

La Cucina Futurista

Thank you utterly much for downloading **La Cucina Futurista**. Most likely you have knowledge that, people have seen numerous periods for their favorite books later than this *La Cucina Futurista*, but stop in the works in harmful downloads.

Rather than enjoying a fine book considering a mug of coffee in the afternoon, otherwise they juggled next some harmful virus inside their computer. **La Cucina Futurista** is easy to get to in our digital library an online entry to it is set as public appropriately you can download it instantly. Our digital library saves in compound countries, allowing you to acquire the most less latency epoch to download any of our books later than this one. Merely said, the *La Cucina Futurista* is universally compatible when any devices to read.

Elemental Narratives - Enrico Cesaretti 2020-09-29
Over the past century, the Italian landscape has undergone exceedingly rapid transformations, shifting from a mostly rural environment to a decidedly modern world. This changing landscape is endowed with a narrative agency that transforms how we understand our surroundings. Situated at the juncture of Italian studies and ecocriticism and following

the recent “material turn” in the environmental humanities, *Elemental Narratives* outlines an original cultural and environmental map of the *bel paese*. Giving equal weight to readings of fiction, nonfiction, works of visual art, and physical sites, Enrico Cesaretti investigates the interconnected stories emerging from both human creativity and the expressive eloquence of “glocal” materials, such as

sulfur, petroleum, marble, steel, and asbestos, that have helped make and, simultaneously, “un-make” today’s Italy, affecting its socio-environmental health in multiple ways. Embracing the idea of a decentralized agency that is shared among human and nonhuman entities, Cesaretti suggests that engaging with these entangled discursive and material texts is a sound and revealing ecocritical practice that promises to generate new knowledge and more participatory, affective responses to environmental issues, both in Italy and elsewhere. Ultimately, he argues that complementing quantitative, data-based information with insights from fiction and nonfiction, the arts, and other humanistic disciplines is both desirable and crucial if we want to modify perceptions and attitudes, increase our awareness and understanding, and, in turn, develop more sustainable worldviews in the era of the Anthropocene.

Elegantly written and convincingly argued, this book will appeal broadly to scholars and students working in the fields of environmental studies, comparative literatures, ecocriticism, environmental history, and Italian studies. *Transatlantic Trade and Global Cultural Transfers Since 1492* - Martina Kaller 2019-08-14

Access to new plants and consumer goods such as sugar, tobacco, and chocolate from the beginning of the sixteenth century onwards would massively change the way people lived, especially in how and what they consumed. While global markets were consequently formed and provided access to these new commodities that increasingly became important in the ‘Old World’, especially with regard to the establishment early modern consumer societies. This book brings together specialists from a range of historical fields to analyse the establishment of these commodity chains from the Americas to Europe as well as their cultural implications.

International Futurism in Arts and Literature - G

Uter·Berghaus 2000

This publication offers for the first time an inter-disciplinary and comparative perspective on Futurism in a variety of countries and artistic media. 20 scholars discuss how the movement shaped the concept of a cultural avant-garde and how it influenced the development of modernist art and literature around the world.

Why Italians Love to Talk

About Food - Elena

Kostioukovitch 2009-10-13

Italians love to talk about food.

The aroma of a simmering ragú, the bouquet of a local wine, the remembrance of a past meal: Italians discuss these details as naturally as we talk about politics or sports, and often with the same flared tempers. In *Why Italians Love to Talk About Food*, Elena Kostioukovitch explores the phenomenon that first struck her as a newcomer to Italy: the Italian "culinary code," or way of talking about food. Along the way, she captures the fierce

local pride that gives Italian cuisine its remarkable diversity. To come to know Italian food is to discover the differences of taste, language, and attitude that separate a Sicilian from a Piedmontese or a Venetian from a Sardinian. Try tasting Piedmontese bagna cauda, then a Lombard cassoela, then lamb ala Romana: each is part of a unique culinary tradition. In this learned, charming, and entertaining narrative, Kostioukovitch takes us on a journey through one of the world's richest and most adored food cultures.

Organized according to region and colorfully designed with illustrations, maps, menus, and glossaries, *Why Italians Love to Talk About Food* will allow any reader to become as versed in the ways of Italian cooking as the most seasoned of chefs. Food lovers, history buffs, and gourmands alike will savor this exceptional celebration of Italy's culinary gifts.

One Hundred Years of Futurism - John London
2018-01-01

Downloaded from
wedgefitting.clevelandgolf.com
on by guest

More than one hundred years after Futurism exploded onto the European stage with its unique brand of art and literature, there is a need to reassess the whole movement, from its Italian roots to its international ramifications. In wide-ranging essays based on fresh research, the contributors to this collection examine both the original context and the cultural legacy of Futurism. Chapters touch on topics such as Futurism and Fascism, the geopolitics of Futurism, the Futurist woman, and translating Futurist texts. A large portion of the book is devoted to the practical aspects of performing Futurist theatrical ideas in the twenty-first century.

Performing National Identity - 2008-01-01

National identity is not some naturally given or metaphysically sanctioned racial or territorial essence that only needs to be conceptualised or spelt out in discursive texts; it emerges from, takes shape in, and is constantly defined and

redefined in individual and collective performances. It is in performances—ranging from the scenarios of everyday interactions to ‘cultural performances’ such as pageants, festivals, political manifestations or sports, to the artistic performances of music, dance, theatre, literature, the visual and culinary arts and more recent media—that cultural identity and a sense of nationhood are fashioned. National identity is not an essence one is born with but something acquired in and through performances. Particularly important here are intercultural performances and transactions, and that not only in a colonial and postcolonial dimension, where such performative aspects have already been considered, but also in inner-European transactions. ‘Englishness’ or ‘Britishness’ and Italianità, the subject of this anthology, are staged both within each culture and, more importantly, in joint performances of difference across cultural borders. Performing difference

Downloaded from
wedgefitting.clevelandgolf.com
on by guest

highlights differences that 'make a difference'; it 'draws a line' between self and other—boundary lines that are, however, constantly being redrawn and renegotiated, and remain instable and shifting.

Eleven Exercises in the Art of Architectural Drawing - Marco Frascari 2011-03-08

This book deals with the critical nature and crucial role of architectural drawings. A manual which is essentially not a manual; it is an elucidation of an elegant manner for practising architecture.

Organized around eleven exercises, the book does not emphasize speed, nor incorporate many timesaving tricks typical of drawing books, but rather proposes a slow, meditative process for construing drawings and for drawing constructing thoughts. This is an indispensable reference text and an effective textbook for students seeking to advance their appreciation of the nature and exercise of architectural drawings.

Italian Cuisine - Alberto Capatti 2003

This magnificent new book demonstrates the development of a distinctive, unified culinary tradition throughout the Italian peninsula. Thematically organized and beautifully illustrated, Italian Cuisine is a rich history of the ingredients, dishes, techniques, and social customs behind the Italian food we know and love today.

2019 - Günter Berghaus
2019-12-16

The ninth volume of the International Yearbook of Futurism Studies is dedicated to Russian Futurism and gathers ten studies that investigate the impact of F.T. Marinetti's visit to Russia in 1914; the neglected region of the Russian Far East; the artist and writers Velimir Khlebnikov, Vasily Kamensky, Maria Siniakova and Vladimir Mayakovsky; the artistic media of advertising, graphic arts, cinema and artists' books.

Gastronomy of Italy - Anna Del Conte 2013-11-04

Gastronomy of Italy - the seminal work on Italian food, first published in the 1990s - is revised and updated and

Downloaded from
wedgetfitting.clevelandgolf.com
on by guest

illustrated with new photography. This classic book leaves no stone unturned in its exploration of Italian gastronomy. Anna Del Conte, the doyenne of Italian cooking, defines the country's regions, ingredients, dishes and techniques for a new generation in her comprehensive explanation of its culinary terms. This simple A-Z format covers all elements of Italian gastronomy from *abbacchio* to *zuppe inglese*. There are over 200 recipes, including the great dishes from every major region of Italy. Variations on the classics - pasta, polenta, *gnocchi*, risotto and pizzas - sit alongside Anna's recipes for versions of Italian favourites, such as *peperonata*, lamb fricassée, *ossobuco* and less well-known regional specialities. Specially commissioned photographs of the dishes, ingredients and techniques along with maps of the regions, makes this a truly unique and invaluable book. This new digital edition allows the reader to navigate, bookmark, and search the

content quickly, as well as provide useful links between recipes. Word count: 197,000
Handbook of International Futurism - Günter Berghaus
2018-12-17

The Handbook of International Futurism is the first reference work ever to presents in a comparative fashion all media and countries in which the movement, initiated by F.T. Marinetti in 1909, exercised a particularly noteworthy influence. The handbook offers a synthesis of the state of scholarship regarding the international radiation of Futurism and its influence in some fifteen artistic disciplines and thirty-eight countries. While acknowledging the great achievements of the movement in the visual and literary arts of Italy and Russia, it treats Futurism as an international, multidisciplinary phenomenon that left a lasting mark on the manifold artistic manifestations of the early twentieth-century avant-garde. Hundreds of artists, who in some phase in their career absorbed Futurist ideas and stylistic devices, are

Downloaded from
wedgefitting.clevelandgolf.com
on by guest

presented in the context of their national traditions, their international connections and the media in which they were predominantly active. The handbook acts as a kind of multi-disciplinary, geographical encyclopaedia of Futurism and gives scholars with varying levels of experience a detailed overview of all countries and disciplines in which the movement had a major impact.

Back to the Futurists - Elza Adamowicz 2015-11-01

In 1909 the Italian poet Filippo Tommaso Marinetti's Founding Manifesto of Futurism was published on the front page of *Le Figaro*. Between 1909 and 1912 the Futurists published over thirty manifestos, celebrating speed and danger, glorifying war and technology, and advocating political and artistic revolution. This collection of essays aims to reassess the activities of the Italian Futurist movement from an international and interdisciplinary perspective, focusing on its activities and legacies in the field of poetry, painting, sculpture, theatre,

cinema, advertising and politics. The essays offer exciting new readings in gender politics, aesthetics, historiography, intermediality and interdisciplinarity. They explore the works of major players of the movement as well as its lesser-known figures, and the often critical impact of Futurism on contemporary or later avant-garde movements such as Cubism, Dada and Vorticism. The publication will be of interest to scholars and students of European art, literature and cultural history, as well as to the informed general public.

Gastropolis - Annie Hauck-Lawson 2010-08-13

An irresistible sampling of the city's rich food heritage, *Gastropolis* explores the personal and historical relationship between New Yorkers and food. Beginning with the origins of New York's fusion cuisine, such as Mt. Olympus bagels and Puerto Rican lasagna, the book describes the nature of food and drink before the arrival of

Europeans in 1624 and offers a history of early farming practices. Specially written essays trace the function of place and memory in Asian cuisine, the rise of Jewish food icons, the evolution of food enterprises in Harlem, the relationship between restaurant dining and identity, and the role of peddlers and markets in guiding the ingredients of our meals. They share spice-scented recollections of Brooklyn, Queens, and the Bronx, and colorful vignettes of the avant-garde chefs, entrepreneurs, and patrons who continue to influence the way New Yorkers eat.

Delizia! - John Dickie

2008-01-08

Buon appetito! Everyone loves Italian food. But how did the Italians come to eat so well? The answer lies amid the vibrant beauty of Italy's historic cities. For a thousand years, they have been magnets for everything that makes for great eating: ingredients, talent, money, and power. Italian food is city food. From

the bustle of medieval Milan's marketplace to the banqueting halls of Renaissance Ferrara; from street stalls in the putrid alleyways of nineteenth-century Naples to the noisy trattorie of postwar Rome: in rich slices of urban life, historian and master storyteller John Dickie shows how taste, creativity, and civic pride blended with princely arrogance, political violence, and dark intrigue to create the world's favorite cuisine.

Delizia! is much more than a history of Italian food. It is a history of Italy told through the flavors and character of its cities. A dynamic chronicle that is full of surprises, *Delizia!* draws back the curtain on much that was unknown about Italian food and exposes the long-held canards. It interprets the ancient Arabic map that tells of pasta's true origins, and shows that Marco Polo did not introduce spaghetti to the Italians, as is often thought, but did have a big influence on making pasta a part of the American diet. It seeks out the medieval recipes that reveal

Downloaded from
wedgefitting.clevelandgolf.com
on by guest

Italy's long love affair with exotic spices, and introduces the great Renaissance cookery writer who plotted to murder the Pope even as he detailed the aphrodisiac qualities of his ingredients. It moves from the opulent theater of a Renaissance wedding banquet, with its gargantuan ten-course menu comprising hundreds of separate dishes, to the thin soups and bland polentas that would eventually force millions to emigrate to the New World. It shows how early pizzas were disgusting and why Mussolini championed risotto. Most important, it explains the origins and growth of the world's greatest urban food culture. With its delectable mix of vivid storytelling, groundbreaking research, and shrewd analysis, *Delizia!* is as appetizing as the dishes it describes. This passionate account of Italy's civilization of the table will satisfy foodies, history buffs, Italophiles, travelers, students -- and anyone who loves a well-told tale.

Italians and Food - Roberta

Sassatelli 2019-05-18

This book is a novel and original collection of essays on Italians and food. Food culture is central both to the way Italians perceive their national identity and to the consolidation of Italianicity in global context. More broadly, being so heavily symbolically charged, Italian foodways are an excellent vantage point from which to explore consumption and identity in the context of the commodity chain, and the global/local dialectic. The contributions from distinguished experts cover a range of topics including food and consumer practices in Italy, cultural intermediators and foodstuff narratives, traditions of production and regional variation in Italian foodways, and representation of Italianicity through food in old and new media. Although rooted in sociology, *Italians and Food* draws on literature from history, anthropology, semiotics and media studies, and will be of great interest to students and scholars of food studies, consumer culture,

Downloaded from
wedgefitting.clevelandgolf.com

cultural sociology, and contemporary Italian studies.

Contro la pastasciutta. Il manifesto della cucina futurista - Filippo T. Marinetti 2015-01

La cucina futurista. Ediz. integrale - Filippo Tommaso Marinetti 2019

2020 - Günter Berghaus 2020-11-23
Volume 10 examines how the innovative impulses that came from Italy were creatively merged with indigenous traditions and how many national variants of Futurism emerged from this fusion. Ten essays investigate various aspects of Italian Futurism and its links to Austria, Georgia, France, Hungary and Portugal and in fields such as Typography, Olfaction, Photography. Section 2 examines seven examples of caricatures and satires of Futurism in the contemporary press, followed by Section 3, reporting on the Archiv der Avantgarden (AdA) in Dresden. Section 4 communicates

bibliographic details of 120 book publications on Futurism in the period 2017-2020, including exhibition catalogues, conference proceedings and editions.

La cucina futurista. F.T. Marinetti e Fillia - Filippo Tommaso Marinetti 1932

Futurist Women - Paola Sica 2016-01-26

Futurist Women broadens current debates on Futurism and literary studies by demonstrating the expanding global impact of women Futurist artists and writers in the period succeeding the First World War. This study initially focuses on the local: the making of the self in the work by the women who were affiliated with the journal L'Italia futurista during World War I in Florence. But then it broadens its field of inquiry to the global. It compares the achievements of these women with those of key precursors and followers. It also conceives these women's work as an ongoing dialogue with contemporary political and

scientific trends in Europe and North America, especially first wave feminism, eugenics, naturism and esotericism. Finally, it examines the vital importance and repercussions of these women's ideas in current debates on gender and the posthuman condition. This ground-breaking study will prove invaluable for all scholars and upper-level students of modern European literature, Futurism, and gender studies.

Italian Identity in the Kitchen, or, Food and the Nation -

Massimo Montanari

2013-07-16

How regional Italian cuisine became the main ingredient in the nation's political and cultural development.

Feeding Fascism - Diana

Garvin 2022-02-07

Feeding Fascism uses food as a lens to examine how women's efforts to feed their families became politicized under the Italian dictatorship.

The Futurist Cookbook -

Filippo Tommaso Marinetti

2014-05-01

Both madcap cookbook and

manifesto on Futurism, Marinetti's exuberant and entertaining book has been described as one of 'the best artistic jokes of the century' No other cultural force except the early twentieth-century avant-garde movement Futurism has produced a provocative work about art disguised as an easy-to-read cookbook. Part manifesto, part artistic joke, Filippo Marinetti's *The Futurist Cookbook* is a collection of recipes, experiments, declamations and allegorical tales. Here are recipes for ice cream on the moon; candied atmospheric electricities; nocturnal love feasts; sculpted meats. Marinetti also sets out his argument for abolishing pasta as ill-suited to modernity, and advocates a style of cuisine that will increase creativity. Although at times betraying its author's nationalistic sympathies, *The Futurist Cookbook* is funny, provocative, whimsical, disdainful of sluggish traditions and delighted by the velocity and promise of modernity.

Filippo Tommaso Marinetti was born in 1876 to Italian parents and grew up in Alexandria, Egypt, where he was nearly expelled from his Jesuit school for championing scandalous literature. He then studied in Paris and obtained a law degree in Italy before turning to literature. In 1909 he wrote the infamous Futurist Manifesto, which championed violence, speed and war, and proclaimed the unity of art and life. Marinetti's life was fraught with controversy: he fought a duel with a hostile critic, was subject to an obscenity trial, and was a staunch supporter of Italian Fascism. Alongside his literary activities, he was a war correspondent during the Italo-Turkish War and served on the Eastern Front in World War II, despite being in his sixties. He died in 1944. 'A paean to sensual freedom, optimism and childlike, amoral innocence ... it has only once been answered, by Aldous Huxley's Brave New World' Lesley Chamberlain

Italian Literature since 1900 in English Translation

1929-2016 - Robin Healey
2019-03-07

Providing the most complete record possible of texts by Italian writers active after 1900, this annotated bibliography covers over 4,800 distinct editions of writings by some 1,700 Italian authors. Many entries are accompanied by useful notes that provide information on the authors, works, translators, and the reception of the translations. This book includes the works of Pirandello, Calvino, Eco, and more recently, Andrea Camilleri and Valerio Manfredi. Together with Robin Healey's Italian Literature before 1900 in English Translation, also published by University of Toronto Press in 2011, this volume makes comprehensive information on translations from Italian accessible for schools, libraries, and those interested in comparative literature.

Encyclopedia of Italian Literary Studies - Gaetana Marrone 2006-12-26

The Encyclopedia of Italian Literary Studies is a two-

Downloaded from
wedgefitting.clevelandgolf.com
on by guest

volume reference book containing some 600 entries on all aspects of Italian literary culture. It includes analytical essays on authors and works, from the most important figures of Italian literature to little known authors and works that are influential to the field. The Encyclopedia is distinguished by substantial articles on critics, themes, genres, schools, historical surveys, and other topics related to the overall subject of Italian literary studies. The Encyclopedia also includes writers and subjects of contemporary interest, such as those relating to journalism, film, media, children's literature, food and vernacular literatures. Entries consist of an essay on the topic and a bibliographic portion listing works for further reading, and, in the case of entries on individuals, a brief biographical paragraph and list of works by the person. It will be useful to people without specialized knowledge of Italian literature as well as to scholars.

The Taste of Art - Silvia

Bottinelli 2017-06-01

The Taste of Art offers a sample of scholarly essays that examine the role of food in Western contemporary art practices. The contributors are scholars from a range of disciplines, including art history, philosophy, film studies, and history. As a whole, the volume illustrates how artists engage with food as matter and process in order to explore alternative aesthetic strategies and indicate countercultural shifts in society. The collection opens by exploring the theoretical intersections of art and food, food art's historical root in Futurism, and the ways in which food carries gendered meaning in popular film. Subsequent sections analyze the ways in which artists challenge mainstream ideas through food in a variety of scenarios. Beginning from a focus on the body and subjectivity, the authors zoom out to look at the domestic sphere, and finally the public sphere. Here are essays that study a range of artists

Downloaded from
wedgefitting.clevelandgolf.com

including, among others, Filippo Tommaso Marinetti, Daniel Spoerri, Dieter Roth, Joseph Beuys, Al Ruppertsberg, Alison Knowles, Martha Rosler, Robin Weltsch, Vicki Hodgetts, Paul McCarthy, Luciano Fabro, Carries Mae Weems, Peter Fischli and David Weiss, Janine Antoni, Elżbieta Jabłońska, Liza Lou, Tom Marioni, Rirkrit Tiravanija, Michael Rakowitz, and Natalie Jeremijenko.

Futurism and the Technological Imagination - 2016-08-09

This volume, *Futurism and the Technological Imagination*, results from a conference of the International Society for the Study of European Ideas in Helsinki. It contains a number of re-written conference contributions as well as several specially commissioned essays that address various aspects of the Futurists' relationship to technology both on an ideological level and with regard to their artistic languages. In the early twentieth century, many art movements vied with each other to overhaul the aesthetic

and ideological foundations of arts and literature and to make them suitable vehicles of expression in the new Era of the Machine. Some of the most remarkable examples came from the Futurist movement, founded in 1909 by Filippo Tommaso Marinetti. By addressing the full spectrum of Futurist attitudes to science and the machine world, this collection of 14 essays offers a multifaceted account of the complex and often contradictory features of the Futurist technological imagination. The volume will appeal to anybody interested in the history of modern culture, art and literature.

La cucina futurista - Filippo Tommaso Marinetti 1998

Filippo Tommaso Marinetti - Ernest Ialongo 2015-03-06
Filippo Tommaso Marinetti: The Artist and His Politics explores the politics of the leader of the Futurist art movement. Emerging in Italy in 1909, Futurism sought to propel Italy into the modern

world, and is famously known for outlandish claims to want to destroy museums and libraries in order to speed this transition. Futurism, however, also had a much darker political side. It glorified war as the solution to many of Italy's ills, and was closely tied to the Fascist Regime. In this book, Ialongo focuses on Marinetti as the chief determinant of Futurist politics and explores how a seemingly revolutionary art movement, at one point having some support among revolutionary left-wing movements in Italy, could eventually become so intimately tied to the repressive Fascist regime. Ialongo traces Marinetti's politics from before the foundation of Futurism, through the Great War, and then throughout the twenty-year Fascist dictatorship, using a wide range of published and unpublished sources. Futurist politics are presented within the wider context of developments in Italy and Europe, and Ialongo further highlights how Marinetti's

Downloaded from

political choices influenced the art of his movement.

Look and Feel - Harlan Walker
1994-01-01

(Prospect Books 1994)

Educated Tastes - Jeremy Strong
2011-11-01

The old adage "you are what you eat" has never seemed more true than in this era, when ethics, politics, and the environment figure so prominently in what we ingest and in what we think about it. Then there are connoisseurs, whose approaches to food address "good taste" and frequently require a language that encompasses cultural and social dimensions as well. From the highs (and lows) of connoisseurship to the frustrations and rewards of a mother encouraging her child to eat, the essays in this volume explore the complex and infinitely varied ways in which food matters to all of us. *Educated Tastes* is a collection of new essays that examine how taste is learned, developed, and represented. It spans such diverse topics as teaching wine tasting, food in

Don Quixote, Soviet cookbooks, cruel foods, and the lambic beers of the Belgian Payottenland. A set of key themes connect these topics: the relationships between taste and place; how our knowledge of food shapes taste experiences; how gustatory discrimination functions as a marker of social difference; and the place of ethical, environmental, and political concerns in debates around the importance and meaning of taste. With essays that address, variously, the connections between food, drink, and music; the place of food in the development of Italian nationhood; and the role of morality in aesthetic judgment, *Educated Tastes* offers a fresh look at food in history, society, and culture.

How Italian Food Conquered the World - John F. Mariani
2011-03-15

Not so long ago, Italian food was regarded as a poor man's gruel—little more than pizza, macaroni with sauce, and red wines in a box. Here, John Mariani shows how the Italian

Downloaded from
wedgetitting.clevelandgolf.com
on by guest

immigrants to America created, through perseverance and sheer necessity, an Italian-American food culture, and how it became a global obsession. The book begins with the Greek, Roman, and Middle Eastern culinary traditions before the boot-shaped peninsula was even called "Italy," then takes readers on a journey through Europe and across the ocean to America alongside the poor but hopeful Italian immigrants who slowly but surely won over the hearts and minds of Americans by way of their stomachs. Featuring evil villains such as the Atkins diet and French chefs, this is a rollicking tale of how Italian cuisine rose to its place as the most beloved fare in the world, through the lives of the people who led the charge. With savory anecdotes from these top chefs and restaurateurs: - Mario Batali - Danny Meyer - Tony Mantuano - Michael Chiarello - Giada de Laurentiis - Giuseppe Cipriani - Nigella Lawson And the trials and triumphs of these restaurants: - Da Silvano -

Spiaggia - Bottega - Union Square Cafe - Maialino - Rao's - Babbo - Il Cantinori

Gendering Commitment -

Alex Standen 2015-10-05
Notions of engagement, commitment and impegno continue to provoke debate amongst academics researching contemporary Italian culture, and yet - be it by accident or by more conscious selection - critical work has tended to posit these concepts as a predominantly male and, often, heteronormative domain. This collection of essays challenges this assumption, and analyses more closely the fluid and fragmented nature of commitment, and the work of Italian intellectuals and cultural practitioners associated with it. The volume's contributors engage with those who have typically been excluded from such debates: not only female writers and artists, but also males whose work has been denied the designation of *impegnato*. The chapters all focus on individuals who insist

on the need to question, interrogate and denounce social realities. Employing a range of theoretical perspectives, and bringing into dialogue individuals not typically associated with terms such as engagement and commitment, this volume offers an original and distinctive contribution to a discussion that persists in Italian studies.
