Set in two Venices, the modern physical world and its virtual counterpart, The Abomination by Jonathan Holt is a propulsive tale of murder, corruption, and international intrigue—the first book in an outstanding new trilogy in which Carabinieri Captain Kat Tapo must unravel a dark conspiracy linking the CIA and the Catholic Church. By the stunning white dome of one of Venice's grandest landmarks a body with two slugs in the back of the head has been pulled from the icy waters. The victim is a woman, dressed in the sacred robes of a Catholic priest—a desecration that becomes known as the Abomination. Working her first murder case, Captain Kat Tapo embarks on a trail that proves as elusive and complicated as the city's labyrinthine backstreets. What Kat

discovers will test her loyalties and remind her of a simple truth: Unless old crimes are punished, corrupt forces will continue to repeat their mortal sins. The Abomination is book one of Jonathan Holt's Carnivia Trilogy.

Through a Glass Darkly - J. Sheridan Le Fanu 2016-09-03

This collection of stories, first published in 1872, includes Green Tea, The Familiar, Mr. Justice Harbottle, The Room in the Dragon Volant, and Carmilla. The five stories are purported to be cases by Dr. Hesselius, a 'metaphysical' doctor, who is willing to consider the ghosts both as real and as hallucinatory obsessions. The reader's doubtful anxiety mimics that of the protagonist, and each story thus creates that atmosphere of mystery which is the supernatural experience. This new edition includes alternate versions of some stories and a brief biography of the author.

The Road to Los Angeles - John Fante 2010-05-18

I had a lot of jobs in Los Angeles Harbor because our family was poor and my father was dead. My first job was ditchdigging a short time after I graduated from high school. Every night I couldn't sleep from the pain in my back. We were digging an excavation in an empty lot, there wasn't any shade, the sun came straight from a cloudless sky, and I was down in that hole digging with two huskies who dug with a love for it, always laughing and telling jokes, laughing and smoking bitter tobacco.

Dreams from Bunker Hill - John Fante 2010-05-18

My first collision with fame was hardly memorable. I was a busboy at Marx's Deli. The year was 1934. The place was Third and Hill, Los Angeles. I was twenty-one years old, living in a world bounded on the west by Bunker Hill, on the east by Los Angeles Street, on the south by Pershing Square, and on the north by Civic Center. I was a busboy nonpareil, with great verve and style for the profession, and though I was dreadfully underpaid (one dollar a day plus meals) I attracted considerable attention as I whirled from table to table, balancing a tray on one hand, and eliciting smiles from my customers. I had something else beside a waiter's skill to offer my patrons, for I was also a writer. Immaginario sexy. Guida ragionata ai tascabili erotici. Speciale Zora la vampira - Luca Mencaroni 2017

Art of Fernando Carcupino - 2019-07

This is the third volume in the Sex and Horror series, which celebrates the publishing craze known as "fumetti sexy: " Italian adult comics and cartoons with a unique take on such genres as horror, crime, fantasy, history, and fairy tales. Their huge success in the 1960s and '70s was due in part to their uninhibited mix of twisted humor, gory violence, and up-front eroticism, but the element that makes them so collectable today is their technicolor cover illustrations, rendered by classically trained painters. This book focuses on the work of Fernando Carcupino, famed not just for his comic work but his pinups, as well.

Ending the Terror - Bronislaw Baczko 1994-07-28

A major assessment of a crucial moment in the history of the French Revolution - the fall of Robespierre in July 1794.

The French Revolution, 1788-1792 - Prof. Gaetano Salvemini 2018-03-12

"The first English translation of what has long been considered a classic in Europe...it is easy to see why the work has been held in such esteem abroad."—The New Yorker THE word 'revolution' may mean either the forcible overthrow of an established social or political order or any great change brought about in a pre-existing situation, even slowly and without violence. The word can be used in both senses for the upheaval that took place in France towards the end of the eighteenth century. In so far as it consisted in the violent destruction of the feudal and monarchical régime, the French Revolution may be said to have come to an end on September 21st, 1792, when the monarchy was formally abolished. But as the creation of a new social and political order it continued until the coup d'état of Brumaire, indeed, up to the time of the Consulate for Life,

when nineteenth-century France appeared finally constituted. This book is concerned with the French Revolution as understood in the first sense. Its aim is to explain why and in what way the feudal monarchy was destroyed. In this endeavour it has been necessary to present the four revolutionary years in relation to a complex system of cause and effect the origins of which must be traced to former times, often centuries before the Revolution itself. A considerable part of the book, therefore, is devoted to social conditions, ideas and events chronologically remote from, but logically bound up with, the revolutionary period. The author's aim has been, not to bring new facts to light, but simply to put before his readers, in a rapid synthesis, the conclusions he has reached in the course of extensive study of the subject.

In addition to the many "small and delightful surprises" that noted animation historian (and author of *The Animated Man: A Life of Walt Disney*) Michael Barrier mentions in his preface to the book, *Disney's Grand Tour* features over 200 notes for those inclined to dig deeper into the story. A History of Contemporary Italy - Paul Ginsborg 1990-09-27

In this long-awaited book (already a major bestseller in Italy) Ginsborg has created a fascinating, sophisticated and definitive account of how Italy has coped, or failed to cope, with the past two decades. Contemporary Italy strongly mirrors Britain - the countries have roughly the same extent, population size and GNP - and yet they are fantastically different. Ginsborg sees this difference as most fundamentally clear in the role of the family and it is the family which is at the heart of Italian politics and business. Anyone wishing to understand contemporary Italy will find it essential to have this enormously attractive and intelligent book.

Rethinking Cultural Policy - Jim McGuigan 2004-03-16

"a fascinating, thorough and expertly argued discussion of the modes and practices of cultural policy in an increasingly globalized and neoliberal world." *European Journal of Communication* *Rethinking Cultural Policy* addresses issues concerning culture, economy and power in the age of new-liberal globalization. It examines how public cultural policies have been rationalized in the past and how they are being rethought. Arguing that the study of culture and policy should not be confined to prevailing governmental agendas, the book offers a distinctive and independent analysis of cultural policy. The book examines a wide range of issues in cultural policy and blends a close reading of key theories with case studies. Topics covered include: Branding culture and exploitation The state, market and civil society

How visitor attractions such as London's Millennium Dome are used for national aggrandizement and corporate business purposes Cultural development, diversity and ecological tourism in poorer parts of the world This is the ideal introduction to contemporary cultural policy for undergraduate students in culture and media studies, sociology of culture, politics, arts administration and cultural management courses, as well as postgraduates and researchers.

Comics and the Senses - Ian Hague 2014-01-10

Attempts to define what comics are and explain how they work have not always been successful because they are premised upon the idea that comic strips, comic books and graphic novels are inherently and almost exclusively visual. This book challenges that premise, and asserts that comics is not just a visual medium. The book outlines the multisensory

aspects of comics: the visual, audible, tactile, olfactory and gustatory elements of the medium. It rejects a synaesthetic approach (by which all the senses are engaged through visual stimuli) and instead argues for a truly multisensory model by which the direct stimulation of the reader's physical senses can be understood. A wide range of examples demonstrates how multisensory communication systems work in both commercial and more experimental contexts. The book concludes with a case study that looks at the works of Alan Moore and indicates areas of interest that multisensory analysis can draw out, but which are overlooked by more conventional approaches.

Radical Gestures - Jayne Wark 2006-08-14

Wark brings together a wide range of artists, including Lisa Steele, Martha Rosler, Lynda Benglis, Gillian Collyer, Margaret Dragu, and Sylvie Tourangeau, and provides detailed readings and viewings of individual pieces, many of which have not been studied in detail before.
