**Lee Miller in Fashion** - Becky E. Conekin 2013-10-08

Fashion model, surrealist artist, muse, photographer, war correspondent—Lee Miller defies categorization. She was a woman who refused to be penned in, a free spirit constantly on the move from New York to London to Paris, from husbands to lovers and back, from photojournalistic objectivism to surrealism. Midcareer, she made the unprecedented transition from one side of the lens to the other, from a Condé

Nast model in Jazz Age New York to fashion photographer, creating stunning images that imbued fashion with her signature wit and whimsy. Miller became a celebrated Surrealist under the tutelage of her lover, Man Ray, and then joined the war effort during World War II, documenting everything from the liberation of concentration camps to the daily life of Nazi-occupied Paris. Miller was recognized as “one of the most distinguished living photographers” during her hey-day as a fashion photographer, but an astonishing number of these images have remained unpublished. Lee Miller in Fashion is the first book to examine how her career as a model and fashion photographer illuminates her life story and connects to international fashion history from the late 1920s until the early 1950s. The world of fashion emerges as the backbone of Miller's creative development, as well as an integral lens through which to understand the effects of war on the lives of women in the 1940s and 1950s. Miller witnessed incredible acts of resistance born out through fashion—and her photographic record of women's indomitable spirit even in times of war has remained an invaluable resource in fashion and global history. Lee Miller in Fashion presents these striking archival fashion photographs as well as contact sheets, memos, and Miller's published illustrations, vividly setting the wit, irrepressible creativity, and daring of Miller within the larger story of women's experience of fashion, art, and war in the twentieth century. “In all her different worlds, she moved with freedom. In all her roles, she was her own bold self.” —Antony Penrose

*Paratextualizing Games* - Benjamin Beil 2021-11-30

Gaming no longer only takes place as a >closed interactive experience< in front of TV screens, but also as broadcast on streaming platforms or as cultural events in exhibition centers and e-sport arenas. The popularization of new technologies, forms of expression, and online services has had a considerable influence on the academic and journalistic discourse about games. This anthology examines which paratexts gaming cultures have produced - i.e., in which forms and formats and through which channels we talk (and write) about games - as well as the way in which paratexts influence the development of games. How is knowledge about games generated and shaped today and how do boundaries between (popular) criticism, journalism, and scholarship have started to blur? In short: How does the paratext change the text?

**Banksy** - Ulrich Blanché 2016-01-18

About this Book / Bristol born Banksy is usually categorized as a Street Artist, although his art, in content and form, transcends a narrow understanding of this term. This publication primarily deals with Banksy as

a contemporary Urban Artist and his relationship with consumer culture. It examines Banksy not only in light of his illicit work on the street, but also in regard to his gallery exhibitions. The study highlights representative works of his art, pieces which demonstrate his versatility, but also stand for different periods of his oeuvre. This book presents the first academic study of Banksy's art in English; with a history and discussion of the terms Graffiti, Street Art and Urban Art and a rich array of biographical information. It will be of interest to academics and the general public as well. About this Edition / Street Artist Banksy and former Young British artist Damien Hirst are two of the most popular representatives of British contemporary art. Situated in a triangle of art, consumerism and pop culture their work is among the most well-known. A systematic academic study of their artistic viewpoints and references to consumer culture has long been missing, and Ulrich Blanché is finally closing this gap: He examines Hirst's and Banksy's art against the background of the London art scene since 1980. Blanché points out connections to Duchamp, Warhol and Koons, and reflects on the role of the observer, the meaning of location and, especially, the references between art, consumer culture and marketing in their pieces. This two volume edition is the translated and expanded version of the authors dissertational thesis.

*The World's Most Beautiful Libraries* - Georg Ruppelt 2021

From the mighty halls of ancient Alexandria to a camel bookmobile on the Kenyan-Somali border, human beings have had a long, enraptured relationship with libraries. Like no other concept and like no other space, the collection of knowledge, learning, and imagination offers a sense of infinite possibility. It's the unrivaled realm of discovery, where every faded manuscript or mighty clothbound tome might reveal a provocative new idea, a far-flung fantasy, an ancient belief, a religious conviction, or a whole new way of being in the world. In this new photographic journey, Massimo Listri travels to some of the oldest and finest libraries to reveal their architectural, historical, and imaginative wonder. Through great wooden doors, up spiraling staircases, and along exquisite, shelf-lined corridors, he leads us through outstanding private, public, educational, and monastic libraries, dating as far back as 766. Between them, these medieval, classical, baroque, rococo, and 19th-century institutions hold some of the most precious records of human thought and deed, inscribed and printed in manuscripts, volumes, papyrus scrolls, and incunabula. In each, Listri's poised images capture the library's unique atmosphere, as much as their most prized holdings and design details. Featured libraries include the papal collections of the Vatican Apostolic Library, Trinity College Library, home to the Book of Kells and Book of Durrow, and the priceless holdings of the Laurentian Library in Florence, the private library of the powerful House of Medici, designed by Michelangelo. With meticulous descriptions accompanying each featured library, we learn not only of the libraries' astonishing holdings - from which highlights are illustrated - but also of their often lively, turbulent, or controversial pasts. Like Altenburg Abbey in Austria, an outpost of imperial Catholicism repeatedly destroyed during the European wars of religion. Or the Franciscan monastery in Lima, Peru, with its horde of archival Inquisition documents. At once a bibliophile beauty pageant, an ode to knowledge, and an evocation of the particular magic of print, Listri Libraries is above all a cultural-historical pilgrimage to the heart of our halls of learning, to the stories they tell, as much as those they gather in printed matter along polished shelves --

In this novel, Enrique Vila-Matas traces a journey connecting the worlds of Joyce and Beckett, and all they symbolize. One night, a renowned and now retired literary publisher has a vivid dream that takes place in Dublin, a city he's never visited. The central scene of the dream is a funeral in the era of Ulysses.
