Socio-Tech Innovation - Latha Poonamallee 2020-04-25

This book defines socio-technological innovation and lays out different aspects of technology innovation and adoption literature as applied to socio-tech innovation and entrepreneurship. Socio-tech innovation refers to novel solutions that involve development or adoption of technological innovations to address social and/or environmental problems with a view towards creating benefit for the larger whole rather than just for the owners or investors. Unlike conventional technological innovation, socio-tech innovation either develops a product specifically for underserved markets and adopts a model in which the market is not an afterthought but the *raison d'être*. Social ventures have not been as successful in scaling up, though technology innovation-led ventures have; therefore, meaningful actionable insights that can help social ventures scale up successfully can be gleaned by this process. This book offers researchers in innovation and entrepreneurship programs a unique and interdisciplinary approach to studying social innovation that is grounded in technology innovation. This book features a series of socio-tech venture cases that illustrate these dynamics and can be used in undergraduate and graduate courses.

Leadership, Authority and Representation in British Muslim Communities - Sophie Gilliat-Ray 2021-01-26

The contributions explore Muslim religious leadership in multiple forms and settings. While traditional authority is usually correlated with theology and piety, as in the case of classically trained ulema, the public advocacy of Muslim community concerns is often headed by those with professionalized skillsets and civic experience. In an increasingly digital world, both women and men exercise leadership in novel ways, and sites of authority are refracted from traditional loci, such as mosques and seminaries, to new and unexpected places. This collection provides systematic focus on a topic that has hitherto been given rather diffuse consideration. It complements historical work on community leadership as well as more contemporary discussion on the training and role of Islamic religious authorities. It will be of interest to scholars in Religious Studies, Sociology, Political Science, History, and Islamic Studies.

Meeting Expectations in Management Education - Elizabeth Christopher 2018-05-25

This book brings together a variety of international, cross-cultural case studies of management education programmes and discusses the results in light of the present higher social expectations on managerial behaviour. It presents both traditional and unusual approaches to management education, examining concept mapping, transformational learning theory, the practice-theory gap, cultural indoctrination and business students' increased concern with socio-ecological sustainability. It moves from restating the purpose of university business schools to discussing the construction of conducive learning environments on introductory courses and of communities of learning through 'harmonised teaching'. In addressing the social and ethical problems that will soon confront all managers, *Meeting Expectations* is a valuable resource for teachers, students and practitioners.

Foreign Investment in Rapidly Growing Countries - H. Kehal 2004-12-10
China and India have both received a great amount of focus from the foreign investors. However, there are acute differences in the implementation of the economic reforms; China made rapid progress in the manufacture of high technology products, whilst India progressed in the development of high technology. This book explores the contrasts between China and India in attracting, utilizing and related issues and discusses the challenges faced by the foreign investors.
