Soon after, she discovered said business partner had made detrimental decisions to the company without her knowledge. Before she knew it, she was in the throes of a brutal business partner break up. She was only twenty-four. Determined to bounce back, Jaclyn overhauled the mess that was her life and by the time she was in her early thirties, she had sold a company and launched the much-buzzed about Create & Cultivate platform—and advised and

The 100 Absolutely Unbreakable Laws of Business Success - Brian Tracy 2002-01-01

Why are some people more successful in business? Why do some businesses flourish

where others fail? Renowned business speaker and author, Brian Tracy has discovered the answers to these profoundly puzzling questions. In The 100 Absolutely Unbreakable Laws of Business Success Tracy draws on his thirty years' experience and knowledge to present a set of principles or "universal laws" that lie behind the success of business people everywhere, in every kind of enterprise, large and small. These are natural laws, he says, and they work everywhere and for everyone, virtually without exception. Every year, says Tracy, thousands of companies underperform or even fail and millions of individuals underachieve, frustrated by thwarted ambition and dreams--all because they either attempted to violate or did not know these universal laws. But ignorance of the law is no excuse! Tracy breaks the 100 laws down into nine major categories: Life, Success, Business, Leadership, Money, Economics, Selling, Negotiating, and Time Management. For each of the nine groups he

details the specific laws that govern it--laws such as the Law of Cause and Effect, the Law of Service, the Law of Increasing Returns, the Law of Compensation, and the Law of Independence. Drawing on a lifetime of observation, investigation, and experience, Tracy not only identifies and defines each law, he also reveals its source and foundation, whether in science, nature, philosophy, experience, or common sense. He illustrates how it functions in the world using real-life anecdotes and examples shows how to apply it to your life and work through specific questions and practical steps and exercises that everyone can use--sometimes in just minutes--to begin the journey toward greater business success. Now for the first time in one volume, these key principles can be understood and put to use by business people of all ages and experience for better, faster, more predictable results. "When you know and understand them," writes Tracy, "you gain a tremendous advantage over those who do not.

When you organize your life and business according to these universal laws and timeless truths, you find that it is much easier to build and run a successful and profitable business or department, no matter what external conditions might exist...You will attract and keep better people, produce and sell more and better products and services, control costs more intelligently, expand and grow more predictably, and increase your profits with greater consistency." Easy to read, easy to understand, and easy to apply, *The 100 Absolutely Unbreakable Laws of Business Success* offers a straightforward, eye-opening, life-affirming approach to how the world of business really works.

Secret Millionaires Club - Andy Heyward

2013-07-24

Priceless finance advice everyone can relate to from one of the world's most respected businessmen and the most successful investor of all time. Of course you know who Warren Buffett is; he's the most successful investor in the

world—maybe of all times. But what do you know about his approach to business and investing? It's an approach that, over the past four decades, has made him the richest man in America and the third-richest man in the world, and that has earned vast fortunes for his business partners and investors. But as Buffett himself will tell you, at the heart of any wealth-building system there are certain core beliefs, not just about finance, but about business, work, morality, your responsibility to yourself, your family and society, and about living a decent life. Written in conjunction with the hit television series, "Secret Millionaire Club" and with Buffett's input and full support, this book makes Buffett's financial philosophy and homespun life lessons available to everyone outside his "Secret Club." Warren Buffett's goal in spearheading this book was to share lessons about personal finance he has learned and that he hopes will benefit you (and your kids) for a lifetime. reading Warren Buffett's war stories and personal reflections on money, life, business, ethics and more. All of the finance principles covered in the book were personally approved by Warren Buffett as those which he himself follows. Unforgettable Buffett quotes include: "Price is what you pay. Value is what you get"; "Risk comes from not knowing what you're doing"; and "Profit from folly rather than participate in it." *The Education of Millionaires* - Michael Ellsberg
2012-09-25

Some of the smartest, most successful people in the country didn't finish college. None of them learned their most critical skills at an institution of higher education. And like them, most of what you'll need to learn to be successful you'll have to learn on your own, outside of school. Michael Ellsberg set out to fill in the missing pieces by interviewing a wide range of millionaires and billionaires who don't have college degrees, including fashion magnate Russell Simmons and Facebook founding president Sean Parker. This

book is your guide to developing practical success skills in the real world: how to find great mentors, build a world-class network, make your work meaningful (and your meaning work), build the brand of you, and more. Learning these skills is a necessary addition to any education, whether you're a high school dropout or graduate of Harvard Law School.

The Self-Made Billionaire Effect - John Sviokla 2015-01-01

Discover and cultivate the secret traits of self-made billionaires with THE SELF-MADE BILLIONAIRE EFFECT by John Sviokla and Mitch Cohen Imagine what Atari might have achieved if Steve Jobs had stayed there. Or what Steve Case could have done for Pepsi if he hadn't left for a start-up that eventually became AOL. Scores of billionaires worked for established corporations before they struck out on their own. People like Michael Bloomberg and Mark Cuban went on to build iconic household brands. Why didn't their former employers hang onto to these people? And why are most big companies unable to create as much value as the world's 800 self-made billionaires? Billionaires aren't necessarily luckier, smarter or harder working than the rest of us - and they rarely build something brand-new. The key difference is their mindset. They

redefine what's possible - and they are critical to any company looking to create massive value. The Self-Made Billionaire Effect breaks down the five critical habits of massive value-creators, so you can learn how to identify, encourage, and retain them - and even become one yourself. It will forever change the way you think about talent and business value. John J. Sviokla is the head of Global Thought Leadership with PricewaterhouseCoopers. He is a frequent speaker on innovation, growth, and customer behavior. In addition to working with clients, John serves on PwC's Advisory Leadership Group and Global Thought Leadership Council. He was on the faculty of the Harvard Business School for ten years and has written for Harvard Business Review, The Wall Street Journal, Financial Times, and Sloan Management Review. Mitch Cohen is PwC's Vice Chairman. During his 33 years at the firm and 20 years as a partner, Cohen has held a variety of leadership roles and served numerous Fortune 500 clients.

Secrets of the Millionaire Mind - T. Harv Eker 2009-10-13

Secrets of the Millionaire Mind reveals the missing link between wanting success and achieving it! Have you ever wondered why some people seem to get rich easily, while others are destined for a life of financial struggle? Is the difference found in their education, intelligence, skills, timing, work habits, contacts, luck, or their choice of jobs, businesses, or investments? The shocking answer is: None of the above! In his groundbreaking Secrets of the Millionaire Mind, T. Harv Eker states: "Give me five minutes, and I can predict your financial future for the rest of your life!" Eker does this by identifying your "money and success blueprint." We all have a personal money blueprint ingrained in our subconscious minds, and it is this blueprint, more than anything, that will determine our financial lives. You can know everything about marketing, sales, negotiations, stocks, real estate, and the world of finance, but

if your money blueprint is not set for a high level of success, you will never have a lot of money—and if somehow you do, you will most likely lose it! The good news is that now you can actually reset your money blueprint to create natural and automatic success. *Secrets of the Millionaire Mind* is two books in one. Part I explains how your money blueprint works. Through Eker's rare combination of street smarts, humor, and heart, you will learn how your childhood influences have shaped your financial destiny. You will also learn how to identify your own money blueprint and "revise" it to not only create success but, more important, to keep and continually grow it. In Part II you will be introduced to seventeen "Wealth Files," which describe exactly how rich people think and act differently than most poor and middle-class people. Each Wealth File includes action steps for you to practice in the real world in order to dramatically increase your income and accumulate wealth. If you are not

doing as well financially as you would like, you will have to change your money blueprint. Unfortunately your current money blueprint will tend to stay with you for the rest of your life, unless you identify and revise it, and that's exactly what you will do with the help of this extraordinary book. According to T. Harv Eker, it's simple. If you think like rich people think and do what rich people do, chances are you'll get rich too!

The Millionaire Next Door - Thomas J. Stanley
2010-11-30

How do the rich get rich? An updated edition of the "remarkable" New York Times bestseller, based on two decades of research (The Washington Post). Most of the truly wealthy in the United States don't live in Beverly Hills or on Park Avenue. They live next door. America's wealthy seldom get that way through an inheritance or an advanced degree. They bargain-shop for used cars, raise children who don't realize how rich their families are, and

reject a lifestyle of flashy exhibitionism and competitive spending. In fact, the glamorous people many of us think of as “rich” are actually a tiny minority of America’s truly wealthy citizens—and behave quite differently than the majority. At the time of its first publication, *The Millionaire Next Door* was a groundbreaking examination of America’s rich—exposing for the first time the seven common qualities that appear over and over among this exclusive demographic. This edition includes a new foreword by Dr. Thomas J. Stanley—updating the original content in the context of the financial crash and the twenty-first century. “Their surprising results reveal fundamental qualities of this group that are diametrically opposed to today’s earn-and-consume culture.” —Library Journal

2013-02-19

It's no secret that these hard times have been even harder for the Black community.

Approximately 35 percent of African Americans had no measurable assets in 2009, and 24 percent of these same households had only a motor vehicle. Dennis Kimbro, observing how the weight of the continuing housing and credit crises disproportionately impacts the African-American community, takes a sharp look at a carefully cultivated group of individuals who've scaled the heights of success and how others can emulate them. Based on a seven year study of 1,000 of the wealthiest African Americans, *The Wealth Choice* offers a trove of sound and surprising advice about climbing the economic ladder, even when the odds seem stacked against you. Readers will learn about how business leaders, entrepreneurs, and celebrities like Bob Johnson, Spike Lee, L. A. Reid, Herman Cain, T. D. Jakes and Tyrese Gibson found their

paths to wealth; what they did or didn't learn about money early on; what they had to sacrifice to get to the top; and the role of discipline in managing their success.
