Who Runs the Church? - Zondervan, 2009-05-26

Churches have split and denominations have formed over the issue of church government. While many Christians can explain their church's form of rule or defend it because of its "tried and true" traditions, few people understand their church's administrative customs from a biblical perspective. *Who Runs the Church?* explores questions such as: What model for governing the church does the Bible provide, and is such a model given for practical or spiritual reasons? Is there room for different methods within Christianity? Or is there a right way of "doing church"? And, finally, how (and by whom) should the church be governed? Four predominant approaches to church government are presented by respected proponents: Episcopalianism - represented by Peter Toon Presbyterianism - represented by L. Roy Taylor Single-Elder

Congregationalism - represented by Paige Patterson Plural-Elder Congregationalism - represented by Samuel E. Waldron As in other Counterpoints books, each view is followed by critiques from the other contributors, and its advocate then responds.

Native American Catholic Studies Reader - David J. Endres 2022-08-12

Before there was an immigrant American Church, there was a Native American Church. The Native American Catholic Studies Reader offers an introduction to the story of how Native

American Catholicism has developed over the centuries, beginning with the age of the missions and leading to inculturated, indigenous forms of religious expression. Though the Native-Christian relationship could be marked by tension, coercion, and even violence, the Christian faith took root among Native Americans and for those who accepted it and bequeathed it to future generations it became not an imposition, but a way of expressing Native identity. From the perspective of historians and theologians, the Native American Catholic Studies Reader offers a curated collection of essays divided into three sections: education and evangelization; tradition and transition; and Native American lives. Contributors include scholars currently working in the field: Mark Clatterbuck, Damian Costello, Conor J. Donnan, Ross Enochs, Allan Greer, Mark G. Thiel, and Christopher Vecsey, as well as selections from a past generation: Gerald McKeivitt, SJ, and Carl F. Starkloff, SJ. These

contributions explore the interaction of missionaries and tribal leaders, the relationship of traditional Native cosmology and religiosity to Christianity, and the role of geography and tribal consciousness in accepting and maintaining indigenous and religious identities. These readings highlight the state of the emergent field of Native-Catholic studies and suggest further avenues for research and publication. For scholars, teachers, and students, the Native American Catholic Studies Reader explores how the faith of the American Church's eldest members became a means of expressing and celebrating language, family, and tribe.

Cosmopolitan Sociability - Tsypylma Darieva
2014-06-11

This book approaches the concept of cosmopolitan sociability as a cultural or territorial rootedness that facilitates a simultaneous openness to shared human emotions, experiences, and aspirations. *Cosmopolitan Sociability* critiques definitions of cosmopolitanism as a tolerance for cultural difference or a universalist morality that arise from contemporary experiences of mobility and globalization. Challenging these assumptions, the book explores the degree to which a 'cosmopolitan dimension' can be practised within particular religious communities, diasporic ties, or gendered migrant identities in different parts of the world. A wide variety of expert contributors offer rich ethnographic insights into the interplay of social interactions and cosmopolitan sociability. In this way the book contributes significantly to ethnic and migration studies, global anthropology, social theory, and religious and cultural studies. *Cosmopolitan Sociability* was originally

published as a special issue of *Ethnic and Racial Studies*.

[The Eucharistic Liturgies](#) - Paul F. Bradshaw
2012-06-01

In graduate theology programs across the United States and elsewhere, Maxwell Johnson's *The Rites of Christian Initiation: Their Evolution and Interpretation* has become a standard text. Now Johnson and Paul Bradshaw together offer a companion volume on the historical development of the liturgy and theology of the Eucharist. Like the earlier volume, this study

proceeds historically, from the origins of the Eucharist up to our own day. Unlike most studies of this kind, it includes an introduction to and developmental summary of the diverse eucharistic liturgies of the Christian East. It also explores the various Western rites (Ambrosian, Gallican, and Mozarabic) in addition to the Roman. With regard to theological themes, the authors give special attention to the topics of real presence (including the "consecration" of the bread and wine) and eucharistic sacrifice, the most central and most ecumenically challenging issues since the sixteenth-century Reformations. Making the book especially teacher- and student-friendly are the summary points at the end of each chapter. Each chapter also contains an abundance of liturgical texts for ease of reference.

Popular Catholicism in 20th-Century Ireland - Síle de Cléir 2017-10-05

For much of the 20th century, Catholics in Ireland spent significant amounts of time engaged in religious activities. This book documents their experience in Limerick city between the 1920s and 1960s, exploring the

connections between that experience and the wider culture of an expanding and modernising urban environment. Síle de Cléir discusses topics including ritual activities in many contexts: the church, the home, the school, the neighbourhood and the workplace. The supernatural belief underpinning these activities is also important, along with creative forms of resistance to the high levels of social control exercised by the clergy in this environment. De Cléir uses a combination of in-depth interviews and historical ethnographic sources to reconstruct the day-to-day religious experience of Limerick city people during the period studied. This material is enriched by ideas drawn from anthropological studies of religion, while perspectives from both history and ethnology also help to contextualise the discussion. With its unique focus on everyday experience, and combination of a traditional worldview with the modernising city of Limerick - all set against the backdrop of a newly-

independent Ireland - Popular Catholicism in 20th-century Ireland presents a fascinating new perspective on 20th-century Irish social and religious history.

Modes of Religiosity in Eastern Christianity -

Vlad Naumescu 2007

This volume offers original insights into the

religious transformations taking place in postsocialist western Ukraine. Applying a cognitive theory based on two modes of religiosity, the doctrinal and the imagistic, author Vlad Naumescu reveals the mechanisms of reproduction and change that make the local eastern Christian tradition a living tradition of faith. He combines rich ethnographic materials with historical and theological sources to depict a religion in equilibrium between the two modes, maintaining revelation at the core of its doctrinal corpus. He argues that religion is a potential source for social change that empowers people to act upon reality and transform it. With his innovative exploration of the dynamics of an eastern Christian tradition, Naumescu makes a major contribution to the emerging anthropology of Christianity as well as to studies of postsocialism.

Liturgy In Migration - Teresa Berger 2012-12-01

Liturgy migrates. That is, liturgical practices, forms, and materials have migrated and continue to migrate across geographic, ethnic, ecclesial, and chronological boundaries. *Liturgy in Migration* offers the contributions of scholars who took part in the Yale Institute of Sacred Music's 2011 international liturgy conference on this topic. Presenters explored the nature of liturgical migrations and flows, their patterns, directions, and characteristics. Such migrations are always wrapped in their social and cultural contexts. With this in mind, these essays recalibrate, for the twenty-first century, older work on liturgical inculturation. They allow

readers to better understand contemporary

liturgical flows in the light of important and fascinating migrations of the past.
