Machine Habitus - Massimo Airoidi 2021-12-13

We commonly think of society as made of and by humans, but with the proliferation of machine learning and AI technologies, this is clearly no longer the case. Billions of automated systems tacitly contribute to the social construction of reality by drawing algorithmic distinctions between the visible and the invisible, the relevant and the irrelevant, the likely and the unlikely - on and beyond platforms. Drawing on the work of Pierre Bourdieu, this book develops an original sociology of algorithms as social agents, actively participating in social life. Through a wide range of examples, Massimo Airoidi shows how society shapes algorithmic code, and how this culture in the code guides the practical behaviour of the code in the culture, shaping society in turn. The 'machine habitus' is the generative mechanism at work throughout myriads of feedback loops linking humans with artificial social agents, in the context of digital infrastructures and pre-digital social structures. Machine Habitus will be of great interest to students and scholars in sociology, media and cultural studies, science and technology studies and information technology, and to anyone interested in the growing role of algorithms and AI in our social and cultural life.

The Tudors - England, 1485-1603 - Sally Waller 2015-09-03

Retaining well-loved features, this book covers in breadth issues of change, continuity, and cause and consequence in this period of English history through key questions such as how effectively did the Tudors develop the powers of the monarchy, and how did English society and economy change.

Stuart: A Life Backwards - Alexander Masters 2006-05-30

In this extraordinary book, Alexander Masters has created a moving portrait of a troubled man, an unlikely friendship, and a desperate world few ever see. A gripping who-done-it journey back in time, it begins with Masters meeting a drunken Stuart lying on a sidewalk in Cambridge, England, and leads through layers of hell...back through crimes and misdemeanors, prison and homelessness, suicide attempts, violence, drugs, juvenile halls and special schools-to expose the smiling, gregarious thirteen-year-old boy who was Stuart before his long, sprawling, dangerous fall. Shocking, inspiring, and hilarious by turns, Stuart: A Life Backwards is a writer's quest to give voice to a man who, beneath his forbidding exterior, has a message for us all: that every life-even the most chaotic and disreputable-is a story worthy of being told.

England 1625-1660 - Dale Scarboro 2005-05-15

This series uses varied learning approaches to offer in-depth content coverage of the most popular AS and A2 options.

It ensures that students understand the bigger picture, supporting their progression to further study, with synoptic links and a focus on how scientists and engineers apply their knowledge in real life.

Land of Strangers - Ash Amin 2013-04-24

The impersonality of social relationships in the society of strangers is making majorities increasingly nostalgic for a time of closer personal ties and strong community moorings. The constitutive pluralism and hybridity of modern living in the West is being rejected in an age of heightened anxiety over the future and drummed up aversion towards the stranger. Minorities, migrants and dissidents are expected to stay away, or to conform and integrate, as they come to be framed in an optic of the social as interpersonal or communitarian. Judging these developments as dangerous, this book offers a counter-argument by looking to relations that are not reducible to local or social ties in order to offer new suggestions for living in diversity and for forging a different politics of the stranger. The book explains the balance between positive and negative public feelings as the synthesis of habits of interaction in varied spaces of collective being, from the workplace and urban space, to intimate publics and tropes of imagined community. The book proposes a series of interventions that make for public being as both unconscious

habit and cultivated craft of negotiating difference, radiating civilities of situated attachment and indifference towards the strangeness of others. It is in the labour of cultivating the commons in a variety of ways that Amin finds the elements for a new politics of diversity appropriate for our times, one that takes the stranger as there, unavoidable, an equal claimant on ground that is not pre-allocated.

Making of Modern Britain, 1951-2007 - Sally Waller 2015-09-10

Retaining all the well-loved features, this book is now matched to the new AQA specification and covers AS and A Level content together. With a strong focus on history skills, exam practice and specially selected sources and extracts, this book covers the period in depth, to help students understand key ideas, events and developments.

Ethics for A-Level - Mark Dimmock 2017-07-31

What does pleasure have to do with morality? What role, if any, should intuition have in the formation of moral theory? If something is 'simulated', can it be immoral? This accessible and wide-ranging textbook explores these questions and many more. Key ideas in the fields of normative ethics, metaethics and applied ethics are explained rigorously and systematically, with a vivid writing style that enlivens the topics with energy and wit. Individual theories are discussed in detail in the first part of the book, before these positions are applied to a wide range of contemporary situations including business ethics, sexual ethics, and the acceptability of eating animals. A wealth of real-life examples, set out with depth and care, illuminate the complexities of different ethical approaches while conveying their modern-day relevance. This concise and highly engaging resource is tailored to the Ethics components of AQA Philosophy and OCR Religious Studies, with a clear and practical layout that includes end-of-chapter summaries, key terms, and common mistakes to avoid. It should also be of practical use for those teaching Philosophy as part of the International Baccalaureate. Ethics for A-Level is of particular value to students and teachers, but Fisher and Dimmock's precise and scholarly approach will appeal to anyone seeking a rigorous and lively introduction to the challenging subject of ethics. Tailored to the Ethics components of AQA Philosophy and OCR Religious Studies.

Bayesian Data Analysis, Third Edition - Andrew Gelman 2013-11-01 Now in its third edition, this classic book is widely considered the leading text on Bayesian methods, lauded for its accessible, practical approach to analyzing data and solving research problems. Bayesian Data Analysis, Third Edition continues to take an applied approach to analysis using up-to-date Bayesian methods. The authors—all leaders in the statistics community—introduce basic concepts from a data-analytic perspective before presenting advanced methods. Throughout the text, numerous worked examples drawn from real applications and research emphasize

the use of Bayesian inference in practice. New to the Third Edition Four new chapters on nonparametric modeling Coverage of weakly informative priors and boundary-avoiding priors Updated discussion of cross-validation and predictive information criteria Improved convergence monitoring and effective sample size calculations for iterative simulation Presentations of Hamiltonian Monte Carlo, variational Bayes, and expectation propagation New and revised software code The book can be used in three different ways. For undergraduate students, it introduces Bayesian inference starting from first principles. For graduate students, the text presents effective current approaches to Bayesian modeling and computation in statistics and related fields. For researchers, it provides an assortment of Bayesian methods in applied statistics. Additional materials, including data sets used in the examples, solutions to selected exercises, and software instructions, are available on the book's web page.

Stuart Britain: A Very Short Introduction - John Morrill 2000-08-10

First published as part of the best-selling The Oxford Illustrated History of Britain, John Morrill's Very Short Introduction to Stuart Britain sets the Revolution into its political, religious, social, economic, intellectual, and cultural contexts. It thus seeks to integrate what most other surveys pull apart. It gives a graphic account of the effects of a century-long period during which population was growing inexorably and faster than both the food supply and the employment market. It looks at the failed attempts of successive governments to make all those under their authority obedient members of a unified national church; it looks at how Charles I blundered into a civil war which then took on a terrifying momentum of its own. The result was his trial and execution, the abolition of the monarchy, the house of lords, the bishops, the prayer book and the celebration of Christmas. As a result everything else that people took for granted came up for challenge, and this book shows how painfully and with what difficulty order and obedience was restored.

Vividly illustrated and full of startling detail, this is an ideal introduction to those interested in getting into the period, and also contains much to challenge and stimulate those who already feel at home in Stuart England. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead

in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

A/AS Level History for AQA The English Revolution, 1625-1660 Student Book - Tom Wheeley 2015-12-03
