Biodiversity of Vegetable Crops, A Living Heritage - Massimiliano Renna 2019-04-09

Intensive agriculture has generally resulted in higher productivity, but also in a trend towards decreasing levels of agro-biodiversity, which represents a key point in ensuring the adaptability and resilience of agro-ecosystems in the global challenge to produce more and better food in a sustainable way. The biodiversity of vegetable crops includes genetic diversity—both as species diversity (interspecific diversity) and as a diversity of genes within a species (intraspecific diversity) with regard to the vegetable varieties grown—and the diversity of agro-ecosystems (agro-biodiversity). The purpose of this Special Issue is to publish high-quality research papers addressing recent progress and perspectives on

different aspects related to the biodiversity of vegetable crops. Original, high-quality contributions that have not yet been published, or that are not currently under review by other journals have been sought. The papers in this Special Issue cover a broad range of aspects and report recent research results regarding agro-biodiversity, which continues to be of significant relevance for both genetic and agricultural applications. All contributions are of significant relevance and could stimulate further research in this area.

The Opera of Bartolomeo Scappi (1570) - Terence Scully 2011-01-22
Bartolomeo Scappi (c. 1500-1577) was arguably the most famous chef of the Italian Renaissance. He oversaw the preparation of meals for several Cardinals and was such a master of his profession that he became the personal cook for two Popes. At the culmination of his prolific career he compiled the largest cookery treatise of the period to instruct an apprentice on the full craft of fine cuisine, its methods, ingredients, and recipes. Accompanying his book was a set of unique and precious engravings that show the ideal kitchen of his day, its operations and

myriad utensils, and are exquisitely reproduced in this volume. Scappi's Opera presents more than one thousand recipes along with menus that comprise up to a hundred dishes, while also commenting on a cook's responsibilities. Scappi also included a fascinating account of a pope's funeral and the complex procedures for feeding the cardinals during the ensuing conclave. His recipes inherit medieval culinary customs, but also anticipate modern Italian cookery with a segment of 230 recipes for pastry of plain and flaky dough (torte, ciambelle, pastizzi, crostate) and pasta (tortellini, tagliatelli, struffoli, ravioli, pizza). Terence Scully presents the first English translation of the work. His aim is to make the recipes and the broad experience of this sophisticated papal cook accessible to a modern English audience interested in the culinary expertise and gastronomic refinement within the most civilized niche of Renaissance society.

Translators through History - Jean Delisle 2012-07-05

Acclaimed, when it first appeared, as a seminal work – a groundbreaking book that was both informative and highly readable – Translators

through History is being released in a new edition, substantially revised and expanded by Judith Woodsworth. Translators have played a key role in intellectual exchange through the ages and across borders. This account of how they have contributed to the development of languages, the emergence of literatures, the dissemination of knowledge and the spread of values tells the story of world culture itself. Content has been updated, new elements introduced and recent directions in translation scholarship incorporated, providing fresh insights and a more nuanced view of past events. The bibliography contains over 100 new titles and illustrations have been refreshed and enhanced. An invaluable tool for students, scholars and professionals in the field of translation, the latest version of Translators through History remains a vital resource for researchers in other disciplines and a fascinating read for the wider public.

Harvest of the Cold Months - Elizabeth David 2011

'A splendid tale of human ingenuity in the service of taste, sedulously researched and told with great flair.' Loyd Grossman Sunday Times
Author of such cookery classics as Italian Food and French Provincial Cooking, Elizabeth David (1913-1992) found that the literature of cookery, as well as the practical side, was of absorbing interest, and she studied it throughout her life. Spices, Salt and Aromatics in the English Kitchen was published in 1970, followed by English Bread and Yeast Cookery, for which she won the Glenfiddich Writer of the Year award, in 1977. At the time of her death in 1992 she was working on this equally epic study of the use of ice, the ice-trade and the early days of refrigeration, which was published posthumously in 1994 as Harvest of the Cold Months. 'An awe-inspiring feat of detective scholarship, the literally marvellous story of how human beings came to ingest lumps of flavoured frozen matter for pleasure ... There is much, much more - about the making and breaking of reputations, the founding of Parisian café culture, the great and rivalrous confectioners of eighteenth- and nineteenth-century London, about Russian ice-cream (surprisingly superior) and Persian sherbets ... sumptuous.' Independent on Sunday
'This survey of the use of ice in cookery takes us on a fascinating journey

from 1581, where in Florence they put snow in the wine glasses, to that modern phenomenon, the growth of the ice-cream business. A scholarly social history, which makes a fitting finale to the work of the greatest of our writers on foods and its contexts.' Harpers & Queen

History of the Italian Agricultural Landscape - Emilio Sereni
2014-07-14

Emilio Sereni's classic work is now available in an English language edition. History of the Italian Agricultural Landscape is a synthesis of the agricultural history of Italy in its economic, social, and ecological context, from antiquity to the mid-twentieth century. From his perspective in the Italian tradition of cultural Marxism, Sereni guides the reader through the millennial changes that have affected the agriculture and ecology of the regions of Italy, as well as through the successes and failures of farmers and technicians in antiquity, the middle ages, the Renaissance, and the Industrial Revolution. In this sweeping historical survey, he describes attempts by successive generations to adapt Italy's natural environment for the purposes of agriculture and to respond to its changing ecological problems. History of the Italian Agricultural Landscape first appeared in 1961. At the time of its publication it was a pathbreaking work, parallel in its importance for Italy to Marc Bloc's masterwork of 1931, The Original Characteristics of French Rural History. Sereni invented the concept of the historical "agricultural landscape": an interdisciplinary characterization of rural life involving economic and social history, linguistics, archeology, art history, and ecological studies. Originally published in 1997. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905. *SHE BROKE UP, I DIDN'T* - Durjoy Datta 2013-11-15

Deb is absolutely crazily in love with the stunning Avantika. He can't

believe that she is his. Their relationship is going great except for the one time when Deb faltered by breaching her trust. After he apologized, Avantika grudgingly accepted him back. However, his insecurity about her seems to be pushing him into infidelity again. The trust that he had worked so hard to build is lost once again. Will Avantika take him back this time or will she move on? In *She Broke Up, I Didn't!* . . . Durjoy Datta explores the themes of fidelity, love and lust through a roller coaster of misunderstandings and mistakes that are so common in relationships today.

Hard Bop Academy - Alan Goldsher 2002

Art Blakey and the Jazz Messengers was one of the most enduring, popular, reliable and vital small bands in modern jazz history. Blakey was not only a distinguished, inventive and powerful drummer, but along with Duke Ellington and Miles Davis, he was one of jazz's foremost talent scouts. The musicians who flowed seamlessly in and out of this constantly evolving collective during its 36-year run were among the most important artists not just of their eras, but of any era. Though their respective innovations were vital to the evolution of bebop, hard bop and neo bop, the recorded work of the Messengers sidemen has never been properly analyzed. Until now. *Hard Bop Academy: The Sidemen of Art Blakey's Jazz Messengers* critically examines the multitude of gifted artists who populated the many editions of the Jazz Messengers. In addition to dissecting the sidemen's most consequential work with Blakey's band, jazz musician and acclaimed novelist Alan Goldsher offers up engaging profiles of everyone from Wynton Marsalis to Terence Blanchard to Hank Mobley to Wayne Shorter to Horace Silver to Keith Jarrett to Curtis Fuller to Steve Davis. And that's only the beginning. Goldsher conducted over 30 interviews with surviving graduates of Blakey's *Hard Bop Academy*, many of whom spoke at length of their tenure with the legendary "Buhaina" for the first time. Alan Goldsher is a bassist who has recorded with Janet Jackson, Digable Planets, Cypress Hill and Naughty By Nature. His writing has been published in *Bass Player*, *Tower Pulse*, *Sport and BasketBull*: Chicago Bulls Magazine. Goldsher's debut novel, *Jam*, was published in 2002 by Permanent Press.

He lives in Chicago. Hardcover.

History of Artificial Cold, Scientific, Technological and Cultural Issues - Kostas Gavroglu 2013-11-19

The history of artificial cold has been a rather intriguing interdisciplinary subject (physics, chemistry, technology, sociology, economics, anthropology, consumer studies) which despite some excellent monographs and research papers, has not been systematically exploited.

It is a subject with all kinds of scientific, technological as well as cultural dimensions. For example, the common home refrigerator has brought about unimaginably deep changes to our everyday lives changing drastically eating habits and shopping mentalities. From the end of the 19th century to the beginning of the 21st, issues related to the production and exploitation of artificial cold have never stopped to provide us with an incredibly interesting set of phenomena, novel theoretical explanations, amazing possibilities concerning technological applications and all encompassing cultural repercussions. The discovery of the unexpected and "bizarre" phenomena of superconductivity and superfluidity, the necessity to incorporate macroscopic quantum phenomena to the framework of quantum mechanics, the discovery of Bose-Einstein condensation and high temperature superconductivity, the use of superconducting magnets for high energy particle accelerators, the construction of new computer hardware, the extensive applications of cryomedicine, and the multi billion industry of frozen foods, are some of the more dramatic instances in the history of artificial cold.

Translation and Conflict - Mona Baker 2018-10-25

Translation and Conflict was the first book to demonstrate that translators and interpreters participate in circulating as well as resisting the narratives that create the intellectual and moral environment for violent conflict and social tensions. Drawing on narrative theory and with numerous examples from historical and current contexts of conflict, Mona Baker provides an original and coherent model of analysis that pays equal attention to the circulation of narratives in translation and to questions of dominance and resistance. With a new preface by Sue-Ann Harding, Translation and Conflict is more than ever the essential text for any student or researcher interested in the study of translation and social movements.
