The Years of Alienation in Italy - Alessandra Diazzi 2019-06-11

The Years of Alienation in Italy offers an interdisciplinary overview of the socio-political, psychological, philosophical, and cultural meanings that the notion of alienation took on in Italy between the 1960s and the 1970s. It addresses alienation as a social condition of estrangement caused by the capitalist system, a pathological state of the mind and an ontological condition of subjectivity. Contributors to the edited volume explore the pervasive influence this multifarious concept had on literature, cinema, architecture, and photography in Italy. The collection also theoretically reassesses the notion of alienation from a novel perspective, employing Italy as a paradigmatic case study in its pioneering role in the revolution of mental health care and factory work during these two decades.

Un amore di Salinger - Beigbeder Frederic 2016-04-12

In una caffetteria nel New Hampshire, Frédéric Beigbeder vede una fotografia che lo colpisce. Lo scatto ha bloccato la risata di una ragazza giovane, i capelli scuri pettinati di lato e la bocca spalancata in un sorriso sfavillante, il collo scoperto a esprimere una tensione fiduciosa verso la vita. La ragazza si chiama Oona O'Neill, suo padre è un famoso drammaturgo che l'ha abbandonata quando aveva solo due anni per trasferirsi con la nuova moglie in Europa e al quale lei per anni ha scritto cartoline da innamorata. A diciott'anni sposa Charlie Chaplin e sarà ricordata come la sua ultima moglie. Ma c'è un dettaglio meno conosciuto nella vita di questa ragazza che sorride all'obiettivo, pronta a credere a qualsiasi cosa la vita le racconti. Quando aveva quindici anni, Oona si era innamorata di uno scrittore, il più geniale e misantropo di tutti: J.D. Salinger. Lo scrittore preferito di Frédéric Beigbeder. Questa storia inizia quindi con un doppio incontro. Quello di Oona e Salinger, così determinante per la scrittura del Giovane Holden eppure così misconosciuto. E quello di Frédéric Beigbeder con questa storia: partito all'assalto del fortino dove il suo autore preferito vive recluso, capisce ben presto di non poterlo raggiungere e via via che i suoi tentativi di entrare in contatto con l'autore mitico vengono frustrati, il personaggio di Oona prende corpo nelle sue fantasie da scrittore. Un amore di Salinger è la storia del grande amore tra l'autore culto e la giovane Oona O'Neill: la storia di quello che sarebbe potuto accadere, di quello che Frédéric Beigbeder immagina sia accaduto e di quello che rimane nelle lettere che Salinger le scrive dal fronte. Il ritratto di due personaggi leggendari, di un amore assoluto sempre mancato, del rapporto di uno scrittore con l'assenza di un altro scrittore.

Simone Verovio - Augusta Campagne 2020-10-09

Simone Verovio was the first printer to produce a substantial number of musical prints using engraved copper plates. This intaglio printing technique not only allowed him to print on demand, but also to combine different kinds of notation on one page opening: voice parts with corresponding harpsichord and lute intabulations. This detailed comparison of intaglio and relief printing techniques in the editions associated with Verovio sheds light on the production of sheet music around 1600 and the comparison of the vocal and instrumental parts provides ground-breaking insights into historical performance practice. Poetics and Politics - Toni Bernhart 2018-08-21

Far from teleological historiography, the pan-European perspective on Early Modern drama offered in this volume provides answers to why, how, where and when the given phenomena of theatre appear in history. Using theories of circulation and other concepts of exchange, transfer and movement, the authors analyze the development and differentiation of European secular and religious drama, within the disciplinary framework of comparative literature and the history of literature and concepts. Within this frame, aspects of major interest are the relationship between tradition and innovation, the status of genre, the proportion of autonomous and heteronomous creational dispositions within the artefacts or genres they belong to, as well as strategies of functionalization in the context of a given part of the cultural net. Contributions cover a broad range of topics, including poetics of Early Modern Drama; political, institutional and social practices; history of themes and motifs (Stoffgeschichte); history of genres/cross-fertilization between genres; textual traditions and distribution of texts; questions of originality and authorship; theories of circulation and network structures in Drama Studies.

Machiavelli - Maurizio Viroli 1998-07-30

Founders of Modern Political and Social Thought Series Editor: Dr Mark Philp, Oriel College, University of Oxford Founders of Modern Political and Social Thought present critical examinations of the work of major political philosophers and social theorists, assessing both their initial contribution and continuing relevance to politics and society. Each volume provides a clear, accessible, historically-informed account of each thinker's work, focusing on a re-assessment of their central ideas and arguments. Founders encourage scholars and students to link their study of classic texts to current debates in political philosophy and social theory. This launch volume in the Founders of Modern Political and Social Thought series presents a critical examination of Machiavelli's thought, combining an accessible, historically-informed account of his work with a re-assessment of his central ideas and arguments. Maurizio Viroli challenges the accepted interpretations of Machiavelli's work, insisting that his republicanism was based not on a commitment to virtue, greatness, and expansion, but to the ideal of civic life protected by the shield of fair laws. His detailed study of how Machiavelli composed his famous work *The Prince* presents new interpretations, and he further argues that the most challenging and completely underestimated aspect of Machiavelli's thought is his philosophy of life, in particular his conceptions of love, women, irony, God, and the human condition. Viroli demonstrates that Machiavelli composed *The Prince*, and all his works, according to the rules of classical rhetoric and never intended to found the 'modern science of politics', aiming rather to continue and refine the practice of political theorising as a rhetorical endeavour taught by the Roman masters of civic philosophy. Viroli's Machiavelli, a serious challenge to contemporary methods of doing political theory, will be essential for advanced students of the history of political thought.

Operatic Pasticcios in 18th-Century Europe - Berthold Over 2021-04-30

In Early Modern times, techniques of assembling, compiling and arranging pre-existing material were part of the established working methods in many arts. In the world of 18th-century opera, such practices ensured that operas could become a commercial success because the substitution or compilation of arias fitting the singer's abilities proved the best recipe for fulfilling the expectations of audiences. Known as »pasticcios« since the 18th-century, these operas have long been considered inferior patchwork. The volume collects essays that reconsider the pasticcio, contextualize it, define its preconditions, look at its material aspects and uncover its aesthetical principles.

The Boundaries of Europe - Pietro Rossi 2015-04-24

Europe's boundaries have mainly been shaped by cultural, religious, and political conceptions rather than by geography. This volume of bilingual essays from renowned European scholars outlines the transformation of Europe's boundaries from the fall of the ancient world to the age of decolonization, or the end of the explicit endeavor to "Europeanize" the world. From the decline of the Roman Empire to the polycentrism of today's world, the essays span such aspects as the confrontation of Christian Europe with Islam and the changing role of the Mediterranean from "mare nostrum" to a frontier between nations. Scandinavia, eastern Europe and the Atlantic are also analyzed as boundaries in the context of exploration, migratory movements, cultural exchanges, and war. *The Boundaries of Europe*, edited by Pietro Rossi, is the first installment in the ALLEA book series *Discourses on Intellectual Europe*, which seeks to

explore the question of an intrinsic or quintessential European identity in light of the rising skepticism towards Europe as an integrated cultural and intellectual region.

Writing and Performing Female Identity in Italian Culture - Virginia Picchiotti 2017-01-28

This volume investigates the ways in which Italian women writers, filmmakers, and performers have represented female identity across genres from the immediate post-World War II period to the turn of the twenty-first century. Considering genres such as prose, poetry, drama, and film, these essays examine the vision of female agency and self-actualization arising from women artists' critique of female identity. This dual approach reveals unique interpretations of womanhood in Italy spanning more than fifty years, while also providing a deep investigation of the manipulation of canvases historically centered on the male subject. With its unique coupling of generic and thematic concerns, the volume contributes to the ever expanding female artistic legacy, and to our understanding of postwar Italian women's evolving relationship to the narration of history, gender roles, and these artists' use and revision of generic convention to communicate their vision.
