vladimir Ivanovici 2016-07-25

Using light as fil rouge reuniting theology and ritual with the architecture, decoration, and iconography of cultic spaces, the present study argues that the mise-en-scène of fifth-century baptism and sixth-century episcopal liturgy was meant to reproduce the luminous atmosphere of heaven. Analysing the material culture of the two sacraments against common ritual expectations and Christian theology, we evince the mannerin which the luminous effect was reached through a combination of constructive techniques and perceptual manipulation. One nocturnal and one diurnal, the two ceremonials represented different scenarios, testifying to the capacity of church builders and willingness of Late Antique bishops to stage the ritual experience in order to offer God to the senses.

Introduction to Mariology - Manfred Hauke 2020-09-11

In Introduction to Mariology, Fr. Manfred Hauke provides a synthesis of Mariology and the biblical fundamentals and development of Marian doctrine. While it works as a comprehensive introduction suitable for courses on the subject, it is in reality a panoramic view on the entire Marian doctrine, and as such will be essential for the theological formation of seminarians, priests, theologians, and all kinds of educated Catholics. With an unparalleled bibliographic citation of Marian literature across a dozen languages, it is also a perfect gateway to further research on the subject. It begins with Biblical doctrine, which is important especially for the dialogue with Protestant denominations: Catholic Mariology can be traced in its "embryonic" state already in Holy Scripture. From there Hauke presents a historical overview of the whole development of Marian doctrine, before developing further historical details in the subsequent chapters dedicated to systematic issues. The first systematic step approaches the figure of Mary through her role in the mystery of the Covenant between God and redeemed humanity; her being "Mother of God" and companion of the Redeemer is the "fundamental principle." Then the four established Marian dogmas are presented: divine maternity, virginity, Immaculate Conception (in a chapter on Mary's holiness more broadly), and bodily Assumption. A close look is given to maternal mediation which includes a part dedicated to the "Mater Unitatis". A stand alone chapter is dedicated to Marian

apparitions; authentic apparitions are presented as a part of prophetic charisma. The last chapter presents the basics on Marian devotion which culminates in the consecration to Mary (as a response to her maternal mediation). Already available in Spanish, Italian, Portuguese, and Korean, this landmark work is published here for the first time in English.

Rediscovering John - Lesław Daniel Chrupcała

The idea of dedicating a Festschrift to honor Professor Frédéric Manns on the happy occasion of his 70th birthday came to mind in the autumn of 2011 and work on this project had been continuing ever since.

Felicitously achieving this goal, the Faculty of Biblical Sciences and Archaeology (Studium Biblicum Franciscanum) and the Franciscan Custody of the Holy Land present this volume to Father Manns with gratitude for his profound scholarship and a lifetime service in the Holy Land. Perusing through Father Manns' writings, it is easy to see a prominent and distinctive place devoted to the Gospel of John. It seemed therefore suitable to focus on this subject in the Festschrift honoring him: the title, *Rediscovering John*, relates to Manns' significant contribution towards the better understanding of the Fourth Gospel. The volume comprises 21 studies authored by renowned scholars from various parts of the world, from different institutions and denominations.

While the first half of the studies examines general issues (history of interpretation, textual transmission, intertextuality, theological themes, archaeology), the second half treats literary, narrative and exegetical approaches to particular texts of the Fourth Gospel. We augur that this rich collection will help to stimulate further discussion and reflection on the Gospel of John, as well as constitute an incentive to an already distinguished scholar to continue writing challenging and thought-provoking essays and books.
