Writing Ground Zero - John Whittier Treat
1995

Treat summarizes the Japanese contribution to such ongoing international debates as the crisis of modern ethics, the relationship of experience to memory, and the possibility of writing history. This Japanese perspective, he shows, both confirms and amends many of the assertions made in the West on the shift that the death camps and nuclear weapons have jointly signaled for the modern world and for the future.

Women and the Mafia - Giovanni Fiandaca
2007-09-04

The insightful essays in this book shine a new light on the roles of women within criminal networks, roles that in reality are often less traditional than researchers used to think. The book seeks to answer questions from a wide

range of academic disciplines and traces the portrait of women tied to organized crime in Italy and around the world. The book offers up accounts of mafia women, and also tales of severe abuse and violence against women.

A Window on the Italian Female Modernist Subjectivity - Rossella M. Riccobono
2013-09-17

This collection of essays surveys some of the artistic productions by female figures who stood at the forefront of Italian modernity in the fields of literature, photography, and even the theatre, in order to explore how artistic engagement in women informed their views on, and reactions to the challenges of a changing society and a ‘disinhibiting’ intellectual landscape. However, one other objective takes on a central role in this volume: that of opening a window on the re-definition of the subjectivity of the self that occurred during an intriguing and still not fully studied period of artistic and societal changes. In particular, the present volume aims to define a female Italian Modernism which can be seen as complementary, and not necessarily in opposition, to its male counterpart.

Il giocoliere elettronico - Nam June Paik 2002
An homage to Nam June Paik, "The Electronic Wizard" focuses on the video art pioneer's intense period of collaboration with cellist Charlotte Moorman. Opening the book is a series of black-and-white photographs, many of them shot by Peter Moore, documenting the complex relationship and artistic collaboration between Paik and Moorman, which began in 1964 and continued for a decade. The American musician is portrayed in various performances, in particular "Opera Sextronique" from 1967. Next come Paik's video sculptures, made of old radios, ancient televisions, and other retro objects--robot like forms that appear as ironic and imaginary metaphorical portraits of the soul of the new electronic man. "The Electronic Wizard" closes with a section dedicated to Paik's videos, presenting stills from eighteen individual works made between 1974 and 1989, including "Beatles Electronique," "Electronic Yoga," "Good Morning Mr. Orwell," and "Living with the Theater."

Portugal, Jesuits and Japan - Victoria Louise Weston 2013-01-01

Offering a new perspective on global trade relations during the Age of Exploration, Portugal, Jesuits, and Japan explores the relationships between Portuguese merchants, Jesuits, and the Japanese during the nanban period (1543-1614). Created to accompany an exhibit of the same name at the McMullen Museum of Art, this catalogue is richly illustrated with full-page images of Japanese art and artifacts of the period, from and porcelain objects to furniture and weaponry. Victoria Weston has assembled a collection of nine essays by internationally renowned scholars from a variety of fields, which when taken as a whole create a comprehensive study of international relations during the period on a political, cultural, and spiritual level. The texts reflect upon a broad range of topics, from commercial contacts between shoguns and

Iberian governments to close readings of the cultural implications of images depicted in nanban art. This volume explores the interactions between these three discrete groups through historical research, and the technological, political, and theological influence the West had upon the East and vice versa.

Teacher Strategies (RLE Edu L) - Peter Woods 2012-05-16

This book takes as its focus the key interactionist concept of 'strategy', a concept fundamental to many current concerns in the sociology of the school, including the understanding of the links between society and the individual, a more accurate description of certain areas of school life and implications for the practice of teaching. 'Strategy' bears on all these issues. It concerns both goals, and ways of achieving them and short-term, immediate aims as well as long-term ones. The essays in this book share a common concern with teacher strategies, emphasizing the discovery of intentions and motives, alternative definitions of situations and the hidden rules that guide our behaviour. Amongst the areas investigated are the influence of factors outside the school in determining the role of the teacher, and the nature and influence of teacher commitment. The implications for practical action and policy making are stressed throughout, and by recognising and exploring the constraints and influences that operate on teachers, this work constructs a realistic appraisal of the teaching situation.

The Book of Disquiet - Fernando Pessoa 2010-12-09

Sitting at his desk, Bernardo Soares imagined himself free forever of Rua dos Douradores, of his boss Vasques, of Moreira the book-keeper, of all the other employees, the errand boy, the post boy, even the cat. But if he left them all tomorrow and discarded the suit of clothes he wears, what else would he do? Because he would

have to do something. And what suit would he wear? Because he would have to wear another suit. A self-deprecating reflection on the sheer distance between the loftiness of his feelings and the humdrum reality of his life, *The Book of Disquiet* is a classic of existentialist literature. ***Shadows on the Screen*** - Thomas LaMarre 2005

Numbers in the Dark - Italo Calvino
2014-11-18

From the acclaimed, genre-bending Italian fabulist author, a posthumous collection of career-spanning stories previously unavailable in English. "Everybody telephones everybody at every possible moment, and nobody can speak to anybody . . . Distance has been the warp that supports the weft of every love story." —from Numbers in the Dark Written between 1943 and 1984, the stories in Numbers in the Dark span the career of one of fiction's modern masters: from Italo Calvino's earliest fables, to tales informed by life in World War II-era Italy, to the delightful experimentation that would define his later work. Here are speculative stories on life in the digital age, genre-bending wonders, and "impossible interviews" with the likes of Montezuma and a Neanderthal. Deftly translated by Tim Parks, Numbers in the Dark shows off Calvino's lifelong gift for subtle humor and shimmering philosophical insight. Praise for Numbers in the Dark "Numbers in the Dark is a glorious grab-bag . . . [with] enough gems from every phase in Calvino's career to make it feel indispensable." —Seattle Times "These stories reward the patient reader with wisdom, humor, and insight." —Library Journal "Calvino . . . is well-represented in this continually surprising collection Novelist Parks's superb translations capture Calvino's quirky, iconoclastic voice, helping to make this a worthy addition to the Calvino shelf." —Publishers Weekly

[The Years of Alienation in Italy](#) - Alessandra Diazzi 2019-06-11

The Years of Alienation in Italy offers an interdisciplinary overview of the socio-political, psychological, philosophical, and cultural

meanings that the notion of alienation took on in Italy between the 1960s and the 1970s. It addresses alienation as a social condition of estrangement caused by the capitalist system, a pathological state of the mind and an ontological condition of subjectivity. Contributors to the edited volume explore the pervasive influence this multifarious concept had on literature, cinema, architecture, and photography in Italy. The collection also theoretically reassesses the notion of alienation from a novel perspective, employing Italy as a paradigmatic case study in its pioneering role in the revolution of mental health care and factory work during these two decades.

Photographing Mussolini - Alessandra Antola Swan 2020-12-10

This pioneering book offers the first account of the work of the photographers, both official and freelance, who contributed to the forging of Mussolini's image. It departs from the practice of using photographs purely for illustration and places them instead at the centre of the analysis. Throughout the 1930s photographs of the Italian dictator Benito Mussolini were chosen with much care by the regime. They were deployed to highlight those physical traits - the piercing eyes, protruding jaw, shaved head - that were meant to evoke the Duce's strength, determination and innate sense of leadership in the mind of his contemporaries. The chapters in this volume explore the photographic image in the socio-political context of the time and shows how it was a significant contributor to the development of Italian mass culture between the two world wars.

The Great Beauty - Alberto Spadafora 2014-09-24

Luca Bigazzi is one of Italy's most acclaimed award-winning directors of photography (DOP). His life has been dedicated entirely to the best of independent Italian cinema (not counting his work with Abbas Kiarostami). He has worked with directors such as Mario Martone, Gianni Amelio, Cipri e Maresco, Silvio Soldini, Carlo Mazzacurati, Antonio Capuano, Leonardo Di Costanzo and Andrea Segre, and has been working with Paolo Sorrentino since *The Consequences of Love* in 2004. In this interview, edited by the photographer and film critic Alberto Spadafora, the Italian cinematographer

talks about *The Great Beauty*, prizewinner of the Academy Award for Best Foreign Language Film of 2014. Although well-received abroad, the film hasn't had the same reaction in Italy. In the book Bigazzi explains his work using the camera and light, and describes Sorrentino's work methods and style. He also discusses the ethical and political issues in this harsh portrayal of Italy."

How to Learn German in 30 Days - Giovanni Sordelli 2020

This book will make you learn German in just 30 days, starting from scratch. And this is more than just a promise. Let me explain it to you... The method is very simple: this book is divided into 30 chapters, one per day. This, will allow you to learn the basics of this language in just one month. To get the most out of this course, you just have to respect one, simple rule. You must read one chapter per day, no more, no less. If you respect this rule, and follow the

instructions you find in this book, the result is guaranteed. Forget the usual boring grammar courses with an anonymous and depersonalized profile. "How to learn German in 30 days" has been realized with all the trimmings of self-help. It looks like a practical manual, with a personal, fun and motivating cut. It is rich of several curious anecdotes and useful tips not only to speak German, but also to get by on the road. If you are still not convinced, keep reading... From the author's introduction... German, trust me, will open you a lot of doors: and, not of secondary importance, you'll face far less competition than you would with Spanish or French, for example, since German is less widespread studied in schools and universities. Thus, in short, this manual will give you, within a month, all the grammatical skills you need to juggle the meanders of a language that is really useful and usable for those who have in mind career ambitions, tourism goals, or simply personal curiosity interests. Finally, please, don't worry, I will also provide you with many other useful tools, like online channels, readings and suitable movies, in order that the course and your learning will continue even beyond this month. You'll like it, you'll see, and you'll be abundantly satisfied, even if at the beginning, as is normal, you are doubtful and still convinced that the good old traditional courses, with their long structure and depersonalising attitude, are yet the state of the art, the best the market can offer.

Pragmatics - Stephen C. Levinson 1983-06-09
Those aspects of language use that are crucial to an understanding of language as a system, and especially to an understanding of meaning, are the acknowledged concern of linguistic pragmatics. This textbook provides a lucid and integrative analysis of the central topics in pragmatics - deixis, implicature, presupposition, speech acts, and conversational structure. A central concern of the book is the relation between pragmatics and semantics, and Dr Levinson shows clearly how a pragmatic approach can resolve some of the problems semantics have been confronting and simplifying semantic analyses. The exposition is always clear and supported by helpful exemplification. The detailed analyses of selected topics give the student a clear view of the empirical rigour

demanded by the study of linguistic pragmatics, but Dr Levinson never loses sight of the rich diversity of the subject. An introduction and conclusion relate pragmatics to other fields in linguistics and other disciplines concerned with language usage - psychology, philosophy, anthropology and literature.

In the spring of 1984, high school students Amanda Collier and Dawson Cole fell deeply, irrevocably in love. Though they were from opposite sides of the tracks, their love for one another seemed to defy the realities of life in the small town of Oriental, North Carolina. But as the summer of their senior year came to a close, unforeseen events would tear the young couple apart, setting them on radically divergent paths. Now, twenty-five years later, Amanda and Dawson are summoned back to Oriental for the funeral of Tuck Hostetler, the mentor who once gave shelter to their high school romance. Neither has lived the life they imagined . . . and neither can forget the passionate first love that forever changed their lives. As Amanda and Dawson carry out the instructions Tuck left behind for them, they realize that everything they thought they knew -- about Tuck, about themselves, and about the dreams they held dear -- was not as it seemed. Forced to confront painful memories, the two former lovers will discover undeniable truths about the choices they have made. And in the course of a single,

searing weekend, they will ask of the living, and the dead: Can love truly rewrite the past?

Feeding the City - Sara Roncaglia 2013-07-15
Every day in Mumbai 5,000 dabbawalas (literally translated as "those who carry boxes") distribute a staggering 200,000 home-cooked lunchboxes to the city's workers and students. Giving employment and status to thousands of largely illiterate villagers from Mumbai's hinterland, this co-operative has been in operation since the late nineteenth century. It provides one of the most efficient delivery networks in the world: only one lunch in six million goes astray.

Feeding the City is an ethnographic study of the fascinating inner workings of Mumbai's dabbawalas. Cultural anthropologist Sara Roncaglia explains how they cater to the various dietary requirements of a diverse and increasingly global city, where the preparation and consumption of food is pervaded with religious and cultural significance. Developing the idea of "gastrosemantics" - a language with which to discuss the broader implications of cooking and eating - Roncaglia's study helps us to rethink our relationship to food at a local and global level.
